**Re: 2018 IRM4 Rates Application, Withdrawal of LRAMVA Claim
Board File No.: EB-2017-0033**

Dear Ms. Walli,

On October 16, 2017, Entegrus Powerlines Inc. ("EPI") filed an IRM Application (the "Application") with the Board for rates effective May 1, 2018. The Application included a request for Lost Revenue Adjustment Mechanism Variance Account ("LRAMVA") disposition, as relating to lost revenues in 2016 for conservation programs offered in 2014, 2015 and 2016.

It has come to the attention of EPI that there will be additional material adjustments to its 2016 conservation results. These adjustments for 2016 are anticipated to be captured in the final verified 2017 IESO results reporting (to be released in the summer of 2018). Accordingly, EPI respectfully requests to withdraw the 2016 LRAMVA disposition request from the Application.

EPI now plans to request disposition of the updated verified results as part of its 2019 IRM Application.

EPI will be in contact with Board Staff to co-ordinate the update of its Application evidence.

If you have any further questions, please do not hesitate to contact us.

Regards,
