Dear Mr. Lamarche:

**Re: Correction to Rate Order
Cooperative Hydro Embrun Inc. (Cooperative Hydro Embrun)
Application for Rates
OEB File Number EB-2017-0035**

The Ontario Energy Board (OEB) issued a Decision and Rate Order in the above-noted proceeding on January 25, 2018. On January 29, 2018, Cooperative Hydro Embrun filed a letter indicating that it had found an error in the Low Voltage rate for the General Service 50 to 4,999 kW class. Cooperative Hydro Embrun advised that it had inadvertently calculated the rate on a kWh basis as opposed to a kW basis. Cooperative Hydro Embrun confirmed that this error does not have any monetary impact on the cost of power calculations nor the revenue requirement, and that the requested revision is for presentation and consistency purposes only.

Accompanying the Cooperative Hydro Embrun letter were a revised Settlement Agreement, Tariff Sheet, Cost of Power calculation and Bill Impact model.

Today, the OEB is reissuing the Rate Order, with the error corrected. Pursuant to Rule 41.02 of the OEB's *Rules of Practice and Procedure*, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar errors made in its orders or decisions. The OEB considers this to be an error of calculation. The Revised Rate Order is not otherwise changed in any way.

Yours truly,

Original Signed By

John Pickernell
Manager, Applications Administration
