**Re: Approved Supplementary Price and Structure for Electricity Pricing Pilot
Board File No.: EB-2016-0201**

On November 16, 2015, the Ontario Energy Board (OEB) issued its [Regulated Price Plan Roadmap](#) setting out a multi-year plan to redesign the RPP to better respond to policy objectives, improve system efficiency and give greater customer control. A key element of the Roadmap is the implementation of electricity pricing pilots to test alternative pricing structures. The OEB invited electricity distributors to participate in the development and implementation of priority price pilots, in accordance with the [Guidelines for Pilot Projects on RPP Pricing](#) issued on July 18, 2016.

As stated in the Guidelines, the OEB has responsibility for approving the structure of each pilot as well as the electricity prices used in each pilot. The OEB approved six pilot structures and price plans on August 24, 2017, approved the structure and price of an additional pilot on October 3, 2017 and approved an additional 5 pilot structures and price plans on October 31, 2017.

The OEB has recently granted approval to CustomerFirst to proceed with a series of additional RPP pricing pilots including the pilot described in Appendix A which serves as a supplement to the OEB's [Approved RPP Pilot Structures and Prices](#).

Sincerely,

Kirsten Walli
Board Secretary

When any such holiday falls on a weekend (Saturday or Sunday), the next weekday following (that is not also a holiday) is to be treated as the holiday.
