ONTARIO ENERGY BOARD

Dear Ms. Walli:

**Re: Upper Canada Transmission, Inc. (“UTC” or “NextBridge”)  
Ontario Energy Board (“OEB” or “Board”) File EB-2017-0182/EB-2017-0194  
New East-West Tie Line Project  
NextBridge Updated Responses to Certain Interrogatories –  
Confidential Versions of Documents**

---

On March 14, 2018, NextBridge (through its counsel) filed with the Board and served on interested parties a letter describing the materials for which NextBridge continues to seek confidential treatment in accordance with the Board’s *Practice Direction on Confidential Filings*. With that letter, NextBridge included a detailed explanation of specific reasons why the proposed confidential information should be treated as confidential and why public disclosure of that information would be detrimental. The unredacted versions of the materials were provided to the Board via CD at that time.

As requested, with this letter NextBridge is now filing the consolidated unredacted versions of the materials in paper form, and on flash drives. These unredacted materials are the same as previously filed on March 14<sup>th</sup> via CD, except for the fact that an index page has been added at the front of each of the documents (that index page is the same as had been included in the versions of the documents originally filed on January 25, 2018).

These unredacted versions of the documents are confidential and are not for filing on the public record.

Yours truly,

Krista Hughes  
Senior Legal Counsel  
Enbridge Employee Services Canada Inc.
