ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ENERGY+ INC.

Energy+ Inc. has applied to change its electricity distribution rates.

Learn more. Have your say.

Energy+ Inc. has applied to the Ontario Energy Board to change its electricity distribution rates effective January 1, 2019, to harmonize the rates and charges in the Cambridge and North Dumfries and Brant County service areas. If the application is approved, a typical residential customer of Energy+ Inc. in the Cambridge and North Dumfries service area will see an increase of approximately \$2.43 per month. A typical residential customer in the Brant County service area will see a decrease of approximately \$2.76 per month.

The proposal to harmonize rates and charges will also result in changes to certain specific service charges. It is important to review the application carefully to determine whether you may be affected by these changes.

Energy+ Inc. has also applied to introduce a new standby charge. Other customers, including businesses, may also be affected.

THE ONTARIO ENERGY BOARD IS HOLDING A COMMUNITY MEETING

The Ontario Energy Board (OEB) is hosting a meeting on July 11, 2018 at the Galt Legion, 4 Veterans Way, Cambridge, Ontario from 6:30 p.m. (doors open at 6 p.m.) so that you can:

- Learn more about Energy+'s costs and rate application.
- Find out how the OEB will review the application.
- Get involved and provide your comments about the application to the OEB.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider the application filed by Energy+. During the hearing, we will question Energy+ on its case for a rate change. We will also hear questions and arguments from individual customers and from groups that represent Energy+'s customers. At the end of this hearing, the OEB will decide what, if any, rate change will be allowed.

Distributors such as Energy+ typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process.

- You can review Energy+'s application on the OEB's website now.

- You can file a letter with your comments, which will be considered during the hearing.
- You can become an active participant (called an intervenor). Apply by **June 18, 2018** or the hearing will go ahead without you and you will not receive any further notice of the proceeding.
- At the end of the process, you can review the OEB's decision and its reasons on our website.

ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF ENERGY+ INC.

Energy+ Inc. has applied to change its electricity distribution rates. Learn more. Have your say.

Energy+ Inc. has applied to the Ontario Energy Board to change its electricity distribution rates effective January 1, 2019, to harmonize the rates and charges in the Cambridge and North Dumfries and Brant County service areas. If the application is approved, a typical residential customer of Energy+ Inc. in the Cambridge and North Dumfries service area will see an increase of approximately \$2.43 per month. A typical residential customer in the Brant County service area will see a decrease of approximately \$2.76 per month.

The proposal to harmonize rates and charges will also result in changes to certain specific service charges. It is important to review the application carefully to determine whether you may be affected by these changes.

Energy+ Inc. has also applied to introduce a new standby charge. Other customers, including businesses, may also be affected.

THE ONTARIO ENERGY BOARD IS HOLDING A COMMUNITY MEETING

The Ontario Energy Board (OEB) is hosting a meeting on July 11, 2018 at the Galt Legion, 4 Veterans Way, Cambridge, Ontario from 6:30 p.m. (doors open at 6 p.m.) so that you can:

- Learn more about Energy+'s costs and rate application.
- Find out how the OEB will review the application.
- Get involved and provide your comments about the application to the OEB.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider the application filed by Energy+. During the hearing, we will question Energy+ on its case for a rate change. We will also hear questions and arguments from individual customers and from groups that represent Energy+'s customers. At the end of this hearing, the OEB will decide what, if any, rate change will be allowed.

Distributors such as Energy+ typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
