DELIVERED BY EMAIL

Dear Ms. Walli,

RE: Board File No. EB-2017-0306 and Board File No. EB-2017-0307

In reviewing the submission on behalf of OGVG I have noticed a mistake in one of the positions that was set out. With respect to the following submission:

What deferral and variance accounts should not continue?

OGVG does not object to the proposed discontinuance of certain deferral and variance accounts as proposed, with the exception that OGVG does not take a position on accounts related to Normalized Average Consumption or Normalized Average Use as such accounts are only applicable to general service customers.

OGVG mistakenly noted no objection to the proposed issue save with respect to the NAC/NAU accounts; in reality OGVG does object to the closure of certain accounts. Because we are asking that our position be changed after submitting argument, and because we did not include substantive submissions on this issue, we would ask that the Board simply indicate OGVG as not taking a position on the issue and, as we would expect would be the case in any event, decide the issue based on the merits of any substantive arguments the other parties have or will submit for the Board's consideration.

Yours very truly,

Michael R. Buonaguro
