- To construct approximately seven kilometres of natural gas pipelines and associated facilities in the Regional Municipality of Durham to serve the community of Scugog Island
- To charge a System Expansion Surcharge of \$0.23 per cubic metre of gas to all customers taking distribution service from the proposed facilities in the community of Scugog Island
- Of the form of its proposed land easement agreements

Learn more. Have your say.

If approved, the proposed extra-high pressure 4-inch diameter, steel natural gas pipeline would start at an existing Enbridge Gas Distribution Inc. pipeline just west of the intersection of Highway 7A and Regional Road 57 in the Township of Scugog, travel west along Highway 7A for approximately seven kilometres and end at the intersection of Highway 7A and Island Road.

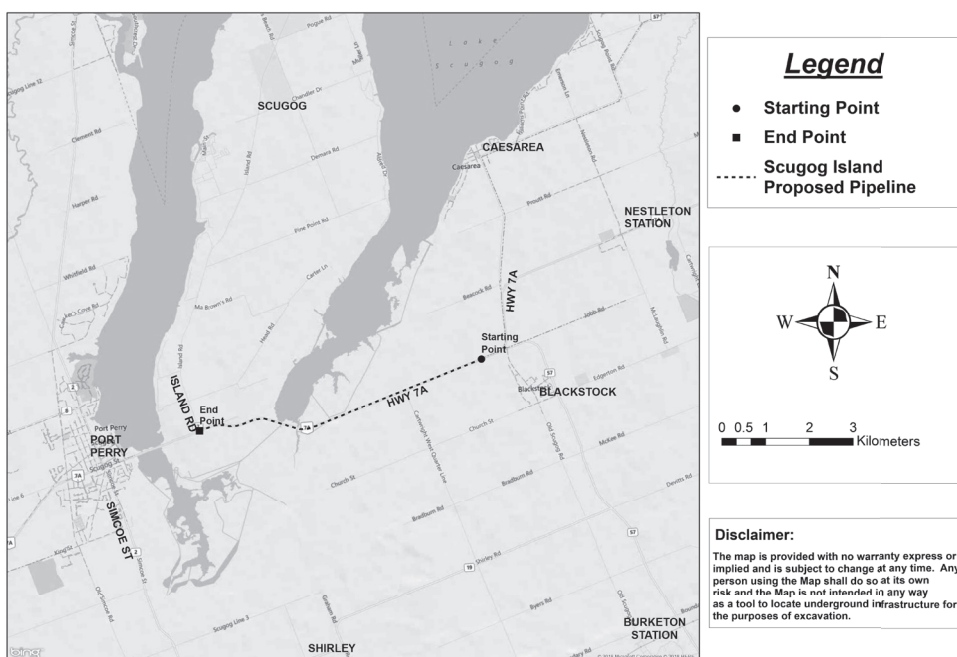

Enbridge Gas Distribution Inc. has also applied for approval to charge a System Expansion Surcharge of \$0.23 per cubic metre of gas in addition to its base distribution charge, to be paid over a term of up to 40 years, by all customers in the community of Scugog Island that take service from the proposed facilities.

Enbridge Gas Distribution Inc. is also asking the OEB to approve the form of agreement it offers to landowners to use their land for routing or construction of the proposed line.

Enbridge Gas Distribution Inc. has a Municipal Franchise Agreement with the Township of Scugog and Certificate of Public Convenience and Necessity from the Ontario Energy Board to serve the Township of Scugog.

A map of the proposed pipeline project is provided below.

Ontario Energy Board Commission de l'énergie de l'Ontario

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Sched. B), as amended (the “**OEB Act**”);

AND IN THE MATTER OF an application by Enbridge Gas Distribution Inc. under section 36 of the OEB Act for an order or orders approving a proposal to charge a System Expansion Surcharge in respect of a Community Expansion Project to serve Scugog Island, in the Township of Scugog, in the Regional Municipality of Durham;

AND IN THE MATTER OF an application by Enbridge Gas Distribution Inc. under section 90 of the OEB Act for an order or orders granting leave to construct a natural gas distribution pipeline and ancillary facilities to serve Scugog Island.

LEAVE TO CONSTRUCT APPLICATION: SCUGOG ISLAND PIPELINE PROJECT

1. The Applicant, Enbridge Gas Distribution Inc. (“**Enbridge**”), is an Ontario corporation with its head office in the City of Toronto. It carries on the business of selling, distributing, transmitting and storing natural gas within the province of Ontario.
2. In its EB-2016-0004 Generic Community Expansion Decision with Reasons (“**Community Expansion Decision**”) issued on November 17, 2016, the Board provided guidance regarding the expansion of natural gas distribution service to previously unserved communities. Following the issuance of the Community Expansion Decision, Enbridge filed an application, under Board docket EB-2017-0147, for approval of a System Expansion Surcharge (“**SES**”) to be charged to all new customers taking gas distribution service from an Enbridge Community Expansion Project. The SES is a fixed volumetric rate of \$0.23 per cubic metre of gas to be charged in addition to Enbridge’s base distribution rates as approved by the Board from time to time.
3. Pursuant to the guidance provided by the Board in the Community Expansion Decision, Enbridge proposes to undertake a Community Expansion Project (the “**Scugog Island Project**”) to serve the community of Scugog Island, in the Township of Scugog, in the Regional Municipality of Durham. Consistent with its proposal in the EB-2017-0147 proceeding, Enbridge proposes that the SES be paid, over a term of 40 years, by all customers served by the Scugog Island Project.

4. Enbridge hereby applies under section 36 of the OEB Act for approval to charge the SES, over a term of 40 years, to all customers served by the Scugog Island Project.
5. The Board gave notice of Enbridge's proposal to serve Scugog Island and, in its notice, the Board requested expressions of interest from any other parties with plans to provide natural gas services to the community. No expressions of interest were received that complied with the Board's notice. Accordingly, this Application does not engage the competitive process contemplated in the Community Expansion Decision.
6. Scugog Island is entirely within the Township of Scugog, in the Regional Municipality of Durham. Enbridge has entered into a Municipal Franchise Agreement with the Township of Scugog and Enbridge holds a Certificate of Public Convenience and Necessity granted by the Board in respect of the Township of Scugog.
7. For the purposes of the Scugog Island Project, Enbridge proposes to build natural gas pipelines and associated natural gas distribution infrastructure (the "**Facilities**"). A map showing the proposed pipeline route can be found at Exhibit C, Tab 1, Schedule 1, Attachment 1 of the evidence filed together with this Application.
8. The proposed Facilities consist of approximately seven kilometres of extra high pressure Nominal Pipe Size ("**NPS**") 4-inch steel natural gas pipeline, together with ancillary facilities. The pipeline would originate at an existing Enbridge pipeline just west of the intersection of Highway 7A and Regional Road 57 in the Township of Scugog and it would travel west along Highway 7A for approximately seven kilometres, where it would terminate at the intersection of Highway 7A and Island Road.
9. Enbridge hereby applies under section 90 of the OEB Act for leave to construct the Facilities
10. The route and location for the proposed pipeline was selected by an independent environmental consultant, through the process outlined in the Board's *Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines in Ontario (Seventh Edition, 2016)* (the "**Guidelines**"). Details of the route selection and the Environmental and Socio-Economic Impact Assessment ("**ER**") of the proposed facilities are included at Exhibit D, Tab 1, Schedule 3, Attachment 1. The proposed measures outlined in the ER will be implemented to mitigate any potential environmental impacts.
11. Input from the public and area stakeholders and First Nations was sought during the route selection process and was incorporated into the final alignment decision. Further, in accordance with the Guidelines, Enbridge contacted the Ministry of Energy with regard to the Crown's duty to consult and received correspondence indicating that the procedural aspects of the duty to consult were delegated to Enbridge. Information on indigenous

consultations and duty to consult activities can be found at Exhibit H, Tab 1, Schedule 1 of the pre-filed evidence.

12. Enbridge has included draft agreements at Exhibit G, Tab 1, Schedule 3 that will be offered to affected landowners where the need for an easement arises.
13. Construction of the Facilities is scheduled to commence in the Spring of 2019 with a view to gas distribution service being available to new customers on Scugog Island for the 2019/2020 heating season. The proposed construction schedule is set out at Exhibit E, Tab 1, Schedule 1.
14. A list of interested parties and permitting authorities is provided at Exhibit A, Tab 2, Schedule 3.
15. Enbridge requests that this Application proceed by way of written hearing in English.
16. Enbridge therefore requests that the Board make the following orders:
 - (i) an order pursuant to section 36 of the OEB Act approving an SES with a term of 40 years for all gas distribution customers served by the Scugog Island Project;
 - (ii) an order pursuant to section 90 of the OEB Act granting leave to construct the Facilities; and
 - (iii) an order pursuant to section 97 of the OEB Act approving the proposed form of easement agreements.
17. Enbridge requests that copies of all documents filed with the Board in connection with this proceeding be served on it and on its counsel, as follows:

Scugog Island Natural Gas Pipeline Project

Overview

Enbridge Gas Distribution Inc. ("Enbridge") is proposing to construct approximately 7 km of Nominal Pipe Size (NPS) 4 inch extra high pressure (XHP) steel natural gas pipeline in the Town of Sougog. The Project originates near Blacktook just west of the intersection of Highway 57 and Highway 7A and Island Road in Port Perry.

A Preliminary Preferred Route (PPR) for the proposed natural gas pipeline has been identified. The PPR is proposed to start just west of the intersection of Highway 57 and Highway 7A in Blackstock, head west along Highway 7A, and terminate near the intersection of Highway 7A and Island Road in Port Perry. Approximately 7 km of Nominal Pipe Size (NPS) 4-inch extra high pressure (X-HP) steel pipe be installed along Highway 7A.

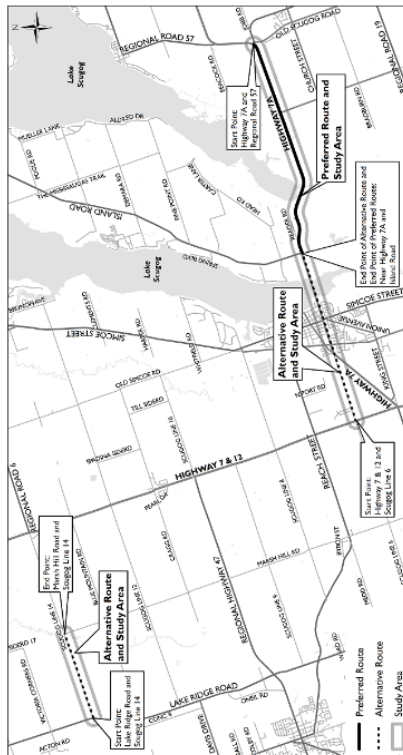

An alternative route is also being considered as part of the study. It comprises two separate pipeline segments: one segment along the Highway 7A, and another segment along the Highway 14 between Lake Ridge Road and Marsh Hill Road; and one segment along Suqog Line 6 (Highway 7A between Highway 14 and Highway 12) and Island Road. The alternative would require approximately 2.6 km of NPS 8-inch XHP steel pipe along Suqog Line 6, and 2.7 km of NPS 6-inch XHP steel pipe and 3.3 km of NPS 4-inch XHP steel pipe along Suqog Line 6/Highway 7A for a total length of 8.6 km. The natural gas pipeline will be located mainly within the municipal right-of-way (ROW). The Project will provide the residents and businesses of Suqog Island access to natural gas for the first time.
