Re: EB-2017-0289 OM Limited Partnership Application

Norfolk County has reviewed the application put forward and is issuing a letter of support in principal for the project. Matters such as location of works on the municipal right of way can likely be addressed through a municipal consent process.

At this time the application is one that the municipality would look upon either in a neutral or favourable light. We would support the Energy Board expediting any hearing process.

Yours truly,
