Dear Mr. Garner:

5
Re: **RP-2003-0044 Combined Proceeding re: Distribution Service Area Amendments**

6
Under covering letter to the Board dated September 26, 2003, in the above-noted proceeding, Wirebury Connections Inc. filed written interrogatory responses and extensive new evidence.

7
The new evidence submitted by Wirebury was a 16-page report entitled, "*The Benefits of Competition in the Electrical Distribution Sector*," prepared by John D. Todd of Elenchus Research Associates, as rebuttal to the KEMA-Quantec report filed by Hydro One Networks Inc. ("Networks"). Also included with the new evidence was a curriculum vitae of Mr. Todd.

8
Networks hereby objects to Wirebury's filing of the said report.

9
If the Board determines to grant leave to Wirebury to file the report notwithstanding Networks' objection, Networks requests the opportunity to file interrogatories and, if Networks deems it necessary, to file rebuttal evidence.

10
Yours very truly,

11
Michael Engelberg
Assistant General Counsel
