ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ENBRIDGE GAS DISTRIBUTION INC. AND UNION GAS LIMITED

Exhibit A

Enbridge Gas Distribution Inc. and Union Gas Limited have applied for approval to amalgamate to form a single gas distribution, transportation and storage company.

Learn more. Have your say.

Enbridge Gas Distribution Inc. and Union Gas Limited have applied to the Ontario Energy Board to amalgamate to form a single natural gas distribution, transportation and storage company effective January 1, 2019. The amalgamated utility would serve over 3.5 million natural gas customers in Ontario.

Enbridge Gas Distribution Inc. and Union Gas Limited say that their customers will not pay any costs related to the amalgamation and that if the Ontario Energy Board approves the amalgamation, customers will receive a total benefit of \$410 million over a ten-year period.

The rates that Enbridge Gas Distribution Inc. and Union Gas Limited currently charge customers are set using two separate frameworks that expire at the end of 2018. The Ontario Energy Board would normally review the costs of each of the gas utilities to set new rates starting in 2019. In a separate application, Enbridge Gas Distribution Inc. and Union Gas Limited have asked the Ontario Energy Board to defer its full review of their costs for 10 years and have proposed a methodology for setting rates from 2019 to the end of 2028 using a formula. The Ontario Energy Board will review this rate proposal in a separate proceeding. You can review the notice and related documents for that proceeding at www.oeb.ca/EnbridgeUnionRateFramework.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider the application filed by Enbridge Gas and Union Gas. We will question both companies on the case. We will also hear arguments from individuals and from groups that represent the customers of both Enbridge Gas and Union Gas. At the end of this hearing, the OEB will decide whether to approve the application.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process.

- You can review the application filed by Enbridge Gas and Union Gas on the OEB's website now.
- You can file a letter with your comments, which will be considered during the hearing.
- You can become an active participant (called an intervenor). Apply by **December 20, 2017** or the hearing will go ahead without you and you will not receive any further notice of the proceeding.

AVIS DE LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO AUX CLIENTS D'ENBRIDGE GAS DISTRIBUTION INC. ET D'UNION GAS LIMITED

Exhibit B

Enbridge Gas Distribution Inc. et Union Gas Limited ont déposé une requête d'approbation de leur fusion en vue de former une seule entreprise de distribution, de transport et d'entreposage de gaz.

Soyez mieux renseigné. Donnez votre opinion.

Enbridge Gas Distribution Inc. et Union Gas Limited ont déposé une requête auprès de la Commission de l'énergie de l'Ontario en vue de fusionner et de former une seule entreprise de distribution, de transport et d'entreposage de gaz naturel à compter du 1^{er} janvier 2019. Le service d'utilité publique fusionné desservirait plus de 3,5 millions de consommateurs de gaz naturel en Ontario.

Enbridge Gas Distribution Inc. et Union Gas Limited affirment que la fusion ne coûtera rien à leurs clients et que, si la Commission de l'énergie de l'Ontario l'approuve, leurs clients en retireront un avantage total de 410 millions \$ sur une période de 10 ans.

Les tarifs exigés actuellement par Enbridge Gas Distribution Inc. et Union Gas Limited sont établis au moyen de deux cadres distincts qui expirent à la fin de 2018. La Commission de l'énergie de l'Ontario examinerait normalement les coûts de chacun des services de gaz afin d'établir de nouveaux tarifs à compter de 2019. Dans une requête distincte, Enbridge Gas Distribution Inc. et Union Gas Limited ont demandé à la Commission de reporter son examen complet de leurs coûts pour dix ans. Les sociétés ont proposé une méthodologie pour établir les tarifs de 2019 jusqu'à la fin de 2028 au moyen d'une formule. La Commission examinera cette proposition dans le cadre d'une instance distincte. Vous pouvez consulter l'avis et les documents connexes pour cette instance à l'adresse www.oeb.ca/EnbridgeUnionRateFramework.

LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO TIENDRA UNE AUDIENCE PUBLIQUE

La CEO tiendra une audience publique afin d'examiner la requête déposée par Enbridge Gas et Union Gas. Elle interrogera les entreprises sur ce dossier. Elle entendra également les arguments des personnes et des groupes qui représentent leurs clients. À la fin de cette audience, elle décidera d'approuver ou non la requête.

La CEO est un organisme public indépendant et impartial. Elle rend des décisions qui servent l'intérêt public. Son but est de promouvoir un secteur d'énergie viable et rentable financièrement qui vous offre des services énergétiques fiables à un coût raisonnable.

ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ENBRIDGE GAS DISTRIBUTION INC. AND UNION GAS LIMITED

EXHIBIT E

Exhibit A

Enbridge Gas Distribution Inc. and Union Gas Limited have applied for approval to amalgamate to form a single gas distribution, transportation and storage company.

Learn more. Have your say.

Enbridge Gas Distribution Inc. and Union Gas Limited have applied to the Ontario Energy Board to amalgamate to form a single natural gas distribution, transportation and storage company effective January 1, 2019. The amalgamated utility would serve over 3.5 million natural gas customers in Ontario.

Enbridge Gas Distribution Inc. and Union Gas Limited say that their customers will not pay any costs related to the amalgamation and that if the Ontario Energy Board approves the amalgamation, customers will receive a total benefit of \$410 million over a ten-year period.

The rates that Enbridge Gas Distribution Inc. and Union Gas Limited currently charge customers are set using two separate frameworks that expire at the end of 2018. The Ontario Energy Board would normally review the costs of each of the gas utilities to set new rates starting in 2019. In a separate application, Enbridge Gas Distribution Inc. and Union Gas Limited have asked the Ontario Energy Board to defer its full review of their costs for 10 years and have proposed a methodology for setting rates from 2019 to the end of 2028 using a formula. The Ontario Energy Board will review this rate proposal in a separate proceeding. You can review the notice and related documents for that proceeding at www.oeb.ca/EnbridgeUnionRateFramework.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider the application filed by Enbridge Gas and Union Gas. We will question both companies on the case. We will also hear arguments from individuals and from groups that represent the customers of both Enbridge Gas and Union Gas. At the end of this hearing, the OEB will decide whether to approve the application.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
