Dear Ms. Walli:

EB-2018-0098 – Hydro One Networks Inc.'s Section 92 - Kapuskasing Area Reinforcement Project – Application and Evidence

In response to Procedural Order 2, Atlantic Power Corporation ("APC") filed submissions with the Ontario Energy Board on June 7, 2018. The submissions focus on the Independent Electricity System Operator's assessment of both the need for the Project and the cost-benefit analysis of the transmission and generation alternatives. Hydro One notes that most, if not all, of the submissions provided by APC on June 7, 2018 are argument in nature and not evidence. Consequently, Hydro One does not have any interrogatory requests to pose on the APC submissions.

Hydro One will address the assertions made by APC in reply argument.

An electronic copy of this has correspondence been filed through the Ontario Energy Board's Regulatory Electronic Submission System (RESS).

Sincerely,

ORIGINAL SIGNED BY JOANNE RICHARDSON
