Dear Ms. Walli:

**Re: OEB File No. EB-2017-0044
Guelph Hydro Electric Systems Inc. (Guelph Hydro) 2018 IRM
Electricity Distribution Rate Application**

Guelph Hydro has reviewed the Board's Draft Decision and Order issued on December 4, 2017 in respect of the above-noted file. Guelph Hydro has the following comments for the proposed Draft Rate Order:

1. The updated 2018 IRM Rate Generator Model received for review on December 4, 2017 does not reflect the approved 2017 Uniform Transmission Rate for Network Service. Tab 11. RTSR-UTRs & Sub-Tx, cell J22 should reflect 2018 Network Service Rate of \$3.52.
2. On page 7 of the Draft Decision, the balance for Capacity Based Recovery charges for Class B customers should state a credit of \$63,783, not a debit.
3. OESP credits are not reflected in the 2018 Tariff of Rates.

Guelph Hydro agrees to all other tariff of rates outlined in the draft Tariff of Rates and Charges shown in Schedule A of the Draft Decision and Order.
