

Northern Ontario Wires Inc. 153 Sixth Avenue Cochrane, ON POL 1C0

November 2, 2017

Ms. Kirsten Walli Board Secretary Ontario Energy Board P.O. Box 2319 2300 Yonge Street, 27th Floor Toronto, ON M4P 1E4

Re: 2018 IRM Application EB-2017-0066

Dear Ms. Walli:

Northern Ontario Wires Inc. hereby submits 2018 IRM Application for rates effective May 1, 2018.

An electronic copy has been submitted to the Board through the RESS system, and two hard copies will be delivered to the OEB office.

This document is being filed pursuant to the Board's e-Filing Services.

Yours Truly,

NORTHERN ONTARIO WIRES INC.

Geoffrey Sutton, CPA, CA Chief Financial Officer

Northern Ontario Wires Inc.

Legal Application

ONTARIO ENERGY BOARD

IN THE MATTER OF the Ontario Energy Board Act, 1998, S.O.1998, c.15 (Sched. B)

 AND IN THE MATTER OF an Application by Northern Ontario Wires Inc. for an Order or Orders pursuant to section 78 of the *Ontario Energy Board Act, 1998* for 2018 distribution rates and related matters.

1. The Applicant is Northern Ontario Wires Inc. ("NOW Inc."). NOW Inc. is a licensed electricity distributor operating pursuant to license ED-2003-0018. NOW Inc. distributes electricity to approximately 6,100 customers in the Town of Cochrane, Town of Iroquois Falls and Town of Kapuskasing and charges Board-authorized rates (EB-2016-0096) for the distribution service it provides.

 NOW Inc. hereby applies to the Ontario Energy Board (the "Board") for an order or orders made pursuant to Section 78 of the Ontario Energy Board Act, 1998, as amended, (the "OEB Act") approving just and reasonable rates for the distribution of electricity based on a 2018 4th Generation Incentive Rate-setting ("4GIR") application, effective May 1, 2018.

3. Specifically, NOW Inc. hereby applies for an order or orders granting distribution rates updated and adjusted in accordance with Chapter 3 of the Filing Requirements for Transmission and Distribution Applications updated July 20, 2017 ("Filing Requirements"), including the following:

 a. an adjustment to the retail transmission service rates as provided in Guideline (G-2008-0001) on Retail Transmission Service Rates – October 22, 2008 (Revision 4.0 June 28,2012);

 The continuation of all other Specific Service Charges, Retail Service Charges and Loss Factors as approved in the 2017 Cost of Service Application EB-2016-0096.

4. This Application is supported by written evidence that may be amended from time to time, prior to the Board's final decision on this Application.

 File Number:
 EB-2017-0066

 Exhibit:
 1

 Tab:
 1

 Schedule:
 2

 Page:

Date Filed: November 2, 2017

5. In the event that the Board is unable to provide a Decision and Order in this Application for implementation by the Applicant as of May 1, 2018, NOW Inc. requests that the Board issue an Interim Rate Order declaring the current Distribution Rates and Specific Service Charges as interim until the decided implementation date of the approved 2018 distribution rates.

5 6 7

8

9

1

2

3

4

6. In the event that the effective date does not coincide with the Board's decided implementation date for 2018 distribution rates and charges, NOW Inc. requests permission to recover the incremental revenue from the effective date to the implementation date.

10 11 12

7. The Applicant requests that, pursuant to Section 34.01 of the Board's Rules of Practice and Procedure, this proceeding be conducted by way of written hearing.

131415

8. The Applicant requests that a copy of all documents filed with the Board in this proceeding be served on the Applicant as follows:

Manager's Summary

2

1

Northern Ontario Wires Inc. ("NOW Inc.") hereby submits a complete application for the approval of distribution rates proposed to be effective May 1, 2018 under the 2018 4th Generation Incentive Rate-setting mechanism ("4GIR").

6 7

For purposes of the 2018 4GIR application, NOW Inc. has relied upon the following OEB issued documents and guidelines:

8

10

11

- Chapter 3 of the Filing Requirements for Transmission and Distribution Applications updated on July 20, 2017 ("Filing Requirements")
- Guideline (G-2008-0001) on Retail Transmission Service Rates October
 22, 2008 (Revision 4.0, June 28, 2012) known as ("RSTR Guidelines")
 - Guidelines for Electricity Distributor Conservation And Demand Management EB-2016-0182, dated May 19, 2016

16 17

14

15

Listed below are the specific items to be addressed in the Manager's Summary and reflected in the 4GIR models:

18 19

20

21

- Overview
- Shared Tax Savings
- 22 3. Retail Transmission Service Charges
- 4. Price Cap Adjustment
- 5. LRAM Variance Account ("LRAMVA")
- 25 6. Global Adjustment
- 7. Proposed Deferral and Variance Account Balance Disposition
- 27 8. Proposed Rates and Bill Impacts

File Number: EB-2017-0066

Exhibit: 1
Tab: 1
Schedule: 5
Page: 2 of 8

Date Filed: November 2, 2017

1

2

1. Overview

3 NOW Inc.'s last Cost of Service application was filed under application number EB-2016-0096

- 4 for rates effective May 1, 2017. A full settlement was reached by all parties and the OEB issued
- 5 a Decision and Rate Order on March 23, 2017. NOW Inc.'s last IRM application was filed under
- 6 application EB-2015-0093 for rates effective May 1, 2016. The OEB issued a Decision and
- 7 Rate Order on March 17, 2016.

8

Below is a list of the key items related to NOW Inc.'s 2017 rate application and NOW Inc.'s 2016 4GIR which form the basis for the 2018 4GIR.

10 11

12

13

14

15

16

17

- NOW Inc. is following the International Financial Reporting Standards (IFRS) since January 1, 2015.
- The revenue-to-cost ratios require no further adjustments through the 4GIR period.
 - NOW Inc. disposed of Group 1 Deferral/Variance accounts in the 2017 Cost of Service application. For the 2018 IRM application, NOW Inc. is proposing to dispose of Group 1 Deferral/Variance accounts.

181920

There are no outstanding Board Orders affecting this current application.

2122

The billing determinants that were pre-populated in the models have been verified and are accurate.

24

23

- 25 This Application will affect all ratepayers in NOW Inc.'s service territory. The total bill impacts
- are proposed to be less than 0.36% for all rate classes with the exception of the Residential
- 27 customers at the 10th percentile which will have an impact of approximately 3.84%. A detailed
- breakdown is contained in Table 6 of the Manager's Summary.

 Exhibit:
 1

 Tab:
 1

 Schedule:
 5

 Page:
 3 of 8

Date Filed: November 2, 2017

2. Tax Change

2 NOW Inc.'s corporate tax rate included in its 2017 Cost of Service Application is 15.0%. This

rate continues to be the most current tax rate available.

345

1

The OEB has determined that under a 4GIR plan, a 50/50 sharing of the impact of currently

6 known legislated tax changes as applied to the tax level reflected in the Board approved base

rates for a distributor applies.

8

7

9 Currently, there is no variance between the current corporate tax rate of 15.0% and that

10 embedded in NOW Inc.'s base rates, however should the actual 2018 corporate tax rate change

throughout this application process NOW Inc. requests that material changes be included as a

rate rider. NOW Inc. has completed the Board's 2018 Tax Sharing Model included in the Rate

13 Generator Model attached as Appendix 2.

14

15

11

12

3. Retail Transmission Service Rates

16 NOW Inc. is charged retail transmission service rates by both the Independent Electricity

17 System Operator ("IESO"), and by Hydro One Networks, and in turn has established approved

rates to charge customers in order to recover those expenses.

18 19

20

21

22

23

The OEB provided IRM model compares the current retail transmission costs and retail

transmission revenues to the projected transmission costs. NOW Inc. has completed the model

utilizing the best available information; NOW Inc. acknowledges that the rates are expected to

be updated with potential changes to one, or both, of the IESO or Hydro One transmission

24 service rates.

25

26 Those updates will be incorporated into this application prior to a final decision by the Board.

27 The billing determinants used for calculation of the RTSR rates are the most recent billing

determinants as reported in 2.1.5 of the RRR filings for the year end December 31, 2016. The

29 loss factor of 1.0694 is used in Tab 20 of the IRM model as this is the approved loss factor

 Exhibit:
 1

 Tab:
 1

 Schedule:
 5

 Page:
 4 of 8

Date Filed: November 2, 2017

applicable in Now Inc.'s recent 2017 Cost of Service application. NOW Inc. applied this loss factor as it will be the loss factor applied to customer billing in 2018.

3

4

5

For purposes of this application NOW Inc. proposes to use the following rates as generated by

the 2018 IRM OEB model as filed with this application.

Rate Class	Rate Description	Unit	Proposed Retail Transmission
			Rate
RESIDENTIAL	Retail Transmission Rate - Network Service Rate	\$/kWh	0.0064
RESIDENTIAL	Retail Transmission Rate - Line and Transformation Connection Service Rate	\$/kWh	0.0029
GENERAL SERVICE LESS THAN 50 KW	Retail Transmission Rate - Network Service Rate	\$/kWh	0.0061
GENERAL SERVICE LESS THAN 50 KW	Retail Transmission Rate - Line and Transformation Connection Service Rate	\$/kWh	0.0028
GENERAL SERVICE 50 TO 4,999 KW	Retail Transmission Rate - Network Service Rate	\$/kW	2.4249
GENERAL SERVICE 50 TO 4,999 KW	Retail Transmission Rate - Line and Transformation Connection Service Rate	\$/kW	1.0892
UNMETERED SCATTERED LOAD	Retail Transmission Rate - Network Service Rate	\$/kWh	0.0061
UNMETERED SCATTERED LOAD	Retail Transmission Rate - Line and Transformation Connection Service Rate	\$/kWh	0.0028
STREET LIGHTING	Retail Transmission Rate - Network Service Rate	\$/kW	1.8289
STREET LIGHTING	Retail Transmission Rate - Line and Transformation Connection Service Rate	\$/kW	0.8420

6

7

8

10 11

4. Price Cap Adjustment

Based on the current price cap parameters, the Rate Generator model reflects an adjustment of 1.9% to base distribution rates. That calculation is based on a price escalator of 1.9%, less a productivity factor of 0.0%, and less a stretch factor of 0.0%. NOW Inc. acknowledges that these parameters will be adjusted by the Board in its final decision to reflect the updated price escalator, productivity factor and stretch factor.

 Exhibit:
 1

 Tab:
 1

 Schedule:
 5

 Page:
 5 of 8

Date Filed: November 2, 2017

5. LRAM Variance Account

2 NOW Inc. is not proposing recovery of LRAMVA pertaining to CDM program activities. NOW

3 Inc. believes that the balance is insignificant at this time.

4

1

5 NOW Inc.'s 2017 Cost of Service application concluded the claim for LRAM for 2012, 2013 and

6 2014 programs with persistence to 2014.

7

8

6. Global Adjustment

9 Now Inc.'s description of the settlement process has changed slightly since the last reported

Cost of Service Application. The variance pertains to the timing of true-ups with the IESO. The

updated description is as follows.

11 12

10

13 NOW Inc. uses the first estimate to bill customers and is applicable to all rate classes. The

14 monthly settlements are completed within four business days after month end. This entails

15 settling the difference between RPP Pricing and Spot rate. This is done with both Time of Use

16 (TOU) and conventional meters.

17

19

18 TOU Meters are read at month end based on the calendar month. There is no estimate for

these meters as actual consumption is provided. The data is separated by off-peak, mid-peak,

20 and on-peak. The amounts billed to customers are compared against the actual consumption at

the market rate and the difference is reported and settled with the IESO.

2223

24

21

Conventional meters are read on the first of the month so no estimation is required. The

consumption is allocated to the two tiers. The amount charged at fixed rates is then compared

against the market rate and settled with the IESO.

26

27 NOW Inc. allocates the Class B Global Adjustment line from the IESO invoice based on the

28 percentage of billed RPP consumption in comparison to the total kWh purchased. The RPP

 Exhibit:
 1

 Tab:
 1

 Schedule:
 5

 Page:
 6 of 8

Date Filed: November 2, 2017

portion is allocated to account 4705 – Power and the remaining portion which relates to non-RPP customers is allocated to account 4706 – Global Adjustment.

3

- 4 NOW Inc.'s true up process is completed monthly. This entails aligning the consumption months
- 5 to the proper rate months and calculating the variance using the actual GA rate versus what
- 6 was originally submitted. The true ups are then recorded when submitted to the IESO. NOW
- 7 Inc. acknowledges the guidance on disposition in the OEB letter dated May 23, 2017, *Guidance*
- 8 on the Disposition of Accounts 1588 and 1589 and has incorporated the guidance into
- 9 operations.

10

- 11 NOW Inc. has completed the GA Analysis workform to help assess the annual balance in
- 12 Account 1589. The workform contains the explanations of the reconciling items. The main
- 13 reconciling items include the variance calculated resulting from the RPP/Non-RPP consumption
- 14 split which has been adjusted in the DVA through and adjustment for 2016 balances for
- 15 \$77,780. Additionally a variance of \$86,560 representing the difference in loss factors was
- 16 identified. Manual adjustments to the GA charged on the IESO invoice were also included as a
- 17 reconciling item.
- 18 The Unresolved difference of \$6,693 is not material as it is 0.1% of the expected GA Payments
- 19 to the IESO.

7. Proposed Deferral and Variance Accounts

- 21 NOW Inc. is proposing to dispose of Group 1 audited balances as of December 31, 2016. The
- 22 balance in the Group 1 accounts (Accounts 1550, 1551, 1580, 1584, 1586, 1588, 1589, and
- 23 1595) is a credit of \$242,384 over two years. This is longer than the default disposition period of
- 24 one year, however the two year period will assist with mitigating bill impacts to customers as the
- amounts returned to the customers will smooth rates over two years.

2627

20

- No adjustments were made to any deferral and variance account balances previously approved
- 28 by the OEB on a final basis.

 File Number:
 EB-2017-0066

 Exhibit:
 1

 Tab:
 1

 Schedule:
 5

 Page:
 7 of 8

Date Filed: November 2, 2017

There are four variances of note in Tab 3 Continuity Schedule in the Rate Generator Model. The first is a known variance in BV23 as noted in OEB Slides in the 2018 IRM Process Updates 20170726 presentation relating to Wholesale Market Service Charge included in CBR Class B sub-account. The amount of this variance is \$26,237.

5

7

8

1

2

3

4

The second variance is related to the LRAM Disposition resulting from the 2017 COS application that was recorded upon the approved disposition after the 2016 year end was closed. This variance is the same as filed in the DVA Continuity Schedule during the COS process being -\$31,494.

9

11

- The third variance results from the guidance provided in the Board letter dated May 23, 2017.
- 12 The amount of \$53,556 in account 1588 is the RPP settlement true up claim for 2016 fiscal year
- that was not reflected in the 2016 Audited Financial Statements this excluded from RRR data.
- 14 As per the guidance, this amount is included in the adjustment column for the application and
- will be reversed on the continuity schedule in the following year.

16 17

18

19

20

The fourth variance results from and adjustment made to amend the RPP/Non-RPP split for GA expenses. The adjustment represents a credit of \$77,778 to account 1588 with the offsetting debit to 1589. The adjustment has been identified as a reconciling item in the GA Analysis model.

2122

The net adjustment of (\$24,224) is a combination of the third and fourth variance (\$53,556-\$77,778)

2425

 Exhibit:
 1

 Tab:
 1

 Schedule:

3

- NOW Inc. General Manager certifies that NOW Inc. has robust processes and internal controls
- 5 in place for preparation, review, verification and oversight of the account balances being
- 6 disposed.

8. Bill Impacts

The rates proposed in this application are found at Appendix 2 – Rate Generator Model, and the detailed bill impacts by rate class are found at Appendix 3 – Bill Impacts.

9

11

12 13

14

15

16

17

18

19

7

8

Analyzing residential bill impacts by examining the impact on a bill on the 10th percentile of consumption, it was determined that the 10th percentile figure is 277 kWh. In order to derive the 10th consumption percentile, NOW Inc. utilized consumption data for all residential customers for the period of January 1, 2017 to September 30, 2017. The monthly consumption for individual accounts were averaged to obtain a monthly average consumption per account. The accounts were sorted from highest consumption to lowest. Utilizing NOW Inc.'s residential customer count, the 10th percentile was determined by isolating the top 90th percentile of accounts which resulted in the consumption level for the lower 10th percentile. The results using the most recent 2017 data was then compared to 2016 data and found to be reasonable.

SCHED	OULE C: TARIFF OF RATES AND CHARGES	9

1 INTRODUCTION AND SUMMARY

Northern Ontario Wires Inc. (Northern Ontario Wires) filed an application with the Ontario Energy Board (OEB) to change its electricity distribution rates effective May 1, 2017 (Application). Under the OEB Act, distributors must apply to the OEB to change the rates they charge their customers.

Northern Ontario Wires provides electricity distribution services to approximately 6,100 customers in the Town of Cochrane, the Town of Iroquois Falls and the Town of Kapuskasing.

The OEB's policy for rate setting is set out in a report of the OEB entitled "Renewed Regulatory Framework for Electricity Distributors: A Performance-Based Approach" (RRF). The RRF provides the distributor with performance-based rate application options that support the cost-effective planning and efficient operation of a distribution network. This framework provides an appropriate alignment between a sustainable, financially viable electricity sector and the expectations of customers for reliable service at a reasonable price.

Northern Ontario Wires asked the OEB, through a cost of service application, to approve its rates for 2017. With the approval of the 2017 base year, Northern Ontario Wires can apply annually to adjust its distribution rates in each of the next four years using the RRF Price-Cap Incentive rate-setting option. With this option, the approved 2017 rates are adjusted mechanistically based on inflation and the OEB's assessment of Northern Ontario Wires' efficiency.

The OEB approved three intervenors in this proceeding: the Association of Major Power Consumers in Ontario (AMPCO); the School Energy Coalition (SEC); and the Vulnerable Energy Consumers Coalition (VECC). Northern Ontario Wires and the intervenors (collectively, the parties) resolved all of the issues associated with the Application at a February 23 and 24, 2017 settlement conference and filed a settlement proposal with the OEB on March 9, 2017 and revised on March 13 and 14, 2017 (Settlement Proposal).

The Settlement Proposal reduces the applied for 2017 base revenue requirement by approximately 4.3% (from \$3,563,567 in the Application to \$3,411,159). It also reduces

_

¹ Report of the Board: Renewed Regulatory Framework for Electricity Distributors: A Performance Based Approach, October 18, 2012

the grossed up revenue deficiency from \$619,988 in the Application to \$390,087 (a reduction of approximately 37%).

In the Settlement Proposal, the intervenors accepted Northern Ontario Wires' evidence that the level of planned capital expenditures and the rationale for planning and pacing choices are appropriate to maintain system reliability, service quality objectives and the reliable and safe operations of the distribution system.²

For a typical residential customer with monthly consumption of 750 kWh, the total bill impact updated to reflect the Settlement Proposal and the removal of the Ontario Electricity Support Program (OESP) Charge³ is a decrease of about \$0.46 per month - a percentage decrease of about 0.3%. The original Application showed a bill increase of \$2.31 per month for the typical residential customer.

The OEB finds that the outcomes of the Settlement Proposal are compatible with the operational effectiveness and other performance objectives of the RRF. The OEB approves the rate tariff that arises from the Settlement Proposal and the generic decision on the OESP Charge⁴.

² EB-2016-0096, Settlement Proposal, March 14, 2017 at p. 11.

³ EB-2017-0135, Decision and Order, March 23, 2017. This issue is discussed in greater detail in the implementation section of the decision.

⁴ EB-2017-0135, Decision and Order, March 23, 2017.

2 THE PROCESS

Northern Ontario Wires filed an application on August 26, 2016 for 2017 rates. The OEB issued a Notice of Application on October 20, 2016, inviting parties to apply for intervenor status. AMPCO, SEC and VECC applied for intervenor status and cost eligibility. All of the parties were granted intervenor status and eligibility for cost awards. OEB staff also participated in this proceeding.

The OEB issued Procedural Order No.1 on November 29, 2016. This order established, among other things, the timetable for a written interrogatory discovery process and a settlement conference. Northern Ontario Wires responded to interrogatories filed by OEB staff and the intervenors.

The settlement conference took place on February 23 and 24, 2017. Northern Ontario Wires and the intervenors resolved all of the issues and filed a Settlement Proposal with the OEB on March 9, 2017, which was revised on March 13 and 14, 2017 (see Schedule A attached). In a submission filed on March 15, 2017, OEB staff explained its support for the Settlement Proposal.

3 DECISION ON THE ISSUES

The Settlement Proposal filed by the parties addresses all elements of the OEB's approved issues list for this proceeding, and represents a full settlement of all the issues. Through the settlement process, the parties agreed to certain reductions to Northern Ontario Wires' proposed capital expenditures and operating, maintenance and administrative costs. These adjustments resulted in an overall reduction to the costs from those filed in Northern Ontario Wires' original Application.

Findings

The OEB approves the Settlement Proposal (see Schedule A attached) and the associated cost consequences.

The OEB does not consider the approval of this Settlement Proposal to prejudice the outcome of the policy consultation on Other Post-Employment Benefits (OPEBs) and is not determinative in any way. In the Settlement Proposal, Northern Ontario Wires has agreed to change its accounting for OPEBs from an accrual to a cash basis and establish a deferral account to record the difference in revenue requirement between the two methodologies. The OEB does not generally approve changes when a new policy is anticipated but has agreed in this case as the total dollar amount is small and the rest of the settlement is reasonable.

With one exception, the OEB approves the draft accounting order to establish an OPEB Forecast Cash versus Forecast Accrual Differential Deferral Account filed as an attachment to the Settlement Proposal. The effective date of the accounting order has been changed from January 1, 2017 to May 1, 2017 for two reasons. First, the effective date of an accounting order should not predate the order approving a new account, and second, the Settlement Proposal indicates an effective date for rates of May 1, 2017. The implicit revenue requirement from January 1, 2017 to April 30, 2017 is based on accounting for OPEBs on an accrual basis. The approved accounting order is attached as Schedule B.

Overall, the OEB finds that the Settlement Proposal benefits consumers and produces outcomes that are consistent with the operational effectiveness and other performance objectives of the RRF.

4 IMPLEMENTATION

The new rates are to be effective and implemented May 1, 2017. With the Settlement Proposal, Northern Ontario Wires provided detailed supporting material, including all of the relevant calculations showing the impact of the implementation of the settlement on its approved revenue requirement, the allocation of the revenue requirement to its rate classes and the determination of the final rates and rate riders, including bill impacts.

On March 23, 2017, the OEB issued a Decision and Order rescinding the OESP charge effective May 1, 2017 (EB-2017-0135), and that charge has been removed from the attached tariff.

The OEB also made other wording changes to the tariff sheets attached to the Settlement Proposal to ensure consistency with those of other Ontario electricity distributors.

The final, approved Tariffs of Rates and Charges are attached as Schedule C to this Decision and Rate Order.

As noted previously, AMPCO, SEC and VECC are eligible for cost awards in this proceeding. The OEB has made provision in this Decision and Rate Order for these intervenors to file their cost claims. The OEB will issue its cost award decision after the following steps are completed.

5 ORDER

THE ONTARIO ENERGY BOARD ORDERS THAT:

- The Accounting Order to establish the OPEB Forecast Cash versus Forecast Accrual Differential Deferral Account as set out in Schedule B, is effective May 1, 2017.
- 2. The Tariff of Rates and Charges set out in Schedule C of this Order are final effective May 1, 2017, and will apply to electricity consumed, or estimated to have been consumed, on and after May 1, 2017. Northern Ontario Wires Inc. shall notify its customers of the rate changes no later than the delivery of the first bill reflecting the new rates.
- 3. AMPCO, SEC and VECC shall submit their cost claims no later than 7 days from the date of issuance of this Decision and Rate Order.
- Northern Ontario Wires shall file with the OEB and forward to the intervenors any objections to the claimed costs within 14 days from the date of issuance of this Decision and Rate Order.
- 5. The intervenors shall file with the OEB and forward to Northern Ontario Wires any responses to any objections for cost claims within 21 days from the date of issuance of this Decision and Rate Order.
- 6. Northern Ontario Wires shall pay the OEB's costs incidental to this proceeding upon receipt of the OEB's invoice.

DATED at Toronto March 23, 2017

ONTARIO ENERGY BOARD

Kirsten Walli Board Secretary

SCHEDULE C: TARIFF OF RATES AND CHARGES DECISION AND RATE ORDER NORTHERN ONTARIO WIRES INC. EB-2016-0096 MARCH 23, 2017

Effective and Implementation Date May 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0096

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less where the electricity is used exclusively in a separately metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartments building also qualify as residential customers. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Service Charge	\$	30.30
Rate Rider for Smart Metering Entity Charge - effective until October 31, 2018	\$	0.79
Rate Rider for Disposition of Group 2 Deferral/Variance Accounts (2017) - effective until April 30, 2019	\$	0.16

Effective and Implementation Date May 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0096

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to a non residential account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2016-0096

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification refers to a non residential account whose monthly average peak demand is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2016-0096

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information/documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Effective and Implementation Date May 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0096

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less where the electricity is used exclusively in a separately metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartments building also qualify as residential customers. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to a non residential account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification refers to a non residential account whose monthly average peak demand is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information/documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

This classification refers to an account for roadway lighting with a Municipality, Regional Municipality, Ministry of Transportation and private roadway lighting operation, controlled by photo cells. The consumption for these customers will be based on the calculated connected load times the required lighting times established in the approved Ontario Energy Board street lighting load shape template. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity One-time charge, per retailer, to establish the service agreement between the distributor and the retailer 100.00 Monthly Fixed Charge, per retailer \$ 20.00 Monthly Variable Charge, per customer, per retailer \$ 0.50 Distributor-consolidated billing monthly charge, per customer, per retailer \$ 0.30 Retailer-consolidated billing monthly credit, per customer, per retailer (0.30)Service Transaction Requests (STR) Request fee, per request, applied to the requesting party \$ 0.25 Processing fee, per request, applied to the requesting party 0.50 Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party Up to twice a year \$ no charge More than twice a year, per request (plus incremental delivery costs)

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor - Secondary Metered Customer < 5,000 kW	1.0694
Total Loss Factor - Primary Metered Customer < 5,000 kW	1.0587

Please complete the following continuity schedule for the following Deferral/Variance Accounts. Enter information into green cells only. Column BU has been prepopulated from the latest 2.1.7 RRR filling.

For all Group 1 Accounts, except for Account 1595, start inputting data from the year in which the GL balance was last disposed. For example, if in the 2017 rate application, DVA balances as at December 31, 2015 were approved for disposition, start the continuity schedule from 2015 by entering the 2014 closing balance in the Adjustment column under 2014. For all Account 1595 sub-accounts, complete the DVA continuity schedule for each Account 1595 vintage year that has a GL balance as at December 31, 2016 regardless of whether the account is being requested for disposition in the current application. For each Account 1595 sub-account, start inputting data from the year the sub-account started to accumulate a balance (i.e. the vintage year). For example, for Account 1595 (2014), data should be inputted starting in 2014 when the relevant balances approved for disposition was first transferred into Account 1595 (2014).

Please refer to the footnotes for further instructions.

If you had any Class A customers at any point during the period that the Account 1589 GA balance accumulated (i.e. from the year the balance was last disposed to 2016), check off the checkbox.

If you had Class A customer(s) during this period, Tab 6 will be generated and applicants must complete the information pertaining to Class A customers.

Data on this worksheet has been populated using your most recent RRR filing.

Click on the checkbox to confirm the accuracy of the data below:

If you have identified any issues, please contact the

If a distributor uses the actual GA price to bill non-RPP Class B customers for an entire rate class, it must exclude these customers from the allocation of the GA balance and the calculation of the resulting rate riders. These rate classes are not to be charged/refunded the general GA rate rider as they did not contribute to the GA balance.

Please contact the OEB to make adjustments to the IRM rate generator for this situation.

Rate Class	Unit	Total Metered kWh	Total Metered kW	Metered kWh for Non-RPP Customers (excluding WMP)	RPP Customers		Metered kW for Wholesale Market Participants (WMP)	Total Metered kWh less WMP consumption (if applicable)	Total Metered kW less WMP consumption (if applicable)	1595 Recovery Proportion (2015) ¹	1568 LRAM Variance Account Class Allocation (\$ amounts)	Number of Customers for Residential and GS<50 classes ³

1568 Account Balance from Continuity Schedule

Total Balance of Account 1568 in Column S matches the amount entered on the Continuity Schedule

¹ Residual Account balance to be allocated to rate classes in proportion to the recovery share as established when rate riders were implemented.

² The Threshold Test does not include the amount in 1568.

³ The proportion of customers for the Residential and GS<50 Classes will be used to allocate Account 1551.

No input required. This workshseet allocates the deferral/variance account balances (Group 1 and 1568) to the appropriate classes as per EDDVAR dated July 31, 2009

Allocation of Group 1 Accounts (including Account 1568)

		% of % Customer	% of Total kWh adjusted for		а	llocated based on Total less WMP		а	allocated based on Total less WMP

^{**} Used to allocate Account 1551 as this account records the variances arising from the Smart Metering Entity Charges to Residential and GS<50 customers.

The purpose of this tab is to calculate the GA rate riders for all current Class B customers who did not transition between Class A and B in the period since the Account 1589 GA was last disposed.

Calculations in this tab will be modified upon completion of tab 6.1a, which allocates a portion of the GA balance to transition customers, if applicable.

Effective January 2017, the billing determinant and all rate riders for the disposition of GA balances will be calculated on an energy basis (kWhs) regardless of the billing determinant used for distribution rate for the particular class (see Chapter 3, Filing Requirements, section 3.2.5.2)

Deferral/Variance

¹ When calculating the revenue reconciliation for distributors with Class A customers, the balances of sub-account 1580-CBR Class B will not be taken into consideration if there are Class A customers since the rate riders, if any, are calculated separately.

² Only for rate classes with WMP customers, balances in account 1580 and 1588 are included in column G and disposed through a combined Deferral/Variance Account and Rate Rider.

Columns E and F have been populated with data from the most recent RRR filing. Rate classes that have more than one Network or Connection charge will notice that the cells are highlighted in green and unlocked. If the data needs to be modified, please make the necessary adjustments and note the changes in your manager's summary. As well, the Loss Factor has been imported from Tab 2.

In the green shaded cells, enter billing detail for wholesale transmission for the same reporting period as the billing determinants on Tab 10. For Hydrn One Sub-transmission Rafes, if you are charged a combined Line and Transformer connection rate, please ensure that both the Line Connection and Transformation Connenction returns are completed. If any of the Hydro One Sub-transmission rates (column E, I and M) are highlighted in orange, please double check the billing data entered in "Units Billed" and "Amount" columns. The highlighted rates do not match the Hydro One Sub-transmission rates approved for that time period. If data has been entered correctly, please provide explanation for the discrepancy in rates.

Debt Retirement Charge (DRC)

Debt Retirement Charge (DRC)	\$/kWh	0.0070 If your utility's DRC differs from the value in Cell D29, please update this
		value.

In the Green Cells below, enter any proposed rate riders that are not already included in this model (e.g.: proposed ICM rate riders). Please note that existing SMIRR and SM Entity Charge do not need to be included below.
In column A, the rate rider descriptions must begin with "Rate Rider for".
In column B, choose the associated unit from the drop-down menu.
In column C, enter the rate. All rate riders with a "\$" unit should be rounded to 2 decimal places and all others rounded to 4 decimal places.
In column C, enter the rate. All rate riders with a "\$" unit should be rounded to 2 decimal places and all others rounded to 4 decimal places.
In column C, enter the expiry date (e.g. April 30, 2019) or description of the expiry date in text (e.g. the effective date of the next cost of service-based rate order).
In column G, choose the sub-total as applicable in the bill impact calculation from the drop-down menu.

EB-2017-0066

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less where the electricity is used exclusively in a separately metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartments building also qualify as residential customers. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2017-0066

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to a non residential account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2017-0066

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification refers to a non residential account whose monthly average peak demand is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

The rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2017-0066

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification refers to an account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information/documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

This classification refers to an account for roadway lighting with a Municipality, Regional Municipality, Ministry of Transportation and private roadway lighting operation, controlled by photo cells. The consumption for these customers will be based on the calculated connected load times the required lighting times established in the approved Ontario Energy Board street lighting load shape template. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Appendix 4 of 4

Appendix 4 – Bill Impacts

Incentive Regulation Model for 2018 Filers

The bill comparisons below must be provided for typical customers and consumption levels. Bill impacts must be provided for residential customers consuming 750 kWh per month and general service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW. Include bill comparisons for Non-RPP (retailer) as well. To assess the combined effects of the shift to fixed rates and other bill impacts associated with changes in the cost of distribution service, applicants are to include a total bill impact for a residential customer at the distributor's 10th consumption percentile (In other words, 10% of a distributor's residential customers consume at or less than this level of consumption on a monthly basis). Refer to section 3.2.3 of the Chapter 3 Filling Requirements For Electricity Distribution Rate Applications.

For certain classes where one or more customers have unique consumption and demand patterns and which may be significantly impacted by the proposed rate changes, the distributor must show a typical comparison, and provide an explanation.

Note:

- 1. For those classes that are not eligible for the RPP price, the weighted average price including Class B GA through end of May 2017 of \$0.1101/kWh (IESO's Monthly Market Report for May 2017, page 22) has been used to represent the cost of power. For those classes on a retailer contract, applicants should enter the contract price (plus GA) for a more accurate estimate. Changes to the cost of power can be made directly on the bill impact table for the specific class.
- 2. Please enter the applicable billing determinant (e.g. number of connections or devices) to be applied to the monthly service charge for unmetered rate classes in column N. If the monthly service charge is applied on a per customer basis, enter the number "1".

 | Stributors should provide the number of connections or devices reflective of a typical customer in each class.
 | Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.
