Dear Ms. Walli:

EB-2018-0098 – Hydro One Networks Inc.’s Section 92 - Kapuskasing Area Reinforcement Project – Response to APC Interrogatory Response Cover Letter

Consistent with the cover letter attached to the June 21, 2018, Atlantic Power Corporation’s (“APC”) interrogatory request responses in the above-mentioned proceeding, it appears that Hydro One Networks Inc. (“Hydro One”) inadvertently failed to serve Hydro One’s June 13, 2018, correspondence on APC or any other intervenor in this proceeding. Hydro One sincerely apologizes for this administrative oversight.

Nonetheless, Hydro One states that any amendment to the current procedural order of this proceeding is unnecessary and inappropriate because the letter stated only that Hydro One would not be posing any questions on the APC evidence. There is therefore no reason to delay the application.

The interrogatory process is intended for discovery purposes, not to indicate what arguments will be made by any party in the proceeding. Hydro One’s view in that letter was that it required no further discovery, by way of interrogatories, on the evidence provided by APC.

In APC’s June 21, 2018 cover letter, APC asserts that Hydro One is holding back its position until reply argument. To be clear, Hydro One is not holding back Hydro One’s position in this proceeding. Since the prefiled evidence, Hydro One’s position in this proceeding has been, and will continue to be, that the Kapuskasing Area Reinforcement Project is in the best interest of Ontario ratepayers.

An electronic copy of this has correspondence been filed through the Ontario Energy Board's Regulatory Electronic Submission System (RESS).

Sincerely,
