Board File# EB-2018-0003**

The following are Union Gas Limited (“Union”) reply submissions for the Oxford Reinforcement Project EB-2018-0003. Submissions were received from OEB Board Staff. Board staff submissions support Union’s Application. Union’s reply submissions address the issues and identified by Board Staff.

OEB Board Staff

In Board Staff submission dated May 3, 2018, they support Union’s application, subject to the proposed draft conditions for the proposed pipelines for which leave to construct approval has been requested.

In regard to the conditions of approval Board Staff have proposed that condition 5 be revised. Union has no issues with this condition being revised. Union has no other concerns with the proposed conditions of approval and can accept the proposed conditions.

Summary

As Board Staff supports Union’s application it is Union’s position that it has addressed all of the issues raised in the proceeding and requests that the Ontario Energy Board approve Union’s application.

Sincerely,
