Interrogatories of HQEM

Issue 2.2: Is the methodology used to derive the proposed IESO Usage Fees and the resulting Usage Fees of \$1,2402/MWh for domestic customers and \$1,0115/MWh for export customers appropriate?

2-HQEM-IR1. Reference: EB-2018-0143, Exhibit A-2-2, Page 16 of 28.

- (i) Please explain in detail the basis and the rationale for the increase of the usage fee against the budget presented in the Detailed Financials, which indicates stable revenue requirements from the IESO Usage fee, for the years 2017 to 2020.
