**RE: EAST-WEST TIE TRANSMISSION PROJECT
NOTICE OF ERRATA - AMENDED ENVIRONMENTAL ASSESSMENT REPORT**

When assembling NextBridge Infrastructure LP's amended Environmental Assessment (EA) Report for the East-West Tie Transmission Project, figures were mistakenly excluded from three sections of the submission when compiling the documentation for publication. To ensure that all stakeholders have the complete materials, NextBridge is providing the following complete sections, which now include all figures.

- Section 15: Archaeological Resources
- Appendix 3-III: Alternatives Assessment Criteria and Indicator Tables
- Appendix 19-IV: Project Activities in Provincial Parks and Conservation Reserves

PLEASE NOTE: These versions supersede the previous sections that were distributed in hard copy, USB devices (i.e., memory sticks), and on laptops available at public viewing locations.

The amended EA Report, with these updated files, will be available for review on the NextBridge website at www.NextBridge.ca as of February 16, 2018.

If you would like a hard copy of the amended EA Report, or any of the files listed above, please contact NextBridge at info@nextbridge.ca or 1-888-767-3006.

Sincerely,

<original signed by>

Corinne Miller
Sr. Environmental Advisor, Major Projects Environmental
NextBridge Infrastructure LP
