Toronto, ON M4P 1E4

Dear Ms. Walli:

**RE: EB-2017-0307 – Enbridge Gas Distribution Inc. and Union Gas Limited – Rate Setting Mechanism – Intervenor Request of the National Grid Gas Delivery Companies (“National Grid”)**

I am writing today to formally request intervenor status for National Grid in proceeding EB-2017-0307 (Proceeding) before the Ontario Energy Board (“Board”).

The National Grid Gas Delivery Companies are six gas distribution utilities located in the northeastern United States and owned by National Grid USA. All six of these utilities hold contracts for M12 transportation service on the Union Gas Ltd. (“Union”) system. As a firm transportation shipper on the Union system, National Grid has substantial interests that may be directly affected by Board action in this proceeding.

National Grid would reserve its right to participate in all aspects of the Proceeding including evidence, interrogatories, cross-examination, and argument.

National Grid does not intend to seek cost awards for the Proceeding.

All correspondence relating to these proceedings should be addressed to:
