Subject: APPLICATION NUMBER: EB-2017-0306 - MERGER OF ENBRIDGE AND UNION GAS [CSE: nVc7ti, TKT: peoZXj]

Hello.

My wife and I approve of this application if and only if the OEB applies appropriate regulations to the new company to ensure that it operates equitably on behalf of its customers and maintains a fair residential price of natural gas.

There is an implicit danger of excessive power, independence and price gouging in this kind of merger and we hope that the OEB will ensure that customers will be served fairly.

The email which we attempted to send to the address provided by Enbridge about this application to merge with Union Gas did not go through so we are contacting you.

Please pass our comments on to your relevant department.

Thank you.

Cam Finley and Jane Crabtree
