Good morning Ms. Walli

**Re: On-Energy Corp. and Maricann Group Inc. Limited Partnership Application for a Limited Certificate of Public Convenience and Necessity ("CPCN") in Norfolk County
Ontario Energy Board File Number EB-2017-0289**

I am writing to you and your colleagues in respect of the timing of the project and its important regulatory approvals, which are currently before the OEB.

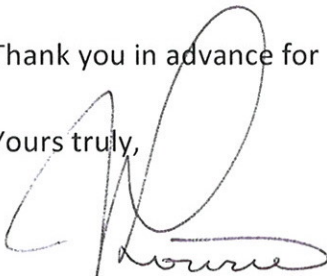

As you are aware, On-Energy and Maricann Group Inc. (Maricann) formed a partnership, OMLP, to supply natural gas to Maricann's Langton Facility. The Langton Facility is very near completion and requires a natural gas supply, commencing in June, 2018.

OMLP submitted an application for a limited CPCN in On August 25th, 2017 which was assigned the file number EB-2017-0289. OMLP completed its Reply Submission pursuant to OEB Procedural Order no. 1, February 13th, 2018 on March 26th, 2018.

Due to the extremely time sensitive nature of Maricann's natural gas requirements. OMLP is writing to enquire as to the projected timing of the OEB's decision on EB-2017-0289.

Thank you in advance for looking into this critical timing matter.

Yours truly,

Jane Lowrie
OM Limited Partnership
