Dear Ms. Walli:

**Re: Energy+ Inc. Cost of Service Application – Notice of Intervention APPrO
Board File No. EB-2018-0028**

We are writing in response to the Notice of Intervention filed by counsel to the Association of Power Producers of Ontario (“APPrO”) in the above noted proceeding.

Energy+ Inc. respectfully objects to APPrO’s request for cost eligibility in this proceeding. Energy+ Inc. submits that APPrO is ineligible under Section 3.05(b) of the Practice Direction on Cost Awards, which explicitly states that “an electricity transmitter, wholesaler, generator, distributor, retailer, and unit sub-meter provider, either individually or in a group” are not eligible for a cost award.

In addition, Energy+ respectfully submits that APPrO members, in this instance, do not represent the direct interests of distribution electricity rate payers with regards to the services offered by Energy+ Inc.

Sincerely,

ENERGY+ INC.
