**RE: EB-2017-0306/0307 Enbridge-Union Proposed Merger – Technical Conference  
FRPO Documents II**

Further to our discussion with EGD at the Technical Conference, we are writing to ask in advance for the companies to provide a complete answer to FRPO.10 as an undertaking. We sought to understand if the current Boards met the criteria in the Elenchus report and AMALCO's expectation for the future Board. The question was not answered on the basis that the Elenchus report was not adopted by the Board. Given the Board's issuance of the draft report on governance March 28<sup>th</sup>, we would respectfully ask the utilities to provide a fulsome answer in the context of the draft report. To address the stated concern about the ARC, we note from the report that the Board is cognizant of the need of change to the ARC.

In addition, we attach a simplified figure of Union Gas' Dawn Parkway system to expedite our discussions on April 3. We ask that the witness panel #3 has this document for the Technical Conference.

Respectfully Submitted on Behalf of FRPO,

Dwayne R. Quinn  
Principal  
DR QUINN & ASSOCIATES LTD.
