Dear Ms Walli:

**Re: Enbridge Gas Distribution Inc. (“Enbridge”)  
Ontario Energy Board (“Board”) File No.: EB-2017-0147  
Fenelon Falls Pipeline Project – Leave to Construct Application**

Further to Enbridge Gas Distribution’s application dated July 26, 2017, it has come to our attention there are additional interested parties (“interested parties”) impacted by the preferred pipeline route. Temporary work space will be required from these interested parties. The interested parties were not identified prior to filing of the application as the temporary working space requirement was not known at the time of title search.

Accordingly Enbridge is providing the Board with updated evidence. Attached please find two copies of the updated evidence indicating the interested parties. Enbridge can confirm that the interested parties have been served with the Board’s Notice of Application and Enbridge’s application.

This submission has been filed through the Board’s Regulatory Electronic Submission System and will be available on the Company’s website at [www.enbridgegas.com/fenelonfalls](http://www.enbridgegas.com/fenelonfalls).

Yours truly,
