Ms. Kirsten Walli Board Secretary Ontario Energy Board P.O. Box 2319 2300 Yonge Street, 27th Floor Toronto, Ontario M4P 1E4

Dear Ms. Walli:

## RE: EB-2017-0049 – Transcript corrections

Hydro One Networks Inc. ("**Hydro One**") writes to submit corrections identified in regards to the transcripts for hearing panels 3 to 7. This includes transcripts from days 4-11 of the hearing. Most corrections are minor and are set out in the enclosed spreadsheet.

In addition, Hydro One provides the following corrections or clarifications:

1. On day 2, page 85, line 27, Mr. D'Andrea was asked if Hydro One's cost of capital update for 2021 was limited to the equity portion of the cost of capital and incorrectly replied in the affirmative. Hydro One is proposing to update both the equity portion and the debt portion of cost of capital (update to long-term debt, and update of short-term debt at OEB deemed rate).

2. On day 10, page 32, line 24, when Mr. Irving was asked about the amount of contingency, his answer: \$11M is for the entire project. The distribution portion of the contingency is 50.07% of \$11M or approximately \$5.501M.

Please do not hesitate to contact the undersigned if you have any questions in regards to the foregoing.

Yours truly,

## **McCarthy Tétrault LLP**
