Subj: EB-2016-0380 License Renewal

Dear Sir/Madam,

ENSQR Corp. had sent the renewal documents in November 2017 as per the email received from OEB about the renewal. The notice sent here prompted us to follow-up with Mr. George P. He has not yet returned our communication to let us know about the renewal of our license. Since we could not get any information I went and submitted at the Ontario Energy Board office the renewal application again on 26th of February, 2018 at 3 pm.

We have filed for the renewal as required and since we did not receive any new information we were under the assumption that both the issues are inter-related. Please let us know of the restrictions in operating the services as a Unit Sub-meter provider till the license is renewed.

Thanks

Yours sincerely,

Harshal Gunde
