SETTLEMENT PROPOSAL

Hydro Hawkesbury Inc. (the "Applicant" or "HHI") filed a Cost of Service application with the Ontario Energy Board (the "OEB") on July 12, 2017 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B) (the "Act"), seeking approval for changes to the rates that HHI charges for electricity distribution, to be effective January 1, 2018 (OEB file number EB-2017-0048) (the "Application"). The application was declared complete on June 20, 2017.

The OEB issued a Letter of Direction and Notice of Application on August 22, 2017. In Procedural Order No. 1, dated October 10, 2017, the OEB approved VECC and SEC for intervenor status as well as prescribing dates for the following: written interrogatories from OEB staff, VECC, and SEC; HHI's responses to interrogatories; a settlement conference; and various other elements in the proceeding.

Following the receipt of interrogatories, HHI filed its interrogatory responses with the OEB on November 13, 2017, with the remainder of the responses filed by November 21, 2017.

On November 17, 2017 OEB Staff submitted a proposed issues list as agreed to by the parties. On November 21, 2017 the OEB issued its decision on the proposed issues list, approving the list submitted by OEB staff as the final issues list (the "Issues List").

The settlement conference was convened on November 22, 2017 in accordance with the OEB's *Rules of Practice and Procedure* (the "Rules") and the OEB's *Practice Direction on Settlement Conferences* (the "Practice Direction").

HHI and the following intervenors (the "Intervenors"), participated in the settlement conference:

- Vulnerable Energy Consumers Coalition ("VECC");
- School Energy Coalition ("SEC").

HHI and the Intervenors are collectively referred to below as the "Parties".

Ontario Energy Board staff ("OEB staff") also participated in the settlement conference. The role adopted by OEB staff is set out on page 5 of the Practice Direction. Although OEB staff is not a party to this Settlement Proposal, as noted in the Practice Direction, OEB staff that did participate in the settlement conference are bound by the same confidentiality and privilege rules that apply to the Parties to the proceeding.

This document is called a "Settlement Proposal" as this is a proposal by the Parties presented to the OEB to settle the issues in this proceeding. It is termed a proposal as between the Parties and the OEB. However, as between the Parties, and subject only to the OEB approval of this

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 7 of 58 Filed: January 8, 2018

Settlement Proposal, this document is intended to be a legal agreement, creating mutual obligations, and binding and enforceable in accordance with its terms. As set forth later in this Preamble, this agreement is subject to a condition subsequent, that if it is not accepted by the OEB in its entirety, then unless amended by the Parties it is null and void and of no further effect. In entering into this agreement, the Parties understand and agree that, pursuant to the Act, the OEB has exclusive jurisdiction with respect to the interpretation and enforcement of the terms hereof.

These settlement proceedings are subject to the rules relating to confidentiality and privilege contained in the Practice Direction. The Parties acknowledge that this settlement proceeding is confidential in accordance with the OEB's Practice Direction on settlement conferences. The Parties understand that confidentiality in that context does not have the same meaning as confidentiality in the OEB's Practice Direction on Confidential Filings, and the rules of that latter document do not apply. Instead, in this settlement conference, and in this Settlement Proposal, the specific rules with respect to confidentiality and privilege set out in the Practice Direction, as amended on October 28, 2016, apply. Parties have interpreted the revised Practice Direction to mean that the documents and other information provided during the settlement conference, the discussion of each issue, the offers and counter-offers, and the negotiations leading to the settlement - or not - of each issue during the settlement conference are strictly privileged and without prejudice. None of the foregoing is admissible as evidence in this proceeding, or otherwise, with one exception, the need to resolve a subsequent dispute over the interpretation of any provision of this Settlement Proposal. Further, the Parties shall not disclose those documents or other information to persons who were not attendees at the settlement conference. However, the Parties agree that "attendees" is deemed to include, in this context, persons who were not physically in attendance at the settlement conference but were a) any persons or entities that the Parties engage to assist them with the settlement conference, and b) any persons or entities from whom they seek instructions with respect to the negotiations; in each case provided that any such persons or entities have agreed to be bound by the same confidentiality provisions.

This Settlement Proposal provides a brief description of each of the settled issues, as applicable, together with references to the evidence. The Parties agree that references to the "evidence" in this Settlement Proposal shall, unless the context otherwise requires, include a) additional information included by the Parties in this Settlement Proposal, and b) the Appendices to this document. The supporting Parties for each settled issue, as applicable, agree that the evidence in respect of that settled issue, as applicable, is sufficient in the context of the overall settlement to support the proposed settlement, and the sum of the evidence in this proceeding provides an appropriate evidentiary record to support acceptance by the OEB of this Settlement Proposal. The Parties agree that references to the evidence in this Settlement Proposal shall, unless the context otherwise requires, include, in addition to the Application, the responses to interrogatories, responses to clarification questions and undertakings, and all other

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 8 of 58 Filed: January 8, 2018

components of the record up to and including the date hereof, including additional information included by the Parties in this Settlement Proposal and the Attachments to this document.

Included with the Settlement Proposal are Attachments that provide further support for the proposed settlement. The Parties acknowledge that the Attachments were prepared by HHI. While the Intervenors have reviewed the Attachments, the Intervenors are relying on the accuracy of the Attachments and the underlying evidence in entering into this Settlement Proposal.

For ease of reference, this Settlement Proposal follows the format of the final Approved Issues List.

The Parties have reached a full settlement with respect to the issues in this proceeding.

According to the Practice Direction (p.4), the Parties must consider whether a Settlement Proposal should include an appropriate adjustment mechanism for any settled issue that may be affected by external factors. HHI is not proposing any such adjustments.

The Parties have settled the issues as a package, and none of the parts of this Settlement Proposal are severable. If the OEB does not accept this Settlement Proposal in its entirety, then there is no settlement (unless the Parties agree in writing that any part(s) of this Settlement Proposal that the OEB accepts may continue as a valid settlement without inclusion of any part(s) that the OEB does not accept).

If the OEB directs the Parties to make reasonable efforts to revise the Settlement Proposal, the Parties agree to use reasonable efforts to discuss any potential revisions, but no Party will be obligated to accept any proposed revision. The Parties agree that all the Parties must agree with any revised Settlement Proposal as it relates to that issue, or take no position, prior to its resubmission to the OEB.

Unless stated otherwise, the settlement of any particular issue in this proceeding and the positions of the Parties in this Settlement Proposal are without prejudice to the rights of the Parties to raise the same issue and/or to take any position thereon in any other proceeding, whether or not HHI is a party to such proceeding, provided that no Party shall take a position that would result in the Settlement Proposal not applying in accordance with the terms contained herein.

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 9 of 58 Filed: January 8, 2018

SUMMARY

In reaching this settlement, the Parties have been guided by the Filing Requirements for 2018 rates and the Approved Issues List.

This Settlement Proposal reflects a full settlement of the issues in the proceeding. The Parties have described below, in detail, areas where they have settled an issue by agreeing to adjustments to the application as updated.

The Parties note that this Settlement Proposal includes all tables, appendices and the live Excel models that represent the evidence in support of the settlement between the Parties at the time of filing the Settlement Proposal.

A Revenue Requirement Work Form, incorporating all terms that have been agreed to in this Proposal is filed with the Settlement Proposal. Through the settlement process, HHI has agreed to certain adjustments to its original 2018 Application filed July 12, 2017. The changes are described in the following sections.

HHI has provided the following Table 1 highlighting the changes to its Rate Base and Capital, Operating Expenses and Revenue Requirement from HHI's Application as filed as a result of interrogatories and this Settlement Proposal.

Table 1 - 2018 Revenue Requirement

	Application July 12 2017	IRR Nov 13 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs
OM&A Expenses	\$1,210,114	\$1,210,114	\$0	\$1,175,114	-\$35,000
Amortization/Depreciation	\$280,878	\$280,878	\$0	\$281,068	\$190
Property Taxes	\$0	\$17,768	\$17,768	\$17,768	\$0
Capital Taxes	\$0	\$0	\$0	\$0	\$0
Income Taxes (Grossed up)	\$9,717	\$9,774	\$57	\$10,538	\$764
Other Expenses	\$0	\$0	\$0	\$0	\$0
Return					
Deemed Interest Expense	\$179,324	\$175,133	-\$4,191	\$166,848	-\$8,284
Return on Deemed Equity	\$302,560	\$302,929	\$369	\$307,020	\$4,091
Service Revenue Requirement (before Revenues)	\$1,982,593	\$1,996,596	\$14,003	\$1,958,356	-\$38,239
Revenue Offsets	\$207,894	\$208,216	\$322	\$214,216	\$6,000
Base Revenue Requirement	\$1,774,699	\$1,788,380	\$13,681	\$1,744,140	-\$44,239
Base Revenue Deficiency	\$163,342	\$188,290	\$24,948	\$120,493	-\$67,797

Based on the foregoing, and the evidence and rationale provided below, the Parties accept this Settlement Proposal as appropriate and recommend its acceptance.

Table 2 - 2018 Bill Impact Summary (Final) below illustrates the updated Bill Impacts based on the results of this Settlement Proposal.

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 12 of 58 Filed: January 8, 2018

RRFE OUTCOMES

The Parties accept the Applicant's compliance with the Board's required outcomes as defined by the *Renewed Regulatory Framework for Electricity* (RRFE). For the purpose of the settlement of the issues in this proceeding, and subject to the adjustments noted in this Settlement Proposal, the Parties accept that HHI's proposed rates in the 2018 Test Year will, in all reasonably foreseeable circumstances, allow the Applicant to meet its obligations to its customers while maintaining its financial viability.

1 PLANNING

1.1 Capital

Is the level of planned capital expenditures appropriate and is the rationale for planning and pacing choices appropriate and adequately explained, giving due consideration to:

- Customer feedback and preferences;
- Productivity;
- Compatibility with historical expenditures;
- Compatibility with applicable benchmarks;
- Reliability and service quality;
- Impact on distribution rates:
- Trade-offs with OM&A spending;
- Government-mandated obligations;
- The objectives of Hydro Hawkesbury and its customers;
- The distribution system plan.

Full Settlement

HHI agreed, as part of the settlement, to update its 2017 projected capital expenses with actuals up to November 2017 plus projections for December 2017. The USoA accounts which saw a reduction in capital expenditure had longer depreciation periods while accounts that saw an increase had shorter depreciation periods which lead to a reduction of \$5,153 in capital expenditures and a marginal increase in depreciation expense. The revised balances for 2017 are supported by the continuity schedules filed at Attachment B of this document. Subject to the inclusion of forecast capital contributions in the amount of \$10,000 relating to forecast connection related projects in 2018, the Parties accept the 2018 capital expenditures as being appropriate. The accounts which saw a reduction in capex had longer depreciation period while accounts that saw an increase had shorter depreciation period (i.e. Smart Meters)

The Parties acknowledge that HHI retains the full discretion to manage its capital spending in the Test Year and beyond in accordance with the actual operating conditions it confronts in any year. HHI's revised capital expenditures will be consistent with the values as set out in the Business Plan as presented in the application.

The parties also agree that HH will file an independent, third-party Asset Condition Assessment with its next rebasing application.

HHI is transitioning over the next year when its two remaining linemen retire to completely rely on external contractors to manage 100% of its capital and O&M activities. Currently, HHI does

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 14 of 58 Filed: January 8, 2018

not have a formal service agreement with its primary contractor Sproule Inc. The Parties have agreed that HHI will enter into a service agreement with Sproule Inc. to formalize the terms of their working relationship within 1 year. HHI will file a copy of that agreement under the EB-2017-0048 docket number to confirm compliance with this term of the Settlement Proposal.

A summary of gross capital expenditures is presented in Table 3 - 2018 Gross Capital Expenditures below.

Table 3 - 2017/2018 Gross Capital Additions

	Application July 12 2017	IRR Nov 13 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs

General Plant	\$11,250	\$11,250	\$0.00	\$11,250	\$0
Total Additions	\$175,830	\$175,830	\$0.00	\$165,830	-\$10,000
Capital Contribution included in System Access	\$0	\$0	\$0.00	-\$10,000	-\$10,000

Note: the terms "Additions" and "Expenditures" are used interchangeably and refer to the cost involved for adding new assets or bettering existing assets within a utility.

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 16 of 58 Filed: January 8, 2018

For the purposes of settlement of all the issues in this proceeding, the Parties accept the evidence of HHI that the level of planned capital expenditures and the rationale for planning and pacing choices are appropriate to maintain system reliability, service quality objectives and the reliable and safe operations of the distribution system.

1.2 OM&A

Is the level of planned OM&A expenditures appropriate and is the rationale for planning choices appropriate and adequately explained, giving due consideration to:

- Customer feedback and preferences;
- Productivity;
- Compatibility with historical expenditures;
- Compatibility with applicable benchmarks;
- Reliability and service quality;
- Impact on distribution rates;
- Trade-offs with capital spending;
- Government-mandated obligations; and
- The objectives of Hydro Hawkesbury and its customers.

Full Settlement

Subject to a reduction of \$35,000 to the proposed 2018 OM&A budget, the parties agree that the proposed OM&A budget is appropriate. For illustrative purposes HHI has allocated the \$35,000 reduction across the categories of OM&A spending, but the Parties acknowledge that HHI is at liberty to manage the reduction as it sees fit, given the actual cost pressures faced by the company. HHI does not believe that the proposed reduction will materially impact the service quality or reliability of its distribution system.

As noted earlier, HHI is transitioning over the next year when its two remaining linemen retire to completely rely on external contractors to manage 100% of its capital and O&M activities. Currently, HHI does not have a formal service agreement with its primary contractor Sproule Inc. The Parties have agreed that HHI will enter into a service agreement with Sproule Inc. to formalize the terms of their working relationship within 1 year. HHI will file a copy of that agreement under the EB-2017-0048 docket number to confirm compliance with this term of the Settlement Proposal.

2 REVENUE REQUIREMENT

2.1 Are all elements of the Revenue Requirement reasonable, and have they been appropriately determined in accordance with OEB policies and practices?

Full Settlement

The parties agree that the methodology used by HHI to calculate the Revenue Requirement is appropriate.

A summary of the adjusted Revenue Requirement reflecting adjustments and settled issues in accordance with the above is presented in Table 5 - 2018 Revenue Requirement below.

Table 5 - 2018 Revenue Requirement

	Application July 12 2017	IRR Nov 13 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs
OM&A Expenses	\$1,210,114	\$1,210,114	\$0	\$1,175,114	-\$35,000
Amortization/Depreciation	\$280,878	\$280,878	\$0	\$281,068	\$190
Property Taxes	\$0	\$17,768	\$17,768	\$17,768	\$0
Capital Taxes	\$0	\$0	\$0	\$0	\$0
Income Taxes (Grossed up)	\$9,717	\$9,774	\$57	\$10,538	\$764
Other Expenses	\$0	\$0	\$0	\$0	\$0
Return					
Deemed Interest Expense	\$179,324	\$175,133	-\$4,191	\$166,848	-\$8,284
Return on Deemed Equity	\$302,560	\$302,929	\$369	\$307,020	\$4,091
Service Revenue Requirement (before Revenues)	\$1,982,593	\$1,996,596	\$14,003	\$1,958,356	-\$38,239
Revenue Offsets	\$207,894	\$208,216	\$322	\$214,216	\$6,000
Base Revenue Requirement	\$1,774,699	\$1,788,380	\$13,681	\$1,744,140	-\$44,239
Base Revenue Deficiency	\$163,342	\$188,290	\$24,948	\$120,493	-\$67,797

An updated Revenue Requirement Work Form model has been filed though the OEB's e-filing service.

2.1.1 Cost of Capital

Full Settlement

HHI has an existing loan of \$619,432 with an interest rate of 3.94%. On January 2018, the utility will have in place its full loans in the amounts of \$1,480,000 at 3.53% and \$1,550,000 at 3.29%. HHI has also transferred a debt originally labelled as short term debt in the original cost of debt calculation to long-term debt. The principal amount of \$450,000 holds an actual rate of 1.99%. HHI's resulting weighted average rate for rate-making purposes is 3.33%.

HHI is not forecasting any new long-term debt in the bridge and test year other than the debt explained above. In accordance with Board policy, HHI has used the deemed short-term debt rate of 2.29% and an ROE of 9.00% for 2018.

Table 6 - 2018 Cost of Capital Calculation below details the cost of capital calculation and Table 7 - 2018 Debt Instruments details the utility's actual debt.

2.1.2 Rate Base

Full Settlement

The Parties accept the evidence of HHI that the rate base calculations, after making the adjustment to the working capital and the in-service additions for 2018 as detailed in this Settlement Proposal, are reasonable and have been appropriately determined in accordance with OEB policies and practices. Table 8 - 2018 Rate Base below outlines HHI's Rate Base calculation.

Table 8 - 2018 Rate Base

Particulars	Application July 12 2017	IRR Nov 13 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs

2.1.3 Working Capital Allowance

Full Settlement

The Parties agreed that the Working Capital Allowance has been appropriately calculated, including adjustments in relation to OMA reductions and to the Cost of Power in relation to changes to the commodity prices as of July 1, 2017 and to the Global Adjustment as a result of the province's Fair Hydro Plan, as published in the Regulated Price Plan Prices and the Global Adjustment Modifier for the Period July 1, 2017 to April 30, 2018 issued on June 22, 2017. The derivation of the Cost of Power is presented at Attachment E of this settlement agreement.

Table 9 - 2018 Working Capital Allowance Calculation

Particulars	Application July 12 2017	IRR Nov 10 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs

2.1.6 Other Revenue

Full Settlement

The Parties have agreed that HHI will forecast net revenue of \$30,000 with respect to the disposal of 3 vehicles that will likely become unused by HHI in 2018, noting that all three vehicles have been fully depreciated; because the forecasted sale is a one time occurrence, the Parties have agreed to amortize the revenue from the sale by including 1/5th or \$6,000 related to the sale in the Test Year Revenue Requirement.

The parties also agreed to updating the Specific Service Charges to reflect a revised MicroFIT charge of \$10/customer.

With these adjustments the Parties accept the evidence of HHI that its proposed Other Revenues are appropriate and have been correctly determined in accordance with OEB accounting policies and practices.

Table 12 - 2018 Other Revenue

	Application July 12 2017	IRR Nov 13 2017	Variance over Original Filing	Settlement Proposal Jan 8 2018	Variance over IRs

3 LOAD FORECAST, COST ALLOCATION AND RATE DESIGN

3.1 Are the proposed load and customer forecast, loss factors, CDM adjustments and resulting billing determinants appropriate, and, to the extent applicable, are they an appropriate reflection of the energy and demand requirements of Hydro Hawkesbury's customers?

Full Settlement

The Parties accept the evidence of HHI and its methodology used for the load forecast, customer forecast, loss factors and CDM adjustments after incorporating the following adjustments:

- Removal of the CDM adjustment related to 2015 CDM, Update 2017 and 2018 to use savings from CDM plan 2015-2020.
- Updating of the allocation of manual adjustment for Load Forecast to use verified results for 2016 and the CDM Plan for 2017-2018.
- Removal of the "Employment" variable from Load Forecast due to counter intuitive results.

The resulting billing determinants are presented in Table 13 - 2018 Test Year Billing Determinants (for Cost Allocation and Rate Design) below.

Table 13 - 2018 Test Year Billing Determinants (for Cost Allocation and Rate Design)

4 ACCOUNTING

4.1 Have all impacts of any changes in accounting standards, policies, estimates, and adjustments been properly identified and recorded, and is the rate-making treatment of each of these impacts appropriate?

Full Settlement

The Parties accept the evidence of HHI that all impacts of changes to accounting standards, policies, estimates, and adjustments have been properly identified and recorded in accordance with the OEB's policies and properly reflected in rates.

An updated EDDVAR Continuity Schedule is provided in working Excel format reflecting this Settlement Proposal and includes the calculation of the various riders discussed above.

4.2 Are Hydro Hawkesbury's proposals for deferral and variance accounts, including the balances in the existing accounts and their disposition, requests for new accounts and the continuation of existing accounts, appropriate?

Full Settlement

The Parties accept the evidence of HHI that all elements of the applied for deferral and variance accounts are appropriate as updated through the interrogatory process, including the balances in the existing accounts and their disposition on a harmonized basis commencing January 1, 2018 and the continuation of existing accounts. Specific to the clearance of the 2015 and 2016 LRAMVA, the parties accept the updated balances as appropriate for clearance.

Table 23 - DVA Balances below summarizes the amounts for disposition and associated rate riders by rate class.

Parties Taking No Position

4.2.1 Effective Date

Full Settlement

The Parties agree that HHI's new rates should be made effective January 1, 2018. In the event there is a delay to the implementation of new rates on January 1, 2018 the parties agree that existing rates should be made interim as of January 1, 2018. The Parties further agree that HHI's rates for the period of January 1, 2017 to December 1, 2017, having previously been declared interim as a result of a high reported ROE in 2015, should be declared final without any adjustments. The high ROE in 2015 was caused primarily by the inclusion in 2015 rates of amounts relating to the upgrades to the 110kV substation that did not come into service until 2017, causing an overcollection in rates that HHI has proposed to refund to customers through a rate rider that is described in detail under issue 5.2.

A. Revenue Requirement Workform

Version 7.00

Utility Name	Hydro Hawkesbury Inc.
Service Territory	
Assigned EB Number	EB-2017-0048
Name and Title	Michel Poulin, General Manager
Phone Number	613-632-6689
Email Address	mpoulin@hydrohawkesbury.ca

The RRWF has been enhanced commencing with 2017 rate applications to provide estimated base distribution rates. The enhanced RRWF is not intended to replace a utility's formal rate generator model which should continue to be the source of the proposed rates as well as the final ones at the conclusion of the proceeding. The load forecasting addition made to this model is intended to be demonstrative only and does not replace the information filed in the utility's application. In an effort to minimize the incremental work required from utilities, the cost allocation and rate design additions to this model do in fact replace former appendices that were required to be filed as part of the cost of service (Chapter 2) filing requirements.

This Workbook Model is protected by copyright and is being made available to you solely for the purpose of filing your application. You may use and copy this model for that purpose, and provide a copy of this model to any person that is advising or assisting you in that regard. Except as indicated above, any copying, reproduction, publication, sale, adaptation, translation, modification, reverse engineering or other use or dissemination of this model without the express written consent of the Ontario Energy Board is prohibited. If you provide a copy of this model to a person that is advising or assisting you in preparing the application or reviewing your draft rate order, you must ensure that the person understands and agrees to the restrictions noted above.

While this model has been provided in Excel format and is required to be filed with the applications, the onus remains on the applicant to ensure the accuracy of the data and the results.

Notes:

Data inputs are required on Sheets 3. Data from Sheet 3 will automatically complete calculations on sheets 4 through 9 (Rate Base through Revenue Requirement). Sheets 4 through 9 do not require any inputs except for notes that the Applicant may wish to enter to support the results. Pale green cells are available on sheets 4

- through 9 to enter both footnotes beside key cells and the related text for the notes at the bottom of each sheet.

 All inputs are in dollars (\$) except where inputs are individually identified as percentages (%)
- Data in column E is for Application as originally filed. For updated revenue requirement as a result of interrogatory responses, technical or settlement conferences, etc., use column M and Adjustments in column I
- Net of addbacks and deductions to arrive at taxable income.
- (4) Average of Gross Fixed Assets at beginning and end of the Test Year
- Average of Accumulated Depreciation at the beginning and end of the Test Year. Enter as a negative amount.
- Select option from drop-down list by clicking on cell M10. This column allows for the application update reflecting the end of discovery or Argument-in-Chief. Also, the outcome of any Settlement Process can be reflected.
- (7) Input total revenue offsets for deriving the base revenue requirement from the service revenue requirement
- 4.0% unless an Applicant has proposed or been approved for another amount.
- (9) The default Working Capital Allowance factor is **7.5%** (of Cost of Power plus controllable expenses), per the letter issued by the Board on June 3, 2015. Alternatively, a WCA factor based on lead-lag study, with supporting rationale could be provided.

Rate Base and Working Capital

Rate Base

Notes

9

10

Some Applicants may have a unique rate as a result of a lead-lag study. The default rate for 2017 cost of service applications is 7.5%, per the letter issued by the Board on June 3, 2015.

Average of opening and closing balances for the year.

Load Forecast Summary

This spreadsheet provides a summary of the customer and load forecast on which the test year revenue requirement is derived. The amounts serve as the denominators for deriving the rates to recover the test year revenue requirement for purposes of this RRWF.

The information to be input is inclusive of any adjustments to kWh and kW to reflect the impacts of CDM programs up to and including CDM programs planned to be executed in the test year. i.e., the load forecast adjustments determined in **Appendix 2-IB** and in Exhibit 3 of the application.

Appendix 2-IB is still required to be filled out, as it also provides a year-over-year variance analysis of demand growth andf trends from historical actuals to the Bridge and Test Year forecasts.

Notes:

Input kW or kVA for those customer classes for which billing is based on demand (kW or kVA) versus energy consumption (kWh)

Cost Allocation and Rate Design

This spreadsheet replaces **Appendix 2-P** and provides a summary of the results from the Cost Allocation spreadsheet, and is used in the determination of the class revenue requirement and, hence, ultimately, the determination of rates from customers in all classes to recover the revenue requirement.

Stage in Application Process: Per Board Decision

A) Allocated Costs

Name of Customer Class (3) From Sheet 10. Load Forecast		Allocated from ious Study ⁽¹⁾	% Allocated Class Revenue Requirement (1) (7A)		nue Requirement	%
Residential General Service < 50 kW General Service > 50 to 4999 kW Unmetered Scattered Load Sentinel Lighting Street Lighting	* * * * * *	935,363 227,732 398,722 1,202 1,333 26,213	58.81% 14.32% 25.07% 0.08% 0.08% 1.65%	\$ \$ \$ \$ \$ \$	1,187,516 293,420 443,989 3,209 2,306 27,915	60.64% 14.98% 22.67% 0.16% 0.12% 1.43%
Allocated Revenue Requirement does not match Base Revenue	\$	1,590,565	100.00%	\$ \$	1,958,355 1,744,140.47	100.00%

- (1) Class Allocated Revenue Requirement, from Sheet O-1, Revenue to Cost || RR, row 40, from the Cost Allocation Study in this application. This excludes costs in deferral and variance accounts. For Embedded Distributors, Account 4750 Low Voltage (LV) Costs are also excluded.
- (2) Host Distributors Provide information on any embedded distributor(s) as a separate class, if applicable. If embedded distributors are billed in a General Service class, include the allocated costs and revenues of the embedded distributor(s) in the applicable class, and also complete Appendix 2-Q.
- (3) Customer Classes If these differ from those in place in the previous cost allocation study, modify the customer classes to match the proposal in the current application as closely as possible.

B) Calculated Class Revenues

Name of Customer Class		Forecast (LF) X ent approved rates		F X current proved rates X (1+d)	LF)	LF X Proposed Rates		liscellaneous Revenues
		(7B)		(7C)		(7D)	(7E)	
1 Residential 2 General Service < 50 kW	\$	947,893 223,727	\$	1,018,238 240,330	\$	1,017,397 241,185	\$	150,470 49,657
General Service > 50 to 4999 kW Unmetered Scattered Load Sentinel Lighting	\$ \$ \$	428,586 2,448 1,921	\$ \$ \$	460,392 2,630 2,063	\$ \$ \$	460,397 2,627 2,065	\$ \$ \$	11,341 296 187
6 Street Lighting 7 8 9 0 1 2 3 4 5 6 7 8 9 0	\$	19,072	\$	20,487	\$	20,469	\$	2,265
Total	\$	1,623,647	\$	1,744,140	\$	1,744,140	\$	214,216

⁽⁴⁾ In columns 7B to 7D, LF means Load Forecast of Annual Billing Quantities (i.e., customers or connections, as applicable X 12 months, and kWh, kW or kVA as applicable. Revenue quantities should be net of the Transformer Ownership Allowance for applicable customer classes. Exclude revenues from rate adders and rate riders.

⁽⁵⁾ Columns 7C and 7D - Column Total should equal the Base Revenue Requirement for each.

⁽⁶⁾ Column 7C - The OEB-issued cost allocation model calculates "1+d" on worksheet O-1, cell C22. "d" is defined as Revenue Deficiency/Revenue at Current Rates.

⁽⁷⁾ Column 7E - If using the OEB-issued cost allocation model, enter Miscellaneous Revenues as it appears on worksheet O-1, row 19,

C) Rebalancing Revenue-to-Cost Ratios

Name of Customer Class	Previously Approved Ratios	Status Quo Ratios	Proposed Ratios	Policy Range
	Most Recent Year: 2014	(7C + 7E) / (7A)	(7D + 7E) / (7A)	
	%	%	%	%
Residential	100.00%	98.42%	98.35%	85 - 115
2 General Service < 50 kW	98.00%	98.83%	99.12%	85 - 115
General Service > 50 to 4999 kW	100.00%	106.25%	106.25%	80 - 120
4 Unmetered Scattered Load	70.00%	91.19%	91.10%	80 - 120
5 Sentinel Lighting	120.00%	97.58%	97.67%	80 - 120

⁽⁸⁾ Previously Approved Revenue-to-Cost (R/C) Ratios - For most applicants, the most recent year would be the third year (at the latest) of the Price Cap IR period. For example, if the applicant, rebased in 2012 with further adjustments to move within the range over two years, the Most Recent Year would be 2015. However, the ratios in 2015 would be equal to those after the adjustment in 2014.

⁽⁹⁾ Status Quo Ratios - The OEB-issued cost allocation model provides the Status Quo Ratios on Worksheet O-1. The Status Quo means "Before Rebalancing".

⁽¹⁰⁾ Ratios shown in red are outside of the allowed range. Applies to both Tables C and D.

(D) Proposed Revenue-to-Cost Ratios (11)

Name of Customer Class	Propos	Proposed Revenue-to-Cost Ratio						
	Test Year	Test Year Price Cap IR Period		Policy Range				
	2018	2019	2020					
Residential	98.35%	98.35%	98.35%	85 - 115				
General Service < 50 kW	99.12%	99.12%	99.12%	85 - 115				
General Service > 50 to 4999 kW	106.25%	106.25%	106.25%	80 - 120				
Jnmetered Scattered Load	91.10%	91.10%	91.10%	80 - 120				
Sentinel Lighting	97.67%	97.67%	97.67%	80 - 120				
Street Lighting	81.44%	81.44%	81.44%	80 - 120				
				80 - 120				

⁽¹¹⁾ The applicant should complete Table D if it is applying for approval of a revenue-to-cost ratio in 2017 that is outside of the OEB's policy range for any customer class. Table D will show that the distributor is likely to enter into the 2018 and 2019 Price Cap IR models, as necessary. For 2018 and 2019, enter the planned revenue-to-cost ratios that will be "Change" or "No Change" in 2017 (in the current Revenue/Cost Ratio Adjustment Workform, Worksheet C1.1 'Decision - Cost Revenue Adjustment, column d), and enter TBD for class(es) that will be entered as 'Rebalance'.

New Rate Design Policy For Residential Customers

Please complete the following tables.

A Data Inputs (from Sheet 10. Load Forecast)

Test Year Billing Determinants for Residential Class								
Customers	4,836							
kWh	50,454,856							
Proposed Residential Class Specific	\$ 1,017,397.00							
Revenue Requirement ¹								

Residential Base Rates on Current Tariff						
Monthly Fixed Charge (\$)	11.90					
Distribution Volumetric Rate (\$/kWh)	0.0051					

B Current Fixed/Variable Split

	Base Rates	Billing Determinants	Revenue	% of Total Revenue
Fixed	11.9	4,836	\$ 690,573.46	72.85%
Variable	0.0051	50,454,856	\$ 257,319.77	27.15%
TOTAL	-	-	\$ 947,893.23	-

C Calculating Test Year Base Rates

Number of Remaining Rate Design Policy	
Transition Years ²	2

	est Year Revenue @ Current F/V Split	Test Year Base Rates @ Current F/V Split	 Reconciliation - Test Year Base Rates @ Current F/V Split
Fixed	\$ 741,209.40	12.77	\$ 741,060.77
Variable	\$ 276,187.60	0.0055	\$ 277,501.71
TOTAL	\$ 1,017,397.00	-	\$ 1,018,562.48

	New F/V Split	Revenue @ new F/V Split		-		Revenue Reconciliation @ Adjusted Rates
Fixed	86.43%	\$	879,303.20	15.15	\$	879,175.46
Variable	13.57%	\$	138,093.80	0.0027	\$	136,228.11

Checks ³	
Change in Fixed Rate	\$ 2.38
Difference Between Revenues @	(\$1,993)
Proposed Rates and Class Specific	-0.20%

Notes:

- The final residential class specific revenue requirement, excluding allocated Miscellaneous Revenues, as shown on Sheet 11. Cost Allocation, should be used (i.e. the revenue requirement after any proposed adjustments to R/C ratios).
- The distributor should enter the number of years remaining before the transition to fully fixed rates is completed. A distributor transitioning to fully fixed rates over a four year period and began the transition in 2016 would input the number "3" into cell D40. A distributor transitioning over a five-year period would input the number "4". Where the change in the residential rate design will result in the fixed charge increasing by more than \$4/year, a distributor may propose an additional transition year.
- Change in fixed rate due to rate design policy should be less than \$4. The difference between the proposed class revenue requirement and the revenue at calculated base rates should be minimal (i.e. should be reasonably considered as a rounding error)

Rate Design and Revenue Reconciliation

This sheet replaces Appendix 2-V, and provides a simplified model for calculating the standard monthly and voluemtric rates based on the allocated class revenues and fixed/variable split resulting from the cost allocation study and rate design and as proposed by the applicant. However, the RRWF does not replace the rate generator model that an applicant distributor may use in support of its application. The RRWF provides a demonstrative check on the derivation of the revenue requirement and on the proposed base distribution rates to recover the revenue requirement, based on summary information from a more detailed rate generator model and other models that applicants use for cost allocation, load forecasting, taxes/PILs, etc.

Stage in Process: Per Board Decision					Class Allocated Revenues				S					Distribution Rates					Revenue Reconciliation

The Fixed/Variable split, for each customer class, drives the "rate generator" portion of this sheet of the RRWF. Only the "fixed" ratio is entered, as the sum of the "fixed" and "variable" portions must sum to 100%. For a distributor that may set the Monthly Service Charge, the "fixed" ratio is calcutated as: [MSC x (average number of customers or connections) x 12 months] / (Class Allocated Revenue Requirement).

Tracking Form

The first row shown, labelled "Original Application", summarizes key statistics based on the data inputs into the RRWF. After the original application filing, the applicant provides key changes in capital and operating expenses, load forecasts, cost of capital, etc., as revised through the processing of the application. This could be due to revisions or responses to interrogatories. The last row shown is the most current estimate of the cost of service data reflecting the original application and any updates provided by the applicant distributor (for updated evidence, responses to interrogatories, undertakings, etc.)

Please ensure a Reference (Column B) and/or Item Description (Column C) is entered. Please note that unused rows will automatically be hidden and the PRINT AREA set when the PRINT BUTTON on Sheet 1 is activated.

(1) Short reference to evidence material (interrogatory response, undertaking, exhibit number, Board Decision, Code, Guideline, Report of the Board, etc.)

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 56 of 58 Filed: January 8, 2018

C. Bill Impacts

Tariff Schedule and Bill Impacts Model (2018 Cost of Service Filers)

The bill comparisons below must be provided for typical customers and consumption levels. Bill impacts must be provided for residential customers consuming 750 kWh per month and general service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW. Include bill comparisons for Non-RPP (retailer) as well. The OEB has established that, when assessing the combined effects of the shift to fixed rates and other bill impact sassociated with changes in the cost of distribution service, a utility shall evaluate the total bill impact for a low volume residential customer consuming at the distributor's 10th consumption percentile19, to a minimum of 50 kWh per month. Refer to page 62 of Chapter 2 Filing Requirements For Electricity Distribution Rate Applications issued July 14, 2016.

For certain classes where one or more customers have unique consumption and demand patterns and which may be significantly impacted by the proposed rate changes, the distributor must show a typical comparison, and provide an explanation.

Note:

- 1. For those classes that are not eligible for the RPP price, the weighted average price including Class B GA through end of May 2016 of \$0.113/kWh (IESO's Monthly Market Report for May 2016, page 22) has been used to represent the cost of power. For those classes on a retailer contract, applicants should enter the contract price (plus GA) for a more accurate estimate. Changes to the cost of power can be made directly on the bill impact chart for the specific class.
- 2. Due to the change to energy consumption used in the calculation of GA rate riders for the 2017 rate year, the separate "GA Rate Riders" line is only applicable to the "Proposed" section of the bill impact tables.
- 3. Please enter the applicable billing determinant (e.g. number of connections or devices) to be applied to the monthly service charge for unmetered rate classes in column N. If the monthly service charge is applied on a per customer basis, enter the number "1". Distributors should provide the number of connections or devices reflective of a typical customer in each class.

Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.

Table

Hydro Hawkesbury Inc. EB-2017-0048 Settlement Proposal Page 57 of 58 Filed: January 8, 2018

D. Tariff Sheet

Effective and Implementation Date January 1, 2018 This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2017-0048

This classification refers to the supply of electrical energy to customers residing in residential dwelling units. Energy is generally supplied as single phase, 3-wire, 60-Hertz, having nominal voltage of 120/240 Volts and up to 400 amps. There shall be only one delivery point to a dwelling. The Basic Connection for Residential consumers is defined as 100 amp 120/240 volt overhead service. A Residential building is supplied at one service voltage per land parcel. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

EB-2017-0048

ONTARIO ELECTRICITY SUPPORT PROGRAM RECIPIENTS

In addition to the charges specified on page 1 of this tariff of rates and charges, the following credits are to be applied to eligible residential customers.

APPLICATION

The application of the charges are in accordance with the Distribution System Code (Section 9) and subsection 79.2(4) of the Ontario Energy Board Act, 1998.

The application of these charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

In this class:

"Aboriginal person" includes a person who is a First Nations person, a Métis person or an Inuit person;

"account-holder" means a consumer who has an account with a distributor that falls within a residential-rate classification as specified in a rate order made by the Ontario Energy Board under section 78 of the Act, and who lives at the service address to which the account relates for at least six months in a year;

"electricity-intensive medical device" means an oxygen concentrator, a mechanical ventilator, or such other device as may be specified by the Ontario Energy Board;

"household" means the account-holder and any other people living at the accountholder's service address for at least six months in a year, including people other than the account-holder's spouse, children or other relatives;

"household income" means the combined annual after-tax income of all members of a household aged 16 or over;

MONTHLY RATES AND CHARGES

Class A

(a) account-holders with a household income of \$28,000 or less living in a household of one or two persons; (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of three persons; (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of five persons; and (d) account-holders with a household income of between \$48,001 and \$52,000 living in a household of seven or more persons; but does not include account-holders in Class E.

OESP Credit \$ (30.00)

Class B

(a) account-holders with a household income of \$28,000 or less living in a household of three persons; (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of four persons; (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of six persons; but does not include account-holders in Class F.

OESP Credit \$ (34.00)

Class C

(a) account-holders with a household income of \$28,000 or less living in a household of four persons; (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of five persons; (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of seven or more persons; but does not include account-holders in Class G.

OESP Credit \$ (38.00)

Class D

(a) account-holders with a household income of \$28,000 or less living in a household of five persons; and (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of six persons; but does not include account-holders in Class H.

OESP Credit \$ (42.00)

Effective and Implementation Date January 1, 2018

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2017-0048

Class E

Class E comprises account-holders with a household income and household size described under Class A who also meet any of the following conditions:

(a) the dwelling to which the account relates is heated primarily by electricity;

(b) the account-holder or any member of the account-holder's household is an Aboriginal person; or

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

OESP Credit \$ (45.00)

Class F

(a) account-holders with a household income of \$28,000 or less living in a household of six or more persons; (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of seven or more persons; or (c) account-holders with a household income and household size described under Class B who also meet any of the following conditions:

i. the dwelling to which the account relates is heated primarily by electricity;

ii. the account-holder or any member of the account-holder's household is an Aboriginal person; or

iii. the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates

OESP Credit \$ (50.00)

Class G

Class G comprises account-holders with a household income and household size described under Class C who also meet any of the

(a) the dwelling to which the account relates is heated primarily by electricity;

(b) the account-holder or any member of the account-holder's household is an Aboriginal person; or

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

OESP Credit \$ (55.00)

Class H

Class H comprises account-holders with a household income and household size described under Class D who also meet any of the following conditions:

(a) the dwelling to which the account relates is heated primarily by electricity;

(b) the account-holder or any member of the account-holder's household is an Aboriginal person; or

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

OESP Credit \$ (60.00)

Class I

Class I comprises account-holders with a household income and household size described under paragraphs (a) or (b) of Class F who also meet any of the following conditions:

(a) the dwelling to which the account relates is heated primarily by electricity;

(b) the account-holder or any member of the account-holder's household is an Aboriginal person; or

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

OESP Credit \$ (75.00)

GENERAL SERVICE 50 TO 4.999 KW SERVICE CLASSIFICATION

This classification applies to a non residential account whose average monthly maximum demand used for billing purposes is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Note that for the application of the Retail Transmission Rate - Network Service Rate and the Retail Transmission Rate - Line and Transformation Connection Service Rate the following sub-classifications apply:

General Service 50 to 500 kW non-interval metered

General Service 50 to 500 kW interval metered

General Service greater than 500 to 5,000 kW interval metered. Class A and Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/ documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

This classification refers to municipal lighting, Ministry of Transportation operation controlled by photo cells. Consumption is as per Ontario Energy Board street lighting load shape. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing monthly charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing monthly credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail		
Settlement Code directly to retailers and customers, if not delivered electronically through the		
Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

Effective and Implementation Date January 1, 2018 This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2017-0048

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor - Secondary Metered Customer < 5,000 kW Total Loss Factor - Primary Metered Customer < 5,000 kW 1.0509

Low Voltage Charges - Historical and Proposed LV Charges

		2014	2015	2016	2017	2018
4075-Billed - LV□		(\$51,804)	(\$51,300)	\$90,976	\$90,976	\$90,976
4750-Charges - LV□		\$85,933	\$89,485	\$211.136	\$211,136	\$211.136

Low Voltage Charges - Allocation of LV Charges based on Transmission Connection Revenues

(volumes are not loss adjusted)

	ALLOCATON BASED ON TRANSMISSION-CONNECTION REVENUE								
Customer Class Name		RTSR Rate	Not Uplifted Volumes	Revenue	% Alloc				
Residential	kWh	\$0.0041	50,454,856	\$204,999	34.16%				
General Service < 50 kW	kWh	\$0.0036	17,883,115	\$64,111	10.68%				
General Service > 50 to 4999 kW	kW	\$1.4736	221,782	\$326,809	54.46%				
Unmetered Scattered Load	kWh	\$0.0036	432,358	\$1,550	0.26%				
Sentinel Lighting	kW	\$2.3260	240	\$558	0.09%				
Street Lighting	kW	\$1.1391	1,857	\$2,115	0.35%				
TOTAL			68,994,209	\$600,142	100.00%				

Low Voltage Charges Rate Rider Calculations

(volumes are not loss adjusted)

	PROPOSED LOW VOLTAGE CHARGES & RATES								
Customer Class Name	% Allocatio	Charges	Not Uplifted Volumes	Rate	per				
Residential	34.16%	72,121	50,454,856	\$0.0014	kWh				
General Service < 50 kW	10.68%	22,555	17,883,115	\$0.0013	kWh				
General Service > 50 to 4999 kW	54.46%	114,975	221,782	\$0.5184	kW				
Unmetered Scattered Load	0.26%	545	432,358	\$0.0013	kWh				
Sentinel Lighting	0.09%	196	240	\$0.8183	kW				
Street Lighting	0.35%	744	1,857	\$0.4007	kW				
TOTAL	100.00%	211,136	68,994,209						

Low Voltage Charges to be added to power supply expense for bridge and test year.

(volumes are not loss adjusted)

Customer		Revenue	Expense		2017			2018	
Class Name		USA#	USA#	Volume	Rate	Amount	Volume	Rate	Amount
Residential	kWh	4075	4750	50,699,914	\$0.0007	\$35,490	50,454,856	\$0.0014	\$70,637
General Service < 50 kW	kWh	4075	4750	19,073,256	\$0.0006	\$11,444	17,883,115	\$0.0013	\$23,248
General Service > 50 to 4999 kW	kW	4075	4750	188,567	\$0.2419	\$45,614	221,782	\$0.5184	\$114,972
Unmetered Scattered Load	kWh	4075	4750	293,553	\$0.0006	\$176	432,358	\$0.0013	\$562
Sentinel Lighting	kW	4075	4750	265	\$0.3818	\$101	240	\$0.8183	\$196
Street Lighting	kW	4075	4750	1,849	\$0.1870	\$346	1,857	\$0.4007	\$744
TOTAL		0	0	70,257,403		\$93,171	68,994,209		\$210,359

Projected Power Supply Expense			\$21,405,345		\$18,519,668
