Dear Ms. Walli:

**Re: EB-2017-0086 – Enbridge Gas Distribution Inc. – 2018 Rates – Interrogatories from the Consumers Council of Canada**

The Consumers Council of Canada is an intervenor in the above-referenced proceeding. The Council has the following interrogatory questions for Enbridge Gas Distribution Inc. (“EGD”) regarding its application for approval of its 2018 rates:

CCC- 1

Ex. A/T1/S1

Does EGD intend to use its 2018 approved rates as the basis for its rates beyond 2018?

CCC-2

(Ex. A1/T2/S1/p. 3)

The evidence states that the application will result in average 2018 rate increases of approximately 4.8% for residential customers. The average bill impact is 4.1% when the clearance of the 2017 Deferral and Variance Accounts are included. For each year 2014-2017 please provide the average rate and bill impacts for the residential customer class. Please provide this inclusive and exclusive of deferral and variance account impacts. Please provide the rate and bill increases inclusive of the Cap and Trade Compliance costs.

CCC-4

(Ex. C1/T1/S1/p. 3)

Please provide the forecast and actual Other Operating Revenues and Other Income for each year 2013-2017.

CCC-5

(Ex. C1/T2/S1/p. 5)

The evidence states that regression model results for Rate 1 and Rate 6 are adjusted for planned DSM in the test year through partially-effective volumetric savings by program. Please explain, in detail, the process EGD undertakes to derive these adjustments. What programs do the 2018 adjustments relate to?

Please feel free to contact me if you have any questions.

Yours truly,

*Julie E. Girvan*
