Toronto Hydro-Electric System Limited EB-2018-0165 Exhibit 4B Tab 1 Schedule 1 ORIGINAL Page 1 of 6

## **DEPRECIATION AND AMORTIZATION**

2

3 This schedule provides information about Toronto Hydro's depreciation and

4 amortization rates and expenses.

5

## 6 1. BACKGROUND

- 7 Toronto Hydro converted to International Financial Reporting Standards ("IFRS")
- 8 effective January 1, 2015. This application represents Toronto Hydro's second rebasing
- 9 application under Modified IFRS ("MIFRS").
- 10

## 11 **2. FILING REQUIREMENTS**

In accordance with s. 2.4.4 of the OEB's Filing Requirements for Electricity Distribution
 Rate Applications (July 12, 2018), this schedule provides the following information:

- Details regarding depreciation, amortization and depletion by asset group for the
   2015 to 2017 historical years, 2018 to 2019 bridge years and 2020 forecast year;
- A description of Toronto Hydro's depreciation and amortization practices and a
   summary of the changes implemented since the utility's last rebasing
- 18 application;
- An explanation of Toronto Hydro's variance from the "half-year rule" regarding
   the calculation of depreciation expense; and
- Information about the utility's decommissioning provision and any associated
   depreciation or accretion expenses in relation to the decommissioning provision.

## 1 2.1 Depreciation Expense Details

Appendix A to this schedule provides the depreciation expense by Uniform System of
Accounts for the historical (2015 to 2017), bridge (2018 to 2019) and forecast (2020)
years. These amounts are based on MIFRS and include derecognition as described in
Exhibit 4B, Tab 1, Schedule 2.

6

### 7 3. DEPRECIATION AND AMORTIZATION

8 In accordance with the OEB's Accounting Procedures Handbook for Electricity

9 Distributors (the "APH"), Toronto Hydro depreciates and amortizes its assets on a

straight-line basis over the estimated useful lives of the assets. Tables 1 and 2 below

11 provide Toronto Hydro's annual depreciation and amortization rates by asset category

12 for 2015 to 2017 (actual), 2018 and 2019 (bridge) and 2020 (forecast). Toronto Hydro

does not expect any changes to the annual depreciation rates for 2021 to 2024.

14

Toronto Hydro has not made any changes to its depreciation and amortization practices
 or to estimated asset useful lives since its last rebasing application (EB-2014-0116). As a
 result, Appendix 2-BB is not provided.

18

19 As part of its normal course of business, Toronto Hydro has added new asset classes and

20 made minor presentation changes to the grouping of asset categories related to

21 depreciation. These presentation changes are discussed below.

Toronto Hydro-Electric System Limited EB-2018-0165 Exhibit 4B Tab 1 Schedule 1 ORIGINAL Page 3 of 6

| Accet Category                | 2015       | 2016       | 2017       | 2018       | 2019       | 2020       |

| Contributions     | 4.0    | 4.0    | 4.0    | 4.0    | 4.0    | 4.0      |

4

## 5 3.1 Asset Categorization

Toronto Hydro did not make any changes to its depreciation and amortization practices
 since the last rebasing application, outside of the presentation of categories. The rolling

8 stock, equipment and tools, computer hardware and communications depreciation

9 categories which were discussed in the last rebasing application have been rolled into

10 the other capital asset category, with no change to the depreciation rate applied.

11

## 12 **3.2** Variance from Half-Year Rule

13 Toronto Hydro calculates depreciation based on the month that an asset comes into

service, rather than on the basis of the half-year rule, which assumes that all asset

additions are put into service in the middle of the fiscal year. Similarly, Toronto Hydro

| 1  | calculates depreciation associated with assets that are retired, transferred or become         |
|----|--|
| 2  | fully depreciated within a given year based on the month of transaction.                       |
| 3  |  |
| 4  | Depreciation reflects the pattern in which the utility expects to receive the asset's          |
| 5  | future economic benefits over the useful life of the asset. IFRS (IAS 16.55) provides that     |
| 6  | "depreciation of an asset begins when it is available for use, i.e. when it is in the location |
| 7  | and condition necessary for it to be capable of operating in the manner intended by            |
| 8  | management".   |
| 9  |  |
| 10 | In accordance with these accounting principles, Toronto Hydro adopted a monthly                |
| 11 | depreciation methodology for the historical and forecasted years for reasons including         |
| 12 | that it:   |
| 13 | 1) Provides a more accurate reflection of the asset's future economic benefits over            |
| 14 | its useful life; and   |
| 15 | 2) Aligns the calculation of depreciation expense for rate making purposes with                |
| 16 | Toronto Hydro's external financial reporting policies and historical practices.                |
| 17 |  |
| 18 | 4. DECOMMISSIONING PROVISION   |
| 19 | Toronto Hydro recognizes liabilities for the future removal and handling costs for             |
| 20 | contamination in distribution equipment and for the future environmental remediation           |
| 21 | of certain properties (collectively known as "decommissioning provisions") in                  |
| 22 | accordance with Article 410 of the APH. A decommissioning provision is recognized at           |
| 23 | the time that the obligation arises. Initially, Toronto Hydro measures the liability at        |
| 24 | present value and the amount of the liability is added to the carrying amount of the           |
| 25 | related asset. In subsequent periods, the utility depreciates the capitalized amount over      |
| 26 | the useful life of the related asset and the liability is adjusted quarterly for the discount  |

- applied upon initial recognition of the liability ("accretion expense") and for changes in
- 2 the underlying assumptions.
- 3
- 4 Table 3 below sets out Toronto Hydro's historical and forecasted decommissioning costs
- <sup>5</sup> and the related depreciation expense for 2015-2020. Table 4 below shows the
- 6 corresponding decommissioning liability and related accretion expense.

|   | Actual | Actual | Actual | Bridge | Bridge | Forecast |
| Depreciation and<br>Amortization Expense <sup>2</sup> | 166.0  | 179.1  | 192.5  | 210.7  | 228.2  | 242.9    |

3

The year-over-year increases in depreciation and amortization expense are primarily 4 due to Toronto Hydro's in-service asset additions. Depreciation and amortization 5 expense reflected in revenue requirement (Exhibit 6, Tab 1, Schedule 1, Table 1) and 6 Schedule 2-BA result from detailed calculations by asset class as determined through 7 the utility's enterprise financial system for historical amounts, and financial models for 8 forecast. This method incorporates the depreciation and amortization rates presented 9 in Tables 1 and 2 and considers the actual timing of asset additions and removals from 10 service. 11 12 As required, Toronto Hydro provides the OEB's Appendix 2-C in Appendix B to this 13 exhibit but notes that the depreciation and amortization values in Appendix 2-C are 14 based on broad assumptions. As a result, differences in depreciation and amortization 15

values calculated by the financial system and using the formulas in Appendix 2-C are

expected. For example, Appendix 2-C assumes depreciation in the first year, for all

assets placed into service, begins at mid-year while Toronto Hydro depreciates assets

19 from the month they are capitalized. In addition, applying broad depreciation

assumptions to assets with shorter service lives (e.g. IT assets) and significant balances

<sup>21</sup> amplifies the magnitude of the differences in depreciation and amortization.

<sup>&</sup>lt;sup>1</sup> Includes depreciation of the decommissioning costs and excludes derecognition. See Exhibit 4B, Tab 1, Schedule 2 for information about asset derecognition.

<sup>&</sup>lt;sup>2</sup> See Exhibit 4B, Tab 1, Schedule 1, Appendix A for additional information.

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement.

Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

#### Notes:

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies are tube depreciation policies are fully schange in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's change in depreciation policies are fully 1 depreciated

This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions starting in 2012/2013). These assets are to be depreciated at the revised service life. The amount is expected to be equal to the gross book value of the prior year's additions. A recalculation should be performed to determine the average remaining life of opening balance of assets (i.e. excluding current year's additions) under the change in policies under CGAAP. For example, Asset A had a useful life of 17 years (20 years under CGAAP. For example, Asset A had a useful life of 17 years (20 years under CGAAP. For example, Asset A had a useful life of the opening balance of Asset A is determined to be 27 years (30 years less 3 years) under the revised useful life of the opening balance of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years less 3 years) under the revised CGAAP as at January 1 of the year of policy changes. Balance of Asset A is determined to be 27 years (30 years less 3 years) under the revised CGAAP as at January 1 of the year of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting policies as set out in the Accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report.

Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application. The applicant must provide an explanation of material variances in evidence. This should include assets in column a (excel column f) that have become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change. This should include assets in column a (excel column f) that have become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement. Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

Notes:

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies (i.e. as at Jan. 1, 2012 or Jan. 1, 2013). These assets are to be depreciated at the average remaining service life. This amount will not change in years subsequent to the date of the utility's change in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's change in depreciation policies are fully depreciated.

This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions. A recalculation should be performed to determine the average remaining life of opening balance of assets (i.e. additions) under the change in policies under CGAAP. For example, Asset A had a useful life of 20 years under CGAAP. For example, Asset A had a useful life of 20 years under CGAAP. For example, Asset A had a useful life of 20 years under CGAAP. For example, Asset A was 3 years depreciated. As a result, Asset A would have a remaining service life of 17 years (20 years useful vers) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP, management re-assessed the asset useful life of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years (30 years (30 years useful life of Asset A is now 30 years. Therefore, the average remaining useful life of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report. Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application. The applicant must provide an explanation of material variances in evidence.

This should include assets in column a (excel column C) that become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change. This should include assets in column d (excel column C) that become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement. Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

Notes:

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies. This amount will not change in depreciated at the average remaining service life. This amount will not change in years subsequent to the date of the utility's change in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's change in depreciation policies. utility's change in depreciation policies are fully depreciated.

This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions starting in 2012/2013) for those who changed policies Jan. 1, 2012/2013). These assets are to be depreciated at the revised service life. The amount is expected to be equal to the gross book value of the prior year's additions. A recalculation should be performed to determine the average remaining life of opening balance of assets (i.e. excluding current year's additions) under the change in policies under CGAAP. For example, Asset A had a useful life of 20 years under CGAAP without the change in policies under CGAAP. For example, Asset A had a useful life of 17 years (20 years (20 years uses 3 years) bear of policy changes. Due to making the change in policies under CGAAP, management re-assessed the asset useful life of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years less 3 years) under the revised CGAAP as at January 1 of the year of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report.

Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application. The applicant must provide an explanation of material variances in evidence.

This should include assets in column a (excel column C) that become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change. This should include assets in column d (excel column f) that have become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement. Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

Notes:

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's change in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's change in depreciation policies are fully depreciated.

2 This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions starting in 2012/2013). These assets are to be depreciated at the revised service life. The amount is expected to be equal to the gross book value of the prior year's additions. A recalculation should be performed to determine the average remaining life of opening balance of assets (i.e. ackluting current year's additions) under the change in policies under CGAAP. For example, Asset A had a useful life of 10 years under CGAAP without the change in policies. On January 1 of the year of policy changes, Asset A was 3 years depreciated. As a result, Asset A would have a remaining service life of 17 years (20 years less 3 years) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP, management re-assessed the asset useful lives and concluded that the revised useful live of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years less 3 years) under the revised CGAAP as at January 1 of the year of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report.

Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application. The applicant must provide an explanation of material variances in evidence.

This should include assets in column a (excel column f) that have become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change. This should include assets in column a column d) that have become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement. Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

#### Notes:

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies (i.e. as at Jan. 1, 2012). These assets are to be depreciated at the average remaining service life. This amount will not change in depreciation policies (i.e. as at Jan. 1, 2013). These assets that existed as at the date of the utility's change in depreciation policies. 1 policies are fully depreciated.

2 This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions starting in 2012/2013). These assets are to be depreciated at the revised service life. The amount is expected to be equal to the gross book value of the prior year plus the prior year's additions. A recalculation should be performed to determine the average remaining life of opening balance of asset A (i.e. excluding current year's additions) under the change in policies under CGAAP. Without the change in policies under CGAAP without the change in policies. Duranty 1 of the year of policy changes, Asset A was 3 eprint additions) under the average remaining service life of 17 years (20 years less 3 years) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP is in our 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is a policy changes. Due to making the change in policies under CGAAP is a result. Asset A would have a remaining service life of 17 years (20 years less 3 years) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP is a result. Asset A would have a remaining service life of 17 years (20 years less 3 years) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP is a result. Asset A would have a remaining service life of 17 years (20 years less 3 years) under the revised Useful life of the opening balance of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is a years) under the revised CGAAP as at January 1 of the year of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting policies as set out in the Accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report. 4

Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application

The applicant must provide an explanation of material variances in evidence.

This should include assets in column a (excel column C) that become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change

8 This should include assets in column d (excel column f) that have become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset Toronto Hydro-Electric System Limited EB-2018-0165 Exhibit 4B Tab 1 Schedule 1 Appendix B ORIGINAL Page 5 of 6

#### This appendix is to be completed in conjunction with the accounting instructions in Appendix 2-B

General: Applicants are to complete this appendix to show the reasonability of the depreciation expense that is included in rate base via. Accumulated depreciation and the revenue requirement.

Applicants must provide a breakdown of depreciation and amortization expense in the above format for all relevant accounts. Balances presented in the table should exclude asset retirement obligations (AROs) and the related depreciation and accretion expense. These should be disclosed separately consistent with the Notes of historical Audited Financial Statements.

This is the net book value of assets that existed as at the date of the utility's change in depreciation policies (i.e. as at Jan. 1, 2012). These assets are to be depreciated at the average remaining service life. This amount will not change in depreciation policies. This column is expected to be used until the assets that existed as at the date of the utility's 1 change in depreciation policies are fully depreciated.

This is the opening gross book value of assets that have been acquired after the date of the utilities change in depreciation policies (i.e. additions. A recalculation should be performed to determine the average remaining life of opening balance of assets (i.e. excluding current year's additions) under the change in policies under CGAAP. For example, Asset A had a useful life of 20 years under CGAAP without the change in policies. On January 1 of the year of policy changes, Asset A was 3 years depreciated. As a result, Asset A would have a remaining service life of 20 years under CGAAP without the change in policies. On January 1 of the year of policy changes, Asset A was 3 years depreciated. As a result, Asset A would have a remaining service life of 17 years (20 years less 3 years) as at January 1 of the year of policy changes. Due to making the change in policies under CGAAP, management re-assessed the asset useful life of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years (30 years less 3 years) under the revised useful life of Asset A is now 30 years. Therefore, the average remaining useful life of the opening balance of Asset A is determined to be 27 years (30 years (30 years (30 years) under the revised CGAAP as at 2 January 1 of the year of policy changes.

The useful life used should be consistent with the OEB's regulatory accounting policies as set out in the Accounting Procedures Handbook for Electricity Distributors, effective Jan. 1, 2012 and also with the Report of the Board, Transition to International Financial Reporting Standards, EB-2008-0408, and the Kinectrics Report.

Board policy of the "half-year" rule - the applicant must ensure that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application. The applicant must provide an explanation of material variances in evidence. 5

This should include assets in column a (excel column f) that have become fully depreciated since the date of the policy change. The amount input in b (excel column D) should equal the net book value of the asset as at the date of depreciation policy change. This should include assets in column a (excel column f) that have become fully depreciated. The amount input in e (excel column G) should equal the gross book value of the asset

Toronto Hydro-Electric System Limited EB-2018-0165 Exhibit 4B Tab 1 Schedule 1 Appendix B ORIGINAL Page 6 of 6

Notes:

## **DERECOGNITION OF ASSETS**

2

## 3 1. BACKGROUND

- 4 Upon implementation of Modified International Financial Reporting Standards
- 5 ("MIFRS"), Article 410 of the Ontario Energy Board's ("OEB") Accounting Procedures
- 6 Handbook for Electricity Distributors requires property, plant and equipment ("PP&E")
- 7 and intangible assets to be derecognized upon disposal or when their use is no longer
- 8 expected to offer future economic benefits. The gain or loss arising from the
- 9 derecognition of PP&E and intangible assets is calculated as the difference between the
- net disposal proceeds (if any) and the carrying amount of the item. The gain or loss
- arising from derecognition of an item is included in the utility's profit or loss during the
- 12 period in which the item is derecognized.
- 13

## 14 **2. DERECOGNTION**

Table 1 below summarizes Toronto Hydro's 2015 to 2017 historical and 2018 to 2020 forecasted derecognition. The forecast is informed by the utility's capital expenditure proposals as outlined in its Distribution System Plan (Exhibit 2B, Section E), and calculated on the basis of the net book values associated with assets that the utility expects to remove from service as part of its planned capital program.

20

## Table 1: Derecognition 2015 to 2020 (\$ Millions)

|               | 2015   | 2016   | 2017   | 2018   | 2019   | 2020     |
|---------------|--------|--------|--------|--------|--------|----------|
|               | Actual | Actual | Actual | Bridge | Bridge | Forecast |
| Derecognition | 24.1   | 27.0   | 24.5   | 20.8   | 20.1   | 25.8     |

22

As discussed in its last rebasing application (EB-2014-0116) and as experienced in the

24 historical periods, Toronto Hydro expects significant and ongoing volatility in

2019 Bridge

32.6

20.1

(12.5)

20.8

(8.6)

| 1 | derecognition over the 2020-2024 period – year-over-year and plan-to-actual – due to     |
|---|--|
| 2 | the dynamic nature of its capital program and operating environment (see Table 2).       |
| 3 | Toronto Hydro's distribution system is comprised of assets which have a broad range of   |
| 4 | asset ages. Volatility in forecasted derecognition results from variations in the actual |
| 5 | assets removed from service as compared to plan which may be caused by operational       |
| 6 | constraints and other factors as field work is planned and executed.                     |
| 7 |  |
| 8 | As a result of this volatility, Toronto Hydro is requesting a continuation of the        |

- derecognition variance account which tracks the annual differences between actual and 9 forecasted derecognition (see Exhibit 9, Tab 1, Schedule 1).
- 11

14

The variances from OEB-approved derecognition amounts result from differences in 15

planned versus actual assets removed from service, as described above. 16

17

Furthermore, the OEB-approved amounts in Table 2 are the same as forecasted in the 18

2015-2019 CIR application. Following the OEB's decision to Toronto Hydro's last 19

- rebasing application, changes to derecognition forecasts were not made as a 20
- derecognition variance account was approved (see Exhibit 9, Tab 1, Schedule 1). 21

<sup>&</sup>lt;sup>1</sup> See Exhibit 4B, Tab 1, Schedule 1, Appendix A for additional information.

| 1  | CORPORATE TAXES (PILS)   |
|----|--|
| 2  |  |
| 3  | 1. INTRODUCTION  |
| 4  | The Revenue Requirement filed at Exhibit 6, Tab 1, Schedule 1 of this application reflects |
| 5  | amounts for Payments in Lieu of Taxes ("PILs") of \$34.7 million (excluding investment     |
| 6  | tax credits of \$1.9 million reallocated to OM&A), for the 2020 Test Year. The 2020 PILs   |
| 7  | tax models are filed at Exhibit 4B, Tab 2, Schedule 2.                                     |
| 8  |  |
| 9  | Toronto Hydro used the OEB's PILs model for 2019 filers to prepare the 2020 PILs tax       |
| 10 | models. Other than the changes described below, no other changes to the OEB's PILs         |
| 11 | tax models have been made:   |

| 20 | Grossed-up PILS after tax credits reclass to OM&A".  |
| 21 | • Tab "B. Tax Rates & Exemptions": tax rates are updated for Toronto Hydro                 |
| 22 | effective January 1, 2015 to January 1, 2020.  |
| 23 | • Tabs "B0 PILs, Tax Provision Bridge" and "T0 PILs, Tax Provision" for bridge and         |
| 24 | test years: added adjustment for tax credits included in OM&A. The following               |
| 25 | lines have been added:   |

| 1  | 0              | "Corporate PILs/Income Tax Provision Gross Up" (only for Tab "B0 PILs,         |
|----|----------------|--|
| 2  |                | Tax Provision Bridge")   |
| 3  | 0              | "Income Tax (grossed up) before tax credits reclass to OM&A"                   |
| 4  | 0              | "Tax credits reclass to OM&A", and   |
| 5  | 0              | "Income Tax (grossed-up) after tax credits reclass to OM&A" (only for Tab      |
| 6  |                | "BO PILs, Tax Provision Bridge").  |
| 7  | 0              | Description for "Income Tax (grossed-up)" changed to "Income Tax               |
| 8  |                | (grossed-up) after tax credits reclass to OM&A (only for Tab "T0 PILs, Tax     |
| 9  |                | Provision")  |
| 10 | 0              | Formula referencing is updated accordingly.                                    |
| 11 |                |  |
| 12 | 2. PRUDENT I   | MANAGEMENT OF PILS/TAXES   |
| 13 | The amount o   | f PILs paid by Toronto Hydro in any given year is correlated with net          |
| 14 | income calcul  | ated for tax purposes. Toronto Hydro manages its tax costs diligently in an    |
| 15 | effort to keep | the effective rate of tax as low as possible. Where appropriate, Toronto       |
| 16 | Hydro takes a  | dvantage of available tax deductions and tax credits, such as research and     |
| 17 | development    | tax credits to minimize its tax burden.  |
| 18 |                |  |
| 19 | 3. METHODO     | LOGY   |
| 20 | The methodol   | logy for calculating PILs is consistent with the principles set out in Chapter |
| 21 | 2 of the OEB's | Filing Requirements for Electricity Distribution Rate Applications (July 12,   |
| 22 | 2018), and ref | flects applicable legislative and regulatory changes, such as changes to       |
| 23 | corporate tax  | rates and capital cost allowance rates. Toronto Hydro confirms that non-       |
| 24 | recoverable e  | xpenses and expenses disallowed for regulatory purposes have been              |
|    |                |  |

excluded from the regulatory tax calculation.

## 1 4. DISCLOSURE OF PILS TAX ADMINISTRATION AND TAX RULINGS

- 2 Toronto Hydro has not received any specific tax rulings that are inconsistent with
- 3 Toronto Hydro's previously filed and approved tax model.
- 4

## 5 5. TAX STATUS

6 Toronto Hydro has not changed its tax status.

7

## 8 6. TAX REASSESSMENTS

- 9 The Ministry of Finance has recently completed its review of Toronto Hydro's 2013 PILs
- 10 return. The PILs amount computed reflects methodologies approved by the Ministry of
- 11 Finance through its audits.
- 12

# 13 7. TAX TREATMENT OF DIVIDENDS PAID IN PRIOR YEARS

- 14 Dividends paid in the historical years were treated as payments out of tax paid retained
- earnings and therefore were not treated as deductible for tax purposes.

16

# 17 8. LOSS CARRY-FORWARDS

18 Toronto Hydro does not have any non-capital or capital loss carry-forwards as of the end

of December 2017, and does not expect to have such loss carry-forwards as of the end

of December 2024.

21

# 22 9. CAPITAL COST ALLOWANCE ("CCA")

<sup>23</sup> Toronto Hydro is filing this application on a forward test year basis and therefore, CCA is

computed for 2020 based on projections of the change in capital assets from the 2016

- historical year. A separate schedule is prepared to compute the projected CCA for 2019
- to derive the projected undepreciated capital cost balances at January 1, 2020 (Exhibit

1 4B, Tab 2, Schedule 2). Maximum CCA is therefore claimed in the 2020 test year. Any

- 2 projected additions are subject to the half-year rule in the year of acquisition.
- 3

# 4 **10. INTEREST DEDUCTION**

5 Actual interest expense is lower than the deemed interest expense calculated based on

6 the 2020 model, as filed at Exhibit 4B, Tab 2, Schedule 2. Therefore, the difference

7 between actual and deemed interest expense has not been deducted in calculating

8 taxable income in the tax models for that year.

9

## 10 **11. CAPITALIZED INTEREST**

11 Interest is not capitalized to construction work in progress ("CWIP") for tax purposes.

12 However, interest is capitalized for accounting purposes in the 2020 projection.

13

# 14 **12.** NON-DISTRIBUTION ELIMINATION

- Toronto Hydro has included only income from the rate-regulated business in thisapplication.
- 17

# 18 **13. TAX CREDITS**

19 Toronto Hydro expects that the level of expenditures qualifying for Scientific Research

and Experimental Development ("SRED") in 2020 will be similar to expenditures in 2016.

- 21 Federal investment tax credits arising from expenditures on qualifying SRED projects
- carried on by Toronto Hydro in 2011 decreased from \$2.6 million to \$1.5 million in 2016.
- 23 This is a result of the 2012 Federal Budget (Bill C-45) which reduced the SRED
- 24 investment tax credit rate from 20 percent to 15 percent for taxation years ending after
- 25 2013. Reductions in the overhead proxy rate and eligible expenditures to contractors

| 1  | were also implemented as part of this Bill. Toronto Hydro has used the latest filed          |
|----|--|
| 2  | historical SRED credit in 2016 as the basis for deriving the 2020 credit (\$1.5 million).    |
| 3  | Toronto Hydro has also included the Federal Apprenticeship Job Creation Tax Credit, the      |
| 4  | Ontario Apprenticeship Training Tax Credit and the Ontario Co-Operative Education Tax        |
| 5  | Credit in its PILs-related revenue requirement. A projected tax credit of \$1.3 million,     |
| 6  | based on the average benefit of 2014 through 2016 claims, has been included in the           |
| 7  | 2020 tax models.   |
| 8  |  |
| 9  | 14. CAPITAL LEASES   |
| 10 | Appropriate adjustments have been made in determining taxable income in the 2020             |
| 11 | tax model with respect to leases capitalized for accounting purposes.                        |
| 12 |  |
| 13 | 15. INTEGRITY CHECKS   |
| 14 | The following integrity checks have been completed in respect of the PILs model:             |
| 15 | Depreciation and amortization added back agrees with the numbers disclosed in                |
| 16 | the rate base section of the application;  |
| 17 | • Capital additions and deductions agree with the rate base section for historical,          |
| 18 | bridge and test years;   |
| 19 | • Schedule 8 of the most recent tax return filed with the application has a closing          |
| 20 | December 31 historic year undepreciated capital cost ("UCC") that agrees with                |
| 21 | the opening bridge year UCC at January 1. A reconciliation has been provided to              |
| 22 | remove the non-distribution amounts in Exhibit 4B, Tab 2, Schedule 2;                        |
| 23 | • The CCA deductions in the application's PILs tax model for historical, bridge and          |
| 24 | test years agree with the numbers in Schedule 8;   |
| 25 | <ul> <li>Accounting other post-employment benefits and pension amounts added back</li> </ul> |
| 26 | on Schedule 1;   |
|    |  |

| 1 | • | Reconciliation of accounting income to net income for tax purposes agrees with |
|---|---|--|
| 2 |   | the OM&A analysis for compensation and is reasonable when compared with the    |
| 3 |   | notes to the audited financial statements and the actuarial valuations; and    |
| 4 | • | The income tax rate used to calculate the tax expense is consistent with the   |
| 5 |   | current legislated rate.   |
| 6 |   |  |

- 7 16. TAX PAYABLE FILINGS
- 8 Details of actual taxes paid by Toronto Hydro from 2014 to 2016, as well as the
- 9 forecasted taxes to be paid for 2017 and 2018, are outlined in the table below.
- 10 Explanations of the variances for the forecast years are also provided. The tax return
- 11 copy for the historical year 2016 is provided in Exhibit 4B, Tab 2, Schedule 3.<sup>1</sup>
- 12

## 13 Table 1: Summary of PILs by Year (\$ Millions)

|              | 2014   | 2015   | 2016   | 2017     | 2018     | 2019   | 2020 |
|--------------|--------|--------|--------|----------|----------|--------|------|
|              | Actual | Actual | Actual | Forecast | Forecast | Bridge | Test |
| Income Taxes | 10.5   | 3.2    | 18.8   | 29.4     | 30.8     | 20.4   | 34.7 |

14

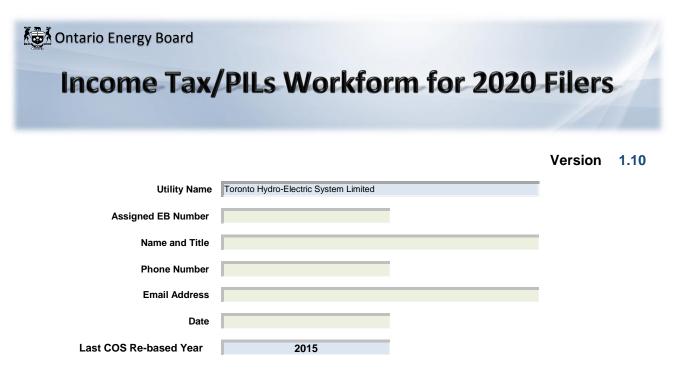

15 The decrease/increase in PILs from year to year is mainly due to the change in net

- <sup>16</sup> income before tax and the differences between tax and accounting treatments of
- various costs. These differences primarily stem from the variance between capital cost
- allowance and accounting depreciation, other post-employment benefit adjustments,
- 19 investment tax credits and other costs.

<sup>&</sup>lt;sup>1</sup> Toronto Hydro has provided its tax return for 2016, the latest completed tax return available at the time the application was being prepared.

## 1 17. PROPERTY TAX

- 2 Property taxes are discussed in the Facilities Management program (Exhibit 4A, Tab 2,
- 3 Schedule 12).

Note: Drop-down lists are shaded blue; Input cells are shaded green.

#### Integrity Checks

The applicant must ensure the following integrity checks have been completed and confirm this is the case in the table below, or provide an explanation if this is not the case:

|   |  | Utility<br>Confirmation<br>(Y/N) | Notes   |
|---|--|----------------------------------|---|
|   | The depreciation and amortization added back in the application's PILs model agree with the numbers disclosed in the rate base section of the application  | Y                                |   |
| 2 | The capital additions and deductions in the UCC/ CCA Schedule 8 agree with the rate base section for historical, bridge and test years   | Y                                |   |
|   | Schedule 8 of the most recent federal T2 tax return filed with the application has a closing December 31 historical year UCC that agrees with the opening (January 1) bridge year UCC. If the amounts do not agree, then the applicant must provide a reconciliation with explanations. Distributors must segregate non- distribution tax amounts on Schedule 8. | Y                                |   |
|   | The CCA deductions in the application's PILs tax model for historical, bridge and test years (as applicable) agree with the numbers in the UCC schedules for the same years filed in the application   | Y                                |   |
| 5 | Loss carry-forwards, if any, from the tax returns (Schedule 4) agree with those disclosed in the application   | N                                | Toronto Hydro does not have any non-capital or capital loss carry-forwards as of the end of December 2017, and does not expect to have such loss carry-forwards as of the end of December 2024 (Exhibit 4B, Tab 2, Schedule 1). |
| 6 | A discussion is included in the application as to when the loss carry-forwards, if any, will be fully utilized   | N                                | Toronto Hydro does not have any non-capital or capital loss carry-forwards as of the end of December 2017, and does not expect to have such loss carry-forwards as of the end of December 2024 (Exhibit 4B, Tab 2, Schedule 1). |
| 7 | CCA is maximized even if there are tax loss carry-forwards   | N                                | Toronto Hydro does not have any non-capital or capital loss carry-forwards as of the end of December 2017, and does not expect to have such loss carry-forwards as of the end of December 2024 (Exhibit 4B, Tab 2, Schedule 1). |
|   | Accounting OPEB and pension amounts added back on Schedule 1 to reconcile accounting income to net income for tax purposes, must agree with the OM&A analysis for compensation. The amounts deducted must be reasonable when compared with the notes in the audited financial statements, FSCO reports, and the actuarial valuations.                            | Y                                |   |
| 9 | The income tax rate used to calculate the tax expense must be consistent with the utility's actual tax facts and evidence filed in the application.  | Y                                |   |

 Notes

 1. The Ontario Energy Board's proxy for taxable capital is rate base.

 2. Regarding the small business deduction, if applicable,

 a. If taxable capital exceeds \$15 million, the small business rate will not be applicable.

b. If taxable capital is below \$10 million, the small business rate would be applicable.
c. If taxable capital is between \$10 million and \$15 million, the appropriate small business rate will be calculated.

### **T2** Corporation Income Tax Return

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

All legislative references on this return are to the federal *Income Tax Act* and *Income Tax Regulations*. This return may contain changes that had not yet become law at the time of publication.

Send one completed copy of this return, including schedules and the *General Index of Financial Information* (GIFI), to your tax centre or tax services office. You have to file the return within six months after the end of the corporation's tax year.

For more information see <u>cra.gc.ca</u> or Guide T4012, *T2 Corporation - Income Tax Guide*.

### **Charitable Donations and Gifts**

| Corporation's name                    | Business number | Tax year-end<br>Year Month Day |  |
|---------------------------------------|-----------------|--------------------------------|--|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |  |

- For use by corporations to claim any of the following:
  - the eligible amount of charitable donations to qualified donees;
  - the Ontario community food program donation tax credit for farmers;
  - the eligible amount of gifts of certified cultural property;
  - $-\,{\rm the}\,{\rm eligible}\,{\rm amount}\,{\rm of}\,{\rm gifts}\,{\rm of}\,{\rm certified}\,{\rm ecologically}\,{\rm sensitive}\,{\rm land};{\rm or}$
  - the additional deduction for gifts of medicine.
- All legislative references are to the federal Income Tax Act, unless otherwise specified.
- The eligible amount of a gift is the amount by which the fair market value of the gifted property exceeds the amount of an advantage, if any, for the gift.
- The donations and gifts are eligible for a 5-year carryforward except for gifts of certified ecologically sensitive land made after February 10, 2014, which are eligible for a 10-year carryforward.
- Use this schedule to show a transfer of unused amounts from previous years following an amalgamation or the wind-up of a subsidiary as described under subsections 87(1) and 88(1) of the federal Act.
- Subsection 110.1(1.2) of the federal Act provides as follows:
  - Where a particular corporation has undergone an acquisition of control, for tax years that end on or after the acquisition of control, no corporation can claim a deduction for a gift made by the particular corporation to a qualified donee before the acquisition of control.
  - If a particular corporation makes a gift to a qualified donee pursuant to an arrangement under which both the gift and the acquisition of control is
    expected, no corporation can claim a deduction for the gift unless the person acquiring control of the particular corporation is the qualified donee.
- An eligible medical gift to a qualifying organization for activities outside of Canada may be eligible for an additional deduction. Calculate the additional deduction in Part 5.
- File one completed copy of this schedule with your T2 Corporation Income Tax Return.
- For more information, see the T2 Corporation Income Tax Guide.

### **Tax Calculation Supplementary – Corporations**

#### Corporation's name

TORONTO HYDRO-ELECTRIC SYSTEM LIMITED

• Use this schedule if, during the tax year, the corporation:

- had a permanent establishment in more than one jurisdiction

(corporations that have no taxable income should only complete columns A, B and D in Part 1);

- is claiming provincial or territorial tax credits or rebates (see Part 2); or

- has to pay taxes, other than income tax, for Newfoundland and Labrador, or Ontario (see Part 2).

- All legislative references mentioned in this schedule are from the Income Tax Regulations.
- For more information, see the T2 Corporation Income Tax Guide.

• Enter the regulation number in field 100 of Part 1.

## - Part 1 – Allocation of taxable income

\* "Permanent establishment" is defined in subsection 400(2).

\*\* For corporations other than those described under section 402, use the appropriate calculation described in the Regulations to allocate taxable income.

#### Notes:

1. After determining the allocation of taxable income, you have to calculate the corporation's provincial or territorial tax payable. For more information on how to calculate the tax for each province or territory, see the instructions for Schedule 5 in the *T2 Corporation – Income Tax Guide*.

2. If the corporation has provincial or territorial tax payable, complete Part 2.

3. If the corporation is a member of a partnership and the partnership had a permanent establishment in a jurisdiction, select the

jurisdiction in Column A and include your proportionate share of the partnership's salaries and wages and gross revenue in columns B and D, respectively.

| Part 3 – Specified partnership income (continued)   |
|---|
| * As a result of the tabling of Bill C-29, A second Act to implement certain provisions of the budget tabled in Parliament on March 22, 2016 and other  |
| <i>measures</i> , on October 25, 2016, modifications have been made to the calculations of the specified partnership's income. For more information, consult the Help (F1).   |
| <ul> <li>** In general, amounts included under subsections 34.2(2), (3), and (12) or claimed under subsections 34.2(4) and (11) are deemed to have the same character and be in the same proportions as the partnership income they relate to. For example, if a corporation receives \$100,000 of partnership income for the partnership's fiscal period ending in its tax year, and that income is made up of \$40,000 of active business income, \$30,000 of income from property, and \$30,000 as a taxable capital gain, the corporation's adjusted stub period accrual (ASPA) in respect of the partnership would be 40% active business income, 30% property income, and 30% taxable capital gains. Add or deduct only the portion of the following amounts that is deemed under subsection 34.2(5) to be active business income:</li> </ul> |
| Add:  |
| <ul> <li>the ASPA under subsection 34.2(2) (column 4 of Schedule 73)</li> </ul>   |
| - the income inclusion for a new corporate member of a partnership under subsection 34.2(3) (column 6 of Schedule 73)   |
| - the previous-year transitional reserve under subsection 34.2(12) (column 12 of Schedule 73)   |
| Deduct:   |
| <ul> <li>the previous-year ASPA under subsection 34.2(4) (column 5 of Schedule 73)</li> </ul>   |
| - the previous-year income inclusion for a new corporate member of a partnership under subsection 34.2(4) (column 7 of Schedule 73)   |
| - the current-year transitional reserve under subsection 34.2(11) (column 11 of Schedule 73)  |
| *** When the corporation is a member of the partnership, Column G is equal to the result of the following equation: (column C ÷ column B) x (\$500,000 x (column F ÷ 365)) - column E2. If the total in column C is negative, enter "0."  |
| When a partnership carries on more than one business, one of which generates income and another of which realizes a loss, the loss is not netted against the partnership's income for the purpose of calculating the prorated business limit in column G. Enter on line h the total of all loss from column E.  |
| When the corporation is a designated member of the partnership, Column G is equal to the amount in column E1.   |
| Part 4 – Partnership income not eligible for the small business deduction   |
| Corporation's share of partnership income from active businesses carried on in Canada after deducting related   |
| expenses – from line 350 in Part 3 (if the net amount is negative, enter "0" on line U)   |
| Specified partnership loss (from amount h in Part 3)  |
| Subtotal (amount Q plus amount R)   |

|   |  |  | Total A  | Total B   |

<sup>t</sup> This amount is [as defined in subsection 125(7) **specified corporate income** (a)(i)] the total of all amounts each of which is income from an active business of the corporation for the year from the provision of services or property to a private corporation (directly or indirectly, in any manner whatever) if

(A) at any time in the year, the corporation (or one of its shareholders) or a person who does not deal at arm's length with the corporation (or one of its shareholders) holds a direct or indirect interest in the private corporation, and

(B) it is not the case that all or substantially all of the corporation's income for the year from an active business is from the provision of services or property to

(I) persons (other than the private corporation) with which the corporation deals at arm's length, or

(II) partnerships with which the corporation deals at arm's length, other than a partnership in which a person that does not deal at arm's length with the corporation holds a direct or indirect interest.

The amount of business limit assigned in column 4 cannot be more than column 3.

# **Capital Cost Allowance (CCA)**

- **Note:** Class numbers followed by a letter indicate the basic rate of the class taking into account the additional deduction allowed. Class 1a: 4% + 6% = 10% (class 1 to 10%), class 1b: 4% + 2% = 6% (class 1 to 6%).
  - Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule, see *Regulation* 1100(2) and (2.2).
  - \*\* Enter in column 4, "Adjustments and transfers", amounts that increase or reduce the undepreciated capital cost. Items that **increase** the undepreciated capital cost include amounts transferred under section 85, or transferred on amalgamation or winding-up of a subsidiary. Items that **reduce** the undepreciated capital cost include government assistance received or entitled to be received in the year, or a reduction of capital cost after the application of section 80. See the *T2 Corporation Income Tax Guide* for other examples of adjustments and transfers to include in column 4.
  - \*\*\* The net cost of acquisitions is the cost of acquisitions (column 3) **plus** or **minus** certain adjustments and transfers from column 4. For information on the exceptions to the 50% rule, as well as how to calculate the amounts to enter in column 6 in those cases, see Interpretation Bulletin IT-285, *Capital Cost Allowance - General Comments*.
  - \*\*\*\* Enter a rate only if you are using the declining balance method. For any other method (for example the straight-line method, where calculations are always based on the cost of acquisitions), enter N/A. Then enter the amount you are claiming in column 11.
- \*\*\*\*\* For every entry in column 9, the "Recapture of capital cost allowance" there must be a corresponding entry in column 5, "Proceeds of dispositions during the year". The recapture and terminal loss rules do not apply to passenger vehicles in Class 10.1.
- \*\*\*\*\*\* If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See the T2 Corporation Income Tax Guide for more information.

# The total opening balance plus the total transfers should be entered on line 414 of Schedule 1 as a deduction. The total closing balance should be entered on line 126 of Schedule 1 as an addition.

CORPORATE TAXPREP / TAXPREP DES SOCIÉTÉS - EP26 VERSION 2016 V2.0

Agence du revenu du Canada

## Schedule 23

# Agreement Among Associated Canadian-Controlled Private Corporations to Allocate the Business Limit

- · For use by a Canadian-controlled private corporation (CCPC) to identify all associated corporations and to assign a percentage for each associated corporation. This percentage will be used to allocate the business limit for purposes of the small business deduction. Information from this schedule will also be used to determine the date the balance of tax is due and to calculate the reduction to the business limit.
- An associated CCPC that has more than one tax year ending in a calendar year, is required to file an agreement for each tax year ending in that calendar year.
  - Column 1: Enter the legal name of each of the corporations in the associated group. Include non-CCPCs and CCPCs that have filed an election under subsection 256(2) of the Income Tax Act not to be associated for purposes of the small business deduction.
- Column 2: Provide the business number for each corporation (if a corporation is not registered, enter "NR").
- **Column 3:** Enter the association code from the list below that applies to each corporation:
  - 1 Associated for purposes of allocating the business limit (unless code 5 applies)
  - 2 CCPC that is a "third corporation" that has elected under subsection 256(2) not to be associated for purposes of the small business deduction
  - 3 Non-CCPC that is a "third corporation" as defined in subsection 256(2)
  - 4 Associated non-CCPC
  - 5 Associated CCPC to which code 1 does not apply because of a subsection 256(2) election made by a "third corporation"
- **Column 4:** Enter the business limit for the year of each corporation in the associated group.
- Column 5: Assign a percentage to allocate the business limit to each corporation that has an association code 1 in column 3. The total of all percentages in column 5 cannot exceed 100%.
- Column 6: Enter the business limit allocated to each corporation by multiplying the amount in column 4 by the percentage in column 5. Add all business limits allocated in column 6 and enter the total at line A. Ensure that the total at line A does not exceed \$500.000.

### Allocating the business limit

#### Business limit reduction under subsection 125(5.1) of the Act

The business limit reduction is calculated in the small business deduction area of the T2 return. One of the factors used in this calculation is the "large corporation amount" at line 415 of the T2 return. The amount at line 415 is determined using the formula 0.225% x (D - \$10,000,000). Details of this formula and variable D are in subsection 125(5.1) of the Act.

\* Each corporation will enter on line 410 of the T2 return, the amount allocated to it in column 6. However, if the corporation's tax year is less than 51 weeks, prorate the amount in column 6 by the number of days in the tax year divided by 365, and enter the result on line 410 of the T2 return.

#### Special rules for business limit

Special rules apply under subsection 125(5) if a CCPC has more than one tax year ending in the same calendar year and it is associated in more than one of those tax years with another CCPC that has a tax year ending in that calendar year. The business limit for the second or later tax year will be equal to the business limit determined for the first tax year ending in the calendar year or the business limit determined for the second or later tax year ending in the same calendar year, whichever is less.

Canadä

Schedule 31

Canada Revenue Agence du revenu Agency du Canada

# **Investment Tax Credit – Corporations**

### -General information

- Use this schedule:
  - to calculate an investment tax credit (ITC) earned during the tax year;
  - to claim a deduction against Part I tax payable;
  - to claim a refund of credit earned during the current tax year;
  - to claim a carryforward of credit from previous tax years;
  - to transfer a credit following an amalgamation or wind-up of a subsidiary, as described under subsections 87(1) and 88(1);
  - to request a credit carryback to one or more previous years; or
  - if you are subject to a recapture of ITC.
- Unless otherwise noted, all legislative references are to the Income Tax Act and the Income Tax Regulations.
- The ITC is eligible for a three-year carryback (if not deductible in the year earned). It is also eligible for a twenty-year carryforward.
- Investments or expenditures, described in subsection 127(9) and Regulation Part XLVI, that earn an ITC are:
  - qualified property and qualified resource property (Parts 4 to 7 of this schedule);
  - expenditures that are part of the scientific research and experimental development (SR&ED) qualified expenditure pool (Parts 8 to 17). File Form T661, Scientific Research and Experimental Development (SR&ED) Expenditures Claim;
  - pre-production mining expenditures (Parts 18 to 20);
  - apprenticeship job creation expenditures (Parts 21 to 23); and
  - child care spaces expenditures (Parts 24 to 28).
- Include a completed copy of this schedule with the T2 Corporation Income Tax Return. If you need more space, attach additional schedules.
- For more information on ITCs, see "Investment Tax Credit" in Guide T4012, T2 Corporation Income Tax Guide, Information Circular IC78-4, Investment Tax Credit Rates, and its related Special Release.
- For more information on SR&ED, see T4088, Guide to Form T661 Scientific Research and Experimental Development (SR&ED) Expenditures Claim. Also see the Eligibility of Work for SR&ED Investment Tax Credits Policy at cra.gc.ca/txcrdt/sred-rsde/clmng/lgbltywrkfrsrdnvstmnttxcrdts-eng.html.

#### - Detailed information

- For the purpose of this schedule, **investment** means the capital cost of the property (excluding amounts added by an election under section 21), determined without reference to subsections 13(7.1) and 13(7.4), minus the amount of any government or non-government assistance that the corporation has received, is entitled to receive, or can reasonably be expected to receive for that property when it files the income tax return for the year in which the property was acquired.
- An ITC deducted or refunded in a tax year for a depreciable property, other than a depreciable property deductible under paragraph 37(1)(b), reduces both
  the capital cost of that property and the undepreciated capital cost of that class in the next tax year. An ITC for SR&ED deducted or refunded in a tax year
  will reduce the balance in the pool of deductible SR&ED expenditures and the adjusted cost base (ACB) of an interest in a partnership in the next tax year.
  An ITC from pre-production mining expenditures deducted in a tax year reduces the balance in the pool of deductible cumulative Canadian exploration
  expenses in the next tax year.
- Property acquired has to be available for use before a claim for an ITC can be made. See subsections 127(11.2) and 248(19) for more information.
- Expenditures for SR&ED and capital costs for a property qualifying for an ITC must be identified by the claimant on Form T661 and Schedule 31 no later than 12 months after the claimant's income tax return is due for the tax year in which it incurred the expenditures or capital costs.
- Expenditures for pre-production mining, apprenticeship, or child care space for an ITC must be identified by the claimant on Schedule 31 no later than 12 months after the claimant's income tax return is due for the tax year in which it incurred the expenditures or capital costs.
- Partnership allocations Subsection 127(8) provides for the allocation of the amount that may reasonably be considered to be a partner's share of the
  ITCs of the partnership at the end of the fiscal period of the partnership. An allocation of ITCs is generally considered to be the partner's reasonable
  share of the ITCs if it is made in the same proportion in which the partners have agreed to share any income or loss and if section 103 is not
  applicable for the agreement to share any income or loss. Special rules apply to specified and limited partners. For more information, see
  Guide T4068, Guide for the Partnership Information Return.
- For SR&ED expenditures, the expression in Canada includes the "exclusive economic zone" (as defined in the Oceans Act to generally consist of an area that is within 200 nautical miles from the Canadian coastline), including the airspace, seabed and subsoil for that zone.
- For the purpose of this schedule, the expression Atlantic Canada includes the Gaspé Peninsula and the provinces of Newfoundland and Labrador, Prince Edward Island, Nova Scotia, and New Brunswick, as well as their respective offshore regions (prescribed in Regulation 4609).
- For the purpose of this schedule, **qualified property** means property in Atlantic Canada that is used primarily for manufacturing and processing, farming or fishing, logging, storing grain, or harvesting peat. Property in Atlantic Canada that is used primarily for oil and gas, and mining activities is considered qualified property only if acquired by the taxpayer **before** March 29, 2012. Qualified property includes new buildings and new machinery and equipment (prescribed in Regulation 4600), and if acquired by the taxpayer **after** March 28, 2012, new energy generation and conservation property (prescribed in Regulation 4600). Qualified property can also be used primarily to produce or process electrical energy or steam in a prescribed area (as described in Regulation 4610). See the definition of **qualified property** in subsection 127(9) for more information.

#### Detailed information (continued) -

- For the purpose of this schedule, **qualified resource property** means property in Atlantic Canada that is used primarily for oil and gas, and mining activities, if acquired by the taxpayer **after** March 28, 2012, and **before** January 1, 2016. Qualified resource property includes new buildings and new machinery and equipment (prescribed in Regulation 4600). See the definition of **qualified resource property** in subsection 127(9) for more information.
- For the purpose of this schedule, **pre-production mining exploration expenditures** are pre-production mining expenditures incurred **after** March 28, 2012, by the taxpayer to determine the existence, location, extent, or quality of certain mineral resources in Canada, excluding expenses incurred in the exploration of an oil or gas well. See subparagraph (a)(i) of the definition of **pre-production mining expenditure** in subsection 127(9) for more information.
- For the purpose of this schedule, **pre-production mining development expenditures** are pre-production mining expenditures incurred **after** March 28, 2012, by the taxpayer to bring a new mineral resource mine in Canada into production, excluding expenses in the development of a bituminous sands deposit or an oil shale deposit. See subparagraph (a)(ii) of the definition of **pre-production mining expenditure** in subsection 127(9) for more information.

#### – Part 1 – Investments, expenditures, and percentages – Specified Investments percentage 10 % Qualified property acquired primarily for use in Atlantic Canada Qualified resource property acquired primarily for use in Atlantic Canada and acquired: - after March 28, 2012, and before 2014 10 % - after 2013 and before 2016 5 % - after 2015\* 0% Expenditures If you are a Canadian-controlled private corporation (CCPC), this percentage may apply to the portion that you 35 % claim of the SR&ED qualified expenditure pool that does not exceed your expenditure limit (see Part 10) Note: If your current year's qualified expenditures are more than your expenditure limit (see Part 10 on page 5), the excess is eligible for an ITC calculated at the 20 % rate\*\*. If you are a corporation that is not a CCPC and have incurred qualified expenditures for SR&ED in any area in Canada: before 2014\*\* 20 % - after 2013\*\* 15 % If you are a taxable Canadian corporation that incurred pre-production mining expenditures before March 29, 2012 10 % If you are a taxable Canadian corporation that incurred pre-production mining exploration expenditures: - after March 28, 2012, and before 2013 10 % - in 2013 5 % - after 2013 0 % If you are a taxable Canadian corporation that incurred pre-production mining development expenditures\*\*\*: - after March 28, 2012, and before 2014 10 % - in 2014 7% - in 2015 4 % - after 2015 0 % If you paid salary and wages to apprentices in the first 24 months of their apprenticeship contract for employment 10 % . . . . . . . . . . . . . . . If you incurred eligible expenditures after March 18, 2007, for the creation of licensed child care spaces for the 25 % children of your employees and, potentially, for other children A transitional relief rate of 10% may apply to property acquired after 2013 and before 2017, if the property is acquired under a written agreement entered

\* A transitional relief rate of 10% may apply to property acquired after 2013 and before 2017, if the property is acquired under a written agreement entered into before March 29, 2012, or the property is acquired as part of a **phase** of a project where the construction or the engineering and design work for the construction started before March 29, 2012. See paragraph (a.1) of the definition of **specified percentage** in subsection 127(9) for more information.

\*\* The reduction of the rate from 20% to 15% applies to 2014 and later tax years, except that, for 2014 tax years that start before 2014, the reduction is pro-rated based on the number of days in the tax year that are after 2013.

\*\*\* A transitional relief rate may apply to expenditures incurred after 2013 and before 2016, if the expenditure is incurred under a written agreement entered into before March 29, 2012, or the expenditure is incurred as part of the development of a new mine where the construction or the engineering and design work for the construction of the new mine started before March 29, 2012. See subparagraphs (k)(ii) and (iii) of the definition of **specified percentage** in subsection 127(9) for more information.

| Corporation's name  | Business number  | Tax year-end<br>Year Month Day |
|---|--|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED   |  | 2016-12-31                     |
| Part 2 – Determination of a qualifying corporation  |  |                                |
| Is the corporation a qualifying corporation?  |  | 1 Yes 2 No X                   |
| For the purpose of a refundable ITC, a <b>qualifying corporation</b> is defined under subsection 127.1(2). The contaxable income (before any loss carrybacks) for its previous tax year cannot be more than its <b>qualifying inco</b> corporation is associated with any other corporations during the tax year, the total of the taxable incomes of the corporations (before any loss carrybacks), for their last tax year ending in the previous calendar year, cannot be for the particular tax year.   | <b>me limit</b> for the particular tax<br>e corporation and the associat | year. If the<br>ted            |
| Note: A CCPC considered associated with another corporation under subsection 256(1) will be considered refundable ITC if:   | d <b>not</b> associated for the calcu                                    | llation of a                   |
| <ul> <li>one corporation is associated with another corporation solely because one or more persons own<br/>stock of both corporations; and</li> </ul>   | shares of the capital  |                                |
| one of the corporations has at least one shareholder who is not common to both corporations.  |  |                                |
| If you are a <b>qualifying</b> corporation, you will earn a <b>100%</b> refund on your share of any ITCs earned at the 35% for SR&ED, up to the allocated expenditure limit. The 100% refund does not apply to qualified <b>capital</b> expend<br>They are only eligible for the <b>40%</b> refund*.  |  |                                |
| Some CCPCs that are <b>not qualifying</b> corporations may also earn a <b>100%</b> refund on their share of any ITCs e <b>current</b> expenditures for SR&ED, up to the allocated expenditure limit. The expenditure limit can be determined does not apply to qualified <b>capital</b> expenditures eligible for the 35% credit rate. They are only eligible for the 4   | ed in Part 10. The 100% refur  |                                |
| The 100% refund will not be available to a corporation that is an <b>excluded corporation</b> as defined under sub excluded corporation if, at any time during the year, it is a corporation that is either controlled by (directly or increlated to:   |  |                                |
| a) one or more persons exempt from Part I tax under section 149;  |  |                                |
| b) Her Majesty in right of a province, a Canadian municipality, or any other public authority; or   |  |                                |
| c) any combination of persons referred to in a) or b) above.  |  |                                |
| * Capital expenditures incurred after December 31, 2013, including lease payments for property that would have purchased directly, are <b>not</b> qualified SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR&ED expenditures and are <b>not</b> eligible for an ITC on SR expenditures and are <b>not</b> eligible for an ITC on SR expenditures and are <b>not</b> eligible for an ITC on SR expenditures and are <b>not</b> eligible for an ITC on SR expenditures and are <b>not</b> eligible for an ITC on SR expenditures are an a |  | e if                           |

| Add :   |     |
| Amount AA2  | EE2 |
| Refund of ITC (amount DD2 plus amount EE2)  | FF2 |

### Recapture – SR&ED

#### Part 16 – Recapture of ITC for corporations and partnerships – SR&ED

You will have a recapture of ITC in a year when all of the following conditions are met:

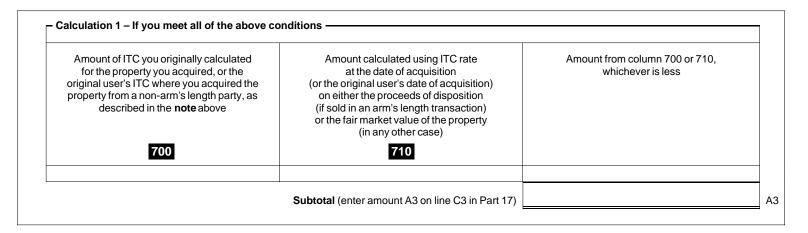

- you acquired a particular property in the current year or in any of the 20 previous tax years, and the credit was earned in a tax year ending after 1997 and did not expire before 2008;
- you claimed the cost of the property as a qualified expenditure for SR&ED on Form T661;
- the cost of the property was included in calculating your ITC or was the subject of an agreement made under subsection 127(13) to transfer qualified expenditures; and
- you disposed of the property or converted it to commercial use after February 23, 1998. This condition is also met if you disposed of or converted to commercial use a property that incorporates the particular property previously referred to.

#### Note:

The recapture **does not apply** if you disposed of the property to a non-arm's-length purchaser who intended to use it all or substantially all for SR&ED. When the non-arm's-length purchaser later sells or converts the property to commercial use, the recapture rules will apply to the purchaser based on the historical ITC rate of the original user.

You will report a recapture on the T2 return for the year in which you disposed of the property or converted it to commercial use. In the following tax year, add the amount of the ITC recapture to the SR&ED expenditure pool.

If you have more than one disposition for calculations 1 and 2, complete the columns for each disposition for which a recapture applies, using the calculation formats below.

#### Calculation 2 - Only if you transferred all or a part of the gualified expenditure to another person under an agreement described in subsection 127(13); otherwise, enter nil on line B3. Α в С D Е F Rate that the transferee Proceeds of disposition ITC earned by the Amount from Amount, if any, Amount used in determining its of the property if you already provided for determined by transferee for the column D or E, dispose of it to an ITC for qualified in Calculation 1 qualified expenditures the formula whichever is less expenditures under a arm's length person; that were transferred (This allows for the $(A \times B) - C$ subsection 127(13) or, in any other case. situation where only agreement enter the fair market part of the cost of a value of the property property is transferred at conversion or under a subsection disposition 127(13) agreement.) 720 750 730 740 Subtotal (total of column F) В3 (enter amount B3 on line D3 in Part 17)

| As a member of the partnership, you will report your share of the SR&ED ITC of the partnership after the SR&ED ITC has been reduced by the amount of the recapture. If this amount is a positive amount, you will report it on line 550 in Part 12. However, if the partnership does not have enough ITC otherwise available to offset the recapture, then the amount by which reductions to ITC exceed additions (the excess) will be determined and reported on line 760. |    |
|---|----|
| Corporate partner's share of the excess of SR&ED ITC (amount to be reported on line E3 in Part 17) 760  |    |
| Recaptured ITC from calculation 1, amount A3 in Part 16   | C3 |
| Recaptured ITC from calculation 2, amount B3 in Part 16   | D3 |
| Recaptured ITC from calculation 3, line 760 in Part 16  | E3 |
| Fotal recapture of SR&ED investment tax credit (total of amounts C3 to E3)  | F3 |

Enter amount F3 on line A8 in Part 29.

### **Pre-Production Mining**

### Part 18 – Pre-production mining expenditures -

#### Exploration information

A mineral resource that qualifies for the credit means a mineral deposit from which the principal mineral to be extracted is diamond, a base or precious metal deposit, or a mineral deposit from which the principal mineral to be extracted is an industrial mineral that, when refined, results in a base or precious metal.

In column 800, list all minerals for which pre-production mining expenditures have taken place in the tax year.

For each of the minerals reported in column 800, identify each project (in column 805), mineral title (in column 806), and mining division (in column 807) where title is registered. If there is no mineral title, identify only the project and mining division.

### **Apprenticeship Job Creation**

### Part 21 – Total current-year credit – ITC from apprenticeship job creation expenditures –

If you are a related person as defined under subsection 251(2), has it been agreed in writing that you are the only employer who will be claiming the apprenticeship job creation tax credit for this tax year for each apprentice whose contract number (or social insurance number (SIN) or name) appears below? (If not, you cannot claim the tax credit.)

611 1 Yes 2 No

For each apprentice in their first 24 months of the apprenticeship, enter the apprenticeship contract number registered with Canada, or a province or territory, under an apprenticeship program designed to certify or license individuals in the trade. For the province, the trade must be a Red Seal trade. If there is no contract number, enter the SIN or the name of the eligible apprentice.

### **Child Care Spaces**

#### Part 24 – Eligible child care spaces expenditures -

Enter the eligible expenditures that you incurred to create licensed child care spaces for the children of the employees and, potentially, for other children. You cannot be carrying on a child care services business. The eligible expenditures include:

• the cost of depreciable property (other than specified property); and

• the specified child care start-up expenditures.

Properties should be acquired and expenditures should be incurred only to create new child care spaces at a licensed child care facility.

**Recapture – Child Care Spaces** 

| ┌ Part 28 – Recapture of ITC for corporations and partnerships – Child care spaces ———————————  |      |
|---|------|
| The ITC will be recovered against the taxpayer's tax otherwise payable under Part I of the Act if, at any time within 60 months of the day on which the taxpayer acquired the property:   |      |
| the new child care space is no longer available; or   |      |
| property that was an eligible expenditure for the child care space is:  |      |
| <ul> <li>disposed of or leased to a lessee; or</li> </ul>   |      |
| - converted to another use.   |      |
| If the property disposed of is a child care space, the amount that can reasonably be considered to have been included in the original ITC (paragraph 127(27.12)(a))   | _    |
| In the case of eligible expenditures (paragraph 127(27.12)(b)), the lesser of:  |      |
| The amount that can reasonably be considered to have been included in the original ITC 795  |      |
| 25% of either the proceeds of disposition (if sold in an arm's length transaction)<br>or the fair market value (in any other case) of the property  |      |
| Amount from line 795 or line 797, whichever is less   | _ A7 |
| - Partnerships  |      |
| As a member of the partnership, you will report your share of the child care spaces ITC of the partnership after the child care spaces ITC has been reduced by the amount of the recapture. If this amount is a positive amount, you will report it on line 782 in Part 26. However, if the partnership does not have enough ITC otherwise available to offset the recapture, then the amount by which reductions to ITC exceed additions (the excess) will be determined and reported on line 799 below. |      |
| Corporate partner's share of the excess of ITC 799  |      |
| Total recapture of child care spaces investment tax credit (total of line 792, amount A7, and line 799)   | B7   |
| Enter amount B7 on line B8 in Part 29.  |      |
| Summary of Investment Tax Credits   |      |

| Part 29 – Total recapture of investment tax credit  |    |
|---|----|
| Recaptured SR&ED ITC (from amount F3 in Part 17)  | A8 |
| Recaptured child care spaces ITC (from amount B7 in Part 28)  | B8 |
| Total recapture of investment tax credit (amount A8 plus amount B8)         Enter amount C8 on line 602 of the T2 return. | C8 |

| - Part 30 – Total ITC deducted from Part I tax —   |        |    |
|--|--------|----|
| ITC from investments in qualified property deducted from Part I tax (from line 260 in Part 5)  |        | D8 |
| ITC from SR&ED expenditures deducted from Part I tax (from line 560 in Part 12)  | 60,151 | E8 |
| ITC from pre-production mining expenditures deducted from Part I tax (from line 885 in Part 19)  |        | F8 |
| ITC from apprenticeship job creation expenditures deducted from Part I tax (from line 660 in Part 22)                                    | 24,000 | G8 |
| ITC from child care space expenditures deducted from Part I tax (from line 785 in Part 26)   |        | H8 |
| Total ITC deducted from Part I tax (total of amounts D8 to H8)       1,1         Enter amount I8 on line 652 of the T2 return.       1,1 | 84,151 | 18 |

CORPORATE TAXPREP / TAXPREP DES SOCIÉTÉS - EP26 VERSION 2016 V2.0

Schedule 33

Canada Revenue Agence du revenu Agency du Canada

# Taxable Capital Employed in Canada – Large Corporations

| Corporation's name                    | Business number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

• Use this schedule in determining if the total taxable capital employed in Canada of the corporation (other than a financial institution or an insurance corporation) and its related corporations is greater than \$10,000,000.

- If the total taxable capital employed in Canada of the corporation and its related corporations is greater than \$10,000,000, file a completed Schedule 33 with your T2 Corporation Income Tax Return no later than six months from the end of the tax year.
- Unless otherwise noted, all legislative references are to the Income Tax Act and the Income Tax Regulations.
- Subsection 181(1) defines the terms financial institution, long-term debt, and reserves.
- Subsection 181(3) provides the basis to determine the carrying value of a corporation's assets or any other amount under Part I.3 for its capital, investment allowance, taxable capital, or taxable capital employed in Canada, or for a partnership in which it has an interest.
- If the corporation was a non-resident of Canada throughout the year and carried on a business through a permanent establishment in Canada, go to Part 4, Taxable capital employed in Canada.

#### – Part 1 – Capital

| Add the following year-end amount | ts: |
|-----------------------------------|-----|
|-----------------------------------|-----|

| Reserves that have not been deducted in calculating income for the year under Part I 101  | 280,712,692                |
|---|----------------------------|
| Capital stock (or members' contributions if incorporated without share capital)   | 556,300,000                |
| Retained earnings   | 995,900,000                |
| Contributed surplus   | 12,800,000                 |
| Any other surpluses   |                            |
| Deferred unrealized foreign exchange gains  |                            |
| All loans and advances to the corporation   |                            |
| All indebtedness of the corporation represented by bonds, debentures, notes, mortgages, hypothecary claims, bankers' acceptances, or similar obligations  | 2,333,800,000              |
| Any dividends declared but not paid by the corporation before the end of the year   |                            |
| All other indebtedness of the corporation (other than any indebtedness for a lease) that has been outstanding for more than 365 days before the end of the year   |                            |
| The total of all amounts, each of which is the amount, if any, in respect of a partnership in which the corporation held a membership interest at the end of the year, either directly or indirectly through another partnership (see note below) |                            |
| Subtotal (add lines 101 to 112)   | 4,179,512,692 4,179,512,69 |

#### Note:

Line 112 is determined by the formula (A – B) x C/D (as per paragraph 181.2(3)(g)) where:

- A is the total of all amounts that would be determined for lines 101, 107, 108, 109, and 111 in respect of the partnership for its last fiscal period that ends at or before the end of the year if
  - a) those lines applied to partnerships in the same manner that they apply to corporations, and
  - b) those amounts were computed without reference to amounts owing by the partnership
    - (i) to any corporation that held a membership interest in the partnership either directly or indirectly through another partnership, or
       (ii) to any partnership in which a corporation described in subparagraph (i) held a membership interest either directly or indirectly through another partnership.
- B is the partnership's deferred unrealized foreign exchange losses at the end of the period,
- C is the share of the partnership's income or loss for the period to which the corporation is entitled either directly or indirectly through another partnership, and
- D is the partnership's income or loss for the period.

2016-12-31

| Part 1 | <ul> <li>Capital</li> </ul> | (continued) |
|--------|-----------------------------|-------------|
|--------|-----------------------------|-------------|

|  | Subtotal A (from page 1) | 4,179,512,692 A |
|--|--------------------------|-----------------|
| Deduct the following amounts:  |                          |                 |
| Deferred tax debit balance at the end of the year  | _                        |                 |
| Any deficit deducted in calculating its shareholders' equity (including, for this purpose, the amount of any provision for the redemption of preferred shares) at the end of the year <b>122</b>                       |                          |                 |
| To the extent that the amount may reasonably be regarded as being included in any of lines 101 to 112 above for the year, any amount deducted under subsection 135(1) in calculating income under Part I for the year. |                          |                 |
| Deferred unrealized foreign exchange losses at the end of the year   |                          |                 |
| Subtotal (add lines 121 to 124)  | ►                        | В               |
| Capital for the year (amount A minus amount B) (if negative, enter "0")  | <mark>190</mark>         | 4,179,512,692   |

#### - Part 2 – Investment allowance -

| Add the carrying value at the end of the year of the following assets of the corporation:   | _                        |
|---|--------------------------|
| A share of another corporation  |                          |
| A loan or advance to another corporation (other than a financial institution)   |                          |
| A bond, debenture, note, mortgage, hypothecary claim, or similar obligation of another corporation (other than a financial institution) 403   | I                        |
| Long-term debt of a financial institution 404   |                          |
| A dividend payable on a share of the capital stock of another corporation 405   |                          |
| A loan or advance to, or a bond, debenture, note, mortgage, hypothecary claim or similar obligation of, a partnership each member of which was, throughout the year, another corporation (other than a financial institution) that was not exempt from tax under this Part (otherwise than because of paragraph 181.1(3)(d)), or another partnership described in paragraph 181.2(4)(d.1) | l                        |
| An interest in a partnership (see note 2 below) 407   |                          |
| Investment allowance for the year (add lines 401 to 407)  |                          |
| Notes:  |                          |
| 1. Lines 401 to 405 should not include the carrying value of a share of the capital stock of, a dividend payable by, or indebtedness of a corp-<br>exempt from tax under Part I.3 (other than a non-resident corporation that at no time in the year carried on business in Canada through a establishment).  |                          |
| 2. Where the corporation has an interest in a partnership held either directly or indirectly through another partnership, refer to subsection 18 additional rules regarding the carrying value of an interest in a partnership.   | 31.2(5) for              |
| 3. Where a trust is used as a conduit for loaning money from a corporation to another related corporation (other than a financial institution), considered to have been made directly from the lending corporation to the borrowing corporation. Refer to subsection 181.2(6) for specia apply.   |                          |
| Part 3 – Taxable capital  |                          |
| Capital for the year (line 190)   | . <u>4,179,512,692</u> c |
| Deduct: Investment allowance for the year (line 490)  | D                        |
| Taxable capital for the year (amount C minus amount D) (if negative, enter "0")       500   | 4,179,512,692            |

|   | To be com  | pleted by a corporation that was   | resident in Canada at                          | any time in the year                  |              |             |
|---|--|--|--|---------------------------------------|--------------|-------------|
| Taxable capital for the year (line 500)   | 4,179,512,692 x  | Taxable income earned<br>in Canada 610<br>Taxable income   | <u>90,234,366</u> = 90,234,366                 | Taxable capital<br>employed in Canada | 90 4,179,512 | <u>,692</u> |
| 2. ## Schedule 53

## **General Rate Income Pool (GRIP) Calculation**

| Corporation's name                    | Business number | Tax year-end   |
|---------------------------------------|-----------------|----------------|
|                                       |                 | Year Month Day |
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31     |

On: 2016-12-31

- If you are a Canadian-controlled private corporation (CCPC) or a deposit insurance corporation (DIC), use this schedule to determine the general rate income pool (GRIP).
- When an eligible dividend was paid in the tax year, file a completed copy of this schedule with your T2 Corporation Income Tax Return. Do not send your worksheets with your return, but keep them in your records in case we ask to see them later.
- All legislative references are to the Income Tax Act and the Income Tax Regulations.
- Subsection 89(1) defines the terms eligible dividend, excessive eligible dividend designation, general rate income pool, and low rate income pool.

## Eligibility for the various additions —

| 2006 addition  | An       | swer the following questions to determine the corporation's eligibility for the various additions:   |            |
|--|----------|--|------------|
| <ul> <li>4. Was the corporation a CCPC during its preceding taxation year?</li> <li>5. Corporations that become a CCPC or a DIC</li> <li>If the answer to question 5 is yes, complete Part 4.</li> </ul> Amalgamation (first year of filing after amalgamation) <ul> <li>6. Corporations that were formed as a result of an amalgamation</li> <li>If the answer to question 6 is yes, answer questions 7 and 8. If the answer is no, go to question 9.</li> <li>7. Was one or more of the predecessor corporations neither a CCPC nor a DIC?</li> <li>If the answer to question 7 is yes, complete Part 4.</li> </ul> 8. Was one or more of the predecessor corporation a CCPC or a DIC during the taxation year that ended immediately before amalgamation? <ul> <li>If the answer to question 8 is yes, answer questions 10 and 11. If the answer is no, go to Part 1.</li> </ul> 9. ## **SCHEDULE 508**

## ONTARIO RESEARCH AND DEVELOPMENT TAX CREDIT

| Name of corporation                   | Business Number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

• Use this schedule to:

- calculate an Ontario research and development tax credit (ORDTC);
- claim an ORDTC earned in the tax year or carried forward from any of the 20 previous tax years that are a tax year ending after December 31, 2008, to reduce Ontario corporate income tax payable in the current tax year;
- carry back an ORDTC to reduce Ontario corporate income tax payable in any of the three previous tax years, but not to a tax year that ends before January 1, 2009;
- add an ORDTC that was allocated to the corporation by a partnership of which it was a member;
- transfer an ORDTC after an amalgamation or windup; or
- calculate a recapture of the ORDTC.
- The ORDTC is a 4.5% non-refundable tax credit on eligible expenditures incurred by a corporation in a tax year that ends after December 31, 2008.
- An eligible expenditure is an expenditure for a permanent establishment in Ontario of a corporation, that is a qualified expenditure for the purposes of section 127 of the federal *Income Tax Act* for scientific research and experimental development (SR&ED) carried on in Ontario.
- Only corporations that are not exempt from Ontario corporate income tax and none of whose income is exempt income can claim the ORDTC.
- Attach a completed copy of this schedule to the T2 Corporation Income Tax Return.

## Part 1 – Ontario SR&ED expenditure pool —

| Total eligible expenditures incurred by the corporation in Ontario in the tax year   | A                      |
|--|------------------------|
| Deduct:         Government assistance, non-government assistance, or a contract payment           for eligible expenditures         31,360 | В                      |
| Net eligible expenditures for the tax year (amount A <b>minus</b> amount B)<br>(if negative, enter "0")                                    | С                      |
| Add: Eligible expenditures transferred to the corporation by another corporation   | D                      |
| Subtotal (amount C plus amount D)8,049,499   | ► <u>8,049,499</u> E   |
| Deduct: Eligible expenditures the corporation transferred to another corporation   | <b>115</b> F           |
| Ontario SR&ED expenditure pool (amount E minus amount F) (if negative, enter "0")  | <b>120</b> 8,049,499 G |

| Part 2 – Calculation of the current part of the ORDTC –  |       |             |   |          |       |           |

|   |                 | Current tax year | 2016-12-31                                      |                  |

#### Total (equals line 325 in Part 3)

The amount available from the 20th preceding tax year will expire after this year. When you file your return for the next year, you will enter the expired amount on line 300 of Schedule 508 for that year.

## - Part 6 – Calculation of a recapture of ORDTC -

You will have a recapture of ORDTC in a tax year when you meet all of the following conditions:

- you acquired a particular property in the current year or in any of the 20 previous tax years if the ORDTC was earned in a tax year ending after 2008;
- you claimed the cost of the property as an eligible expenditure for the ORDTC;
- the cost of the property was included in computing your ORDTC or was subject to an agreement made under subsection 127(13) of the federal Act to transfer qualified expenditures and section 42 of the *Taxation Act, 2007* (Ontario) applied; and
- you disposed of the property or converted it to commercial use in a tax year ending after December 31, 2008. You also meet this condition if you disposed of or converted to commercial use a property which incorporates the particular property previously referred to.

**Note:** The recapture **does not apply** if you disposed of the property to a non-arm's length purchaser who intended to use it all or substantially all for SR&ED in Ontario. When the non-arm's length purchaser later sells or converts the property to commercial use, the recapture rules will apply to the purchaser based on the historical federal investment tax credit (ITC) rate \* of the original user in Calculation 1 below.

You have to report the recapture on Schedule 5 for the year in which you disposed of the property or converted it to commercial use. If the corporation is a member of a partnership, report its share of the recapture.

If you have more than one disposition for calculations 1 and 2, complete the columns for each disposition for which a recapture applies, using the calculation formats below.

\* Federal ITC in calculations 1 and 2 should be determined without reference to paragraph (e) of the definition **investment tax credit** in subsection 127(9) of the federal Act.

Calculation 1 - If you meet all of the above conditions

|    | Y   | Z  | AA  |
|----|---|--|---|
|    | Amount of federal ITC you originally calculated<br>for the property you acquired, or the original<br>user's federal ITC where you acquired the<br>property from a non-arm's length party, as<br>described in the note above | Amount calculated using the federal ITC rate at the<br>date of acquisition (or the original user's date of<br>acquisition) on either the proceeds of disposition<br>(if sold in an arm's length transaction) or the fair<br>market value of the property (in any other case) | Amount from column 700 or 710,<br>whichever is less |
|    | 700   | 710  |   |
| 1. |   |  |   |

**Calculation 2** – If the corporation is deemed by subsection 42(1) of the *Taxation Act, 2007* (Ontario) to have transferred all or part of the eligible expenditure to another corporation as a consequence of an agreement described in subsection 127(13) of the federal Act complete Calculation 2. Otherwise, enter nil on line II.

### Schedule A - Worksheet for eligible expenditures incurred by the corporation in Ontario for the current taxation year

This worksheet allows you to report the amount of eligible expenditures entered on Form T661, *Scientific Research and Experimental Development (SR&ED) Expenditures Claim* which represents eligible expenditures as defined in section 127 of the *Income Tax Act* (ITA) with regard to scientific research and experimental development (SR&ED) carried on in Ontario and attributable to a permanent establishment in Ontario of a corporation.

Data on the worksheet is calculated based on the amounts on Form T661, but will have to be adjusted according to the rules of Ontario, if applicable, in particular when the corporation has had a permanent establishment in more than one jurisdiction. This data will be used when calculating Schedule 508 and Schedule 566.

## Ontario Corporate Minimum Tax

| Corporation's name                    | Business number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

- File this schedule if the corporation is subject to Ontario corporate minimum tax (CMT). CMT is levied under section 55 of the Taxation Act, 2007 (Ontario), referred to as the "Ontario Act".
- Complete Part 1 to determine if the corporation is subject to CMT for the tax year.
- A corporation not subject to CMT in the tax year is still required to file this schedule if it is deducting a CMT credit, has a CMT credit carryforward, or has a CMT loss carryforward or a current year CMT loss.
- A corporation that has Ontario special additional tax on life insurance corporations (SAT) payable in the tax year must complete Part 4 of this schedule even if it is not subject to CMT for the tax year.
- A corporation is exempt from CMT if, throughout the tax year, it was one of the following:
  - 1) a corporation exempt from income tax under section 149 of the federal Income Tax Act,
  - 2) a mortgage investment corporation under subsection 130.1(6) of the federal Act;
  - 3) a deposit insurance corporation under subsection 137.1(5) of the federal Act;
  - 4) a congregation or business agency to which section 143 of the federal Act applies;
  - 5) an investment corporation as referred to in subsection 130(3) of the federal Act; or
  - 6) a mutual fund corporation under subsection 131(8) of the federal Act.
- File this schedule with the T2 Corporation Income Tax Return.

## Part 1 – Determination of CMT applicability

| Total assets of the corporation at the end of the tax year *                    | 4,919,100,000 |
|---|---------------|
| Share of total assets from partnership(s) and joint venture(s) *                |               |
| Total assets of associated corporations (amount from line 450 on Schedule 511)  | 3,821,223,000 |
| Total assets (total of lines 112 to 116)  | 8,740,323,000 |
| Total revenue of the corporation for the tax year **                            | 4,020,400,000 |
| Share of total revenue from partnership(s) and joint venture(s) **              |               |
| Total revenue of associated corporations (amount from line 550 on Schedule 511) | 258,412,000   |
| Total revenue (total of lines 142 to 146)                                       | 4,278,812,000 |

The corporation is subject to CMT if:

- for tax years ending before July 1, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are more than \$5,000,000, or the total suggestion of the associated group of corporations are more than
  - \$5,000,000, or the total revenue for the year of the corporation or the associated group of corporations is more than \$10,000,000.

for tax years ending after June 30, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are equal to or more than \$50,000,000, and the total revenue for the year of the corporation or the associated group of corporations is equal to or more than \$100,000,000.
 If the corporation is not subject to CMT, do not complete the remaining parts unless the corporation is deducting a CMT credit, or has a CMT credit carryforward, a CMT loss carryforward, a current year CMT loss, or SAT payable in the year.

#### \* Rules for total assets

- Report total assets according to generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- Do not include unrealized gains and losses on assets and foreign currency gains and losses on assets that are included in net income for accounting purposes but not in income for corporate income tax purposes.
- The amount on line 114 is determined at the end of the last fiscal period of the partnership or joint venture that ends in the tax year of the corporation. Add the proportionate share of the assets of the partnership(s) and joint venture(s), and deduct the recorded asset(s) for the investment in partnerships and joint ventures.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

#### \*\* Rules for total revenue

- Report total revenue in accordance with generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- If the tax year is less than 51 weeks, **multiply** the total revenue of the corporation or the partnership, whichever applies, by 365 and **divide** by the number of days in the tax year.
- The amount on line 144 is determined for the partnership or joint venture fiscal period that ends in the tax year of the corporation. If the partnership or joint venture has 2 or more fiscal periods ending in the filing corporation's tax year, **multiply** the sum of the total revenue for each of the fiscal periods by 365 and **divide** by the total number of days in all the fiscal periods.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

| - Part 2 – Adjusted net income/loss for CMT purposes ————————————————————————————   |   |
|---|---|
| Net income/loss per financial statements *  |   |
| Add (to the extent reflected in income/loss):   |   |
| Provision for current income taxes/cost of current income taxes   |   |
| Provision for deferred income taxes (debits)/cost of future income taxes  |   |
| Equity losses from corporations   |   |
| Financial statement loss from partnerships and joint ventures       226         Dividends deducted on financial statements (subsection 57(2) of the Ontario Act),       230         excluding dividends paid by credit unions under subsection 137(4.1) of the federal Act       230  |   |
| Other additions (see note below):   |   |
| Share of adjusted net income of partnerships and joint ventures **  |   |
| Total patronage dividends received, not already included in net income/loss   |   |
| 281 282   |   |
| 283 284   |   |
| Subtotal 23,135,447 > 23,135,447  | А |
| Deduct (to the extent reflected in income/loss):  |   |
| Provision for recovery of current income taxes/benefit of current income taxes  |   |
| Provision for deferred income taxes (credits)/benefit of future income taxes  |   |
| Equity income from corporations   |   |
| Financial statement income from partnerships and joint ventures   |   |
| Dividends deductible under section 112, section 113, or subsection 138(6) of the federal Act 330  |   |
| Dividends not taxable under section 83 of the federal Act (from Schedule 3)   |   |
| Gain on donation of listed security or ecological gift  |   |
| Accounting gain on transfer of property to a corporation under section 85 or 85.1 of the federal Act ***  |   |
| Accounting gain on transfer of property to/from a partnership under section 85 or 97 of the federal Act ****  |   |
| Accounting gain on disposition of property under subsection 13(4), subsection 14(6), or section 44 of the federal Act *****   |   |
| Accounting gain on a windup under subsection 88(1) of the federal Act or an amalgamation under section 87 of the federal Act  |   |
| Other deductions (see note below):  |   |
| Share of adjusted net loss of partnerships and joint ventures **  |   |
| Tax payable on dividends under subsection 191.1(1) of the federal Act multiplied by 3   |   |
| Patronage dividends paid (from Schedule 16) not already included in net income/loss 338   |   |
|   |   |
| 381 382   |   |
| 383 384   |   |
| 385 386   |   |
| 387 388   |   |
| 389 390   | _ |
|   | В |
| Adjusted net income/loss for CMT purposes (line 210 plus amount A minus amount B)   |   |
| If the amount on line 490 is positive and the corporation is subject to CMT as determined in Part 1, enter the amount on line 515 in Part 3.  |   |
| If the amount on line 490 is negative, enter the amount on line 760 in Part 7 (enter as a positive amount).   |   |
| Note  |   |
| In accordance with Ontario Regulation 37/09, when calculating net income for CMT purposes, accounting income should be adjusted to:   |   |
| <ul> <li>exclude unrealized gains and losses due to mark-to-market changes or foreign currency changes on specified mark-to-market property (assets only);</li> <li>include realized gains and losses on the disposition of specified mark-to-market property not already included in the accounting income, if the property is not a capital property or is a capital property disposed in the year or in a previous tax year ended after March 22, 2007.</li> </ul> |   |
| "Specified mark-to-market property" is defined in subsection 54(1) of the Ontario Act.  |   |
| These rules also apply to partnerships. A corporate partner's share of a partnership's adjusted income flows through on a proportionate basis to the corporate partner.   |   |
| * Rules for net income/loss   |   |
| <ul> <li>Banks must report net income/loss as per the report accepted by the Superintendent of Financial Institutions under the federal Bank Act, adjusted so consolidation and equity methods are not used.</li> </ul>   |   |

### Part 2 – Calculation of adjusted net income/loss for CMT purposes (continued)

- Life insurance corporations must report net income/loss as per the report accepted by the federal Superintendent of Financial Institutions or equivalent provincial insurance regulator, before SAT and adjusted so consolidation and equity methods are not used. If the life insurance corporation is resident in Canada and carries on business in and outside of Canada, **multiply** the net income/loss by the ratio of the Canadian reserve liabilities **divided** by the total reserve liability. The reserve liabilities are calculated in accordance with Regulation 2405(3) of the federal Act.
- Other corporations must report net income/loss in accordance with generally accepted accounting principles, except that consolidation and equity methods must not be used. When the equity method has been used for accounting purposes, equity losses and equity income are removed from book income/loss on lines 224 and 324 respectively.
- Corporations, other than insurance corporations, should report net income from line 9999 of the GIFI (Schedule 125) on line 210.
- \*\* The share of the adjusted net income of a partnership or joint venture is calculated as if the partnership or joint venture were a corporation and the tax year of the partnership or joint venture were its fiscal period. For a corporation with an indirect interest in a partnership through one or more partnerships, determine the corporation's share according to clause 54(5)(c) of the Ontario Act.
- \*\*\* A joint election will be considered made under subsection 60(1) of the Ontario Act if there is an entry on line 342, and an election has been made for transfer of property to a corporation under subsection 85(1) of the federal Act.
- \*\*\*\* A joint election will be considered made under subsection 60(2) of the Ontario Act if there is an entry on line 344, and an election has been made under subsection 85(2) or 97(2) of the federal Act.
- \*\*\*\*\* A joint election will be considered made under subsection 61(1) of the Ontario Act if there is an entry on line 346, and an election has been made under subsection 13(4) or 14(6) and/or section 44 of the federal Act.

For more information on how to complete this part, see the T2 Corporation - Income Tax Guide.

## SCHEDULE 511

## ONTARIO CORPORATE MINIMUM TAX – TOTAL ASSETS AND REVENUE FOR ASSOCIATED CORPORATIONS

| Name of corporation                   | Business Number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

• For use by corporations to report the total assets and total revenue of all the Canadian or foreign corporations with which the filing corporation was associated at any time during the tax year. These amounts are required to determine if the filing corporation is subject to corporate minimum tax.

• Total assets and total revenue include the associated corporation's share of any partnership(s)/joint venture(s) total assets and total revenue.

- Attach additional schedules if more space is required.
- File this schedule with the T2 Corporation Income Tax Return.

|   | Names of associated corporations   | Business number<br>(Canadian corporation only)<br>(see Note 1) | Total assets*<br>(see Note 2) | Total revenue**<br>(see Note 2) |
|---|------------------------------------|--|-------------------------------|---------------------------------|
|   | 200                                | 300  | 400                           | 500                             |
| 1 | TORONTO HYDRO CORPORATION          |  | 3,784,800,000                 | 237,500,000                     |
| 2 | TORONTO HYDRO ENERGY SERVICES INC. |  | 36,423,000                    | 20,912,000                      |
|   |                                    |  |                               | 550                             |
|   |                                    | Total  | 3,821,223,000                 | 258,412,000                     |

Enter the total assets from line 450 on line 116 in Part 1 of Schedule 510, *Ontario Corporate Minimum Tax*. Enter the total revenue from line 550 on line 146 in Part 1 of Schedule 510.

Note 1: Enter "NR" if a corporation is not registered.

Note 2: If the associated corporation does not have a tax year that ends in the filing corporation's current tax year but was associated with the filing corporation in the previous tax year of the filing corporation, enter the total revenue and total assets from the tax year of the associated corporation that ends in the previous tax year of the filing corporation.

### \* Rules for total assets

- Report total assets in accordance with generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- Include the associated corporation's share of the total assets of partnership(s) and joint venture(s) but exclude the recorded asset(s) for the investment in partnerships and joint ventures.
- Exclude unrealized gains and losses on assets that are included in net income for accounting purposes but not in income for corporate income tax purposes.

#### \*\* Rules for total revenue

- Report total revenue in accordance with generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- If the associated corporation has 2 or more tax years ending in the filing corporation's tax year, multiply the sum of the total revenue for each of
  those tax years by 365 and divide by the total number of days in all of those tax years.
- If the associated corporation's tax year is less than 51 weeks and is the only tax year of the associated corporation that ends in the filing corporation's tax year, multiply the associated corporation's total revenue by 365 and divide by the number of days in the associated corporation's tax year.
- Include the associated corporation's share of the total revenue of partnerships and joint ventures.
- If the partnership or joint venture has 2 or more fiscal periods ending in the associated corporation's tax year, multiply the sum of the total revenue for each of the fiscal periods by 365 and divide by the total number of days in all the fiscal periods.

## **SCHEDULE 546**

## CORPORATIONS INFORMATION ACT ANNUAL RETURN FOR ONTARIO CORPORATIONS

| Name of corporation                   | Business Number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

- This schedule should be completed by a corporation that is incorporated, continued, or amalgamated in Ontario and subject to the Ontario Business Corporations Act (BCA) or Ontario Corporations Act (CA), except for registered charities under the federal Income Tax Act. This completed schedule serves as a Corporations Information Act Annual Return under the Ontario Corporations Information Act.
- Complete parts 1 to 4. Complete parts 5 to 7 only to report change(s) in the information recorded on the Ontario Ministry of Government Services (MGS) public record.
- This schedule must set out the required information for the corporation as of the date of delivery of this schedule.
- A completed Ontario Corporations Information Act Annual Return must be delivered within six months after the end of the corporation's tax year-end. The MGS considers this return to be delivered on the date that it is filed with the Canada Revenue Agency (CRA) together with the corporation's income tax return.
- It is the corporation's responsibility to ensure that the information shown on the MGS public record is accurate and up-to-date. To review the information shown for the corporation on the public record maintained by the MGS, obtain a Corporation Profile Report. Visit **www.ServiceOntario.ca** for more information.
- This schedule contains non-tax information collected under the authority of the Ontario Corporations Information Act. This information will be sent to the MGS for the purposes of recording the information on the public record maintained by the MGS.

#### Part 1 – Identification

## SCHEDULE 550

anada

## **ONTARIO CO-OPERATIVE EDUCATION TAX CREDIT**

| Name of corporation                   | Business Number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

- Use this schedule to claim an Ontario co-operative education tax credit (CETC) under section 88 of the Taxation Act, 2007 (Ontario).
- The CETC is a refundable tax credit that is equal to an eligible percentage (10% to 30%) of the eligible expenditures incurred by a corporation for a qualifying work placement. The maximum credit amount is \$1,000 for each qualifying work placement ending before March 27, 2009, and \$3,000 for each qualifying work placement beginning after March 26, 2009. For a qualifying work placement that straddles March 26, 2009, the maximum credit amount is prorated.
- Eligible expenditures are salaries and wages (including taxable benefits) paid or payable to a student in a qualifying work placement, or fees paid or payable to an employment agency for services performed by the student in a qualifying work placement. These expenditures must be paid on account of employment or services, as applicable, at a permanent establishment of the corporation in Ontario. Expenditures for a work placement (WP) are not eligible expenditures if they are greater than the amounts that would be paid to an arm's length employee.
- A WP must meet all of the following conditions to be a qualifying work placement:
  - the student performs employment duties for a corporation under a qualifying co-operative education program (QCEP);
  - the WP has been developed or approved by an eligible educational institution as a suitable learning situation;
  - the terms of the WP require the student to engage in productive work;
  - the WP is for a period of at least 10 consecutive weeks or, in the case of an internship program, not less than 8 consecutive months and not more than 16 consecutive months;
  - the student is paid for the work performed in the WP;
  - the corporation is required to supervise and evaluate the job performance of the student in the WP;
  - the institution monitors the student's performance in the WP; and
  - the institution has certified the WP as a qualifying work placement.
- Make sure you keep a copy of the letter of certification from the Ontario eligible educational institution containing the name of the student, the employer, the institution, the term of the WP, and the name/discipline of the QCEP to support the claim. Do not submit the letter of certification with the T2 Corporation Income Tax Return.
- File this schedule with the T2 Corporation Income Tax Return.

#### - Part 1 - Corporate information -

| 110 Name of person to contact for more information   | 120 Telephone number including area code                            |
|--|---|
| Is the claim filed for a CETC earned through a partnership?*                                 |   |
| If you answered <b>yes</b> to the question at line 150, what is the name of the partnership? |   |
|  |   |
| * When a corporate member of a partnership is claiming an amount for eligible expe           | nditures incurred by a partnership, complete a Schedule 550 for the |

\* When a corporate member of a partnership is claiming an amount for eligible expenditures incurred by a partnership, complete a Schedule 550 for the partnership as if the partnership were a corporation. Each corporate partner, other than a limited partner, should file a separate Schedule 550 to claim the partner's share of the partnership's CETC. The allocated amounts can not exceed the amount of the partnership's CETC.

#### – Part 2 – Eligibility

| ſ |  |         |        |
|---|--|---------|--------|
|   | 1. Did the corporation have a permanent establishment in Ontario in the tax year?  | 1 Yes 🗙 | 2 No   |
|   | 2. Was the corporation exempt from tax under Part III of the <i>Taxation Act</i> , 2007 (Ontario)?                             | 1 Yes   | 2 No X |
|   | If you answered <b>no</b> to question 1 or <b>yes</b> to question 2, then the corporation is <b>not eligible</b> for the CETC. |         |        |

## Part 4 – Calculation of the Ontario co-operative education tax credit -

Complete a separate entry for each student for each qualifying work placement that ended in the corporation's tax year. If a qualifying work placement would otherwise exceed four consecutive months, divide the WP into periods of four consecutive months and enter each full period of four consecutive months as a separate WP. If the WP does not divide equally into four-month periods and if the period that is less than 4 months is 10 or more consecutive weeks, then enter that period as a separate WP. If that period is less than 10 consecutive weeks, then include it with the WP for the last period of 4 consecutive months. Consecutive WPs with two or more associated corporations are deemed to be with only one corporation, as designated by the corporations.

# Ontario Apprenticeship Training Tax Credit

| Corporation's name                    | Business number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

- Use this schedule to claim an Ontario apprenticeship training tax credit (ATTC) under section 89 of the Taxation Act, 2007 (Ontario).
- The ATTC is a refundable tax credit that is equal to a specified percentage (25% to 45%) of the eligible expenditures incurred by a corporation for a qualifying apprenticeship. For eligible expenditures incurred after March 26, 2009 for an apprenticeship program that began before April 24, 2015, the maximum credit for each qualifying apprenticeship is \$10,000 per year to a maximum credit of \$40,000 over the first 48-month period of the qualifying apprenticeship. For an apprenticeship program that began after April 23, 2015, the maximum credit for each qualifying apprenticeship is \$5,000 per year to a maximum credit of \$40,000 over the first 48-month period of the qualifying apprenticeship. For an apprenticeship program that began after April 23, 2015, the maximum credit for each qualifying apprenticeship is \$5,000 per year to a maximum credit of \$15,000 over the first 36-month period of the qualifying apprenticeship.
- Eligible expenditures are salaries and wages (including taxable benefits) paid to an apprentice in a qualifying apprenticeship or fees paid to an employment agency for the provision of services performed by the apprentice in a qualifying apprenticeship. These expenditures must be:
  - paid on account of employment or services, as applicable, at a permanent establishment of the corporation in Ontario;
  - for services provided by the apprentice during the first 48 months of the apprenticeship program, if an apprenticeship program began before April 24, 2015; and
  - for services provided by the apprentice during the first 36 months of the apprenticeship program, if an apprenticeship program began after April 23, 2015.
- An expenditure is not eligible for an ATTC if:
  - the same expenditure was used, or will be used, to claim a co-operative education tax credit; or
  - it is more than an amount that would be paid to an arm's length apprentice.
- An apprenticeship must meet the following conditions to be a qualifying apprenticeship:
  - the apprenticeship is in a qualifying skilled trade approved by the Ministry of Training, Colleges and Universities (Ontario) or a person designated by him or her; and
  - the corporation and the apprentice must be participating in an apprenticeship program in which the training agreement has been
    registered under the Ontario College of Trades and Apprenticeship Act, 2009, or the Apprenticeship and Certification Act, 1998, or in
    which the contract of apprenticeship has been registered under the Trades Qualification and Apprenticeship Act.
- Do not submit the training agreement or contract of apprenticeship with your T2 Corporation Income Tax Return. Keep a copy of the training agreement or contract of apprenticeship to support your claim.
- File this schedule with your T2 Corporation Income Tax Return.

#### - Part 1 - Corporate information -

| 110 Name of person to contact for more information   | 120      | Telephone nu | mber   |
|--|----------|--------------|--------|
|  |          |              |        |
| Is the claim filed for an ATTC earned through a partnership?*  | 150      | 1 Yes        | 2 No X |
| If you answered <b>yes</b> to the question at line 150, what is the name of the partnership? . 160   |          |              |        |
| Enter the percentage of the partnership's ATTC allocated to the corporation  | 170      |              | %      |
| * When a corporate member of a partnership is claiming an amount for eligible expenditures incurred by a partnership, complete a Sorpartnership as if the partnership were a corporation. Each corporate partner, other than a limited partner, should file a separate Schuthe partner's share of the partnership's ATTC. The total of the partners' allocated amounts can never exceed the amount of the part | edule 55 | 2 to claim   |        |

| _ | - Part 2 – Eligibility –  |         |        |
|---|---|---------|--------|
|   |   |         | 🗖      |
|   | 1. Did the corporation have a permanent establishment in Ontario in the tax year?                                   | 1 Yes 🔨 | 2 No 🔄 |
|   | 2. Was the corporation exempt from tax under Part III of the <i>Taxation Act, 2007</i> (Ontario)?                   | 1 Yes   | 2 No X |
|   | If you answered <b>no</b> to question 1 or <b>yes</b> to question 2, then you are <b>not eligible</b> for the ATTC. |         |        |

| Part 3 – Specified percentage  |     |
|--|-----|
| proprotein by proteining a second secon | 000 |
| r eligible expenditures incurred after March 26, 2009 for an apprenticeship program that began before April 24, 2015:<br>If line 300 is \$400,000 or less, enter 45% on line 312.<br>If line 300 is \$600,000 or more, enter 35% on line 312.<br>If line 300 is more than \$400,000 and less than \$600,000, enter the percentage on line 312 using the following formula:   |     |
| amount on line 300   |     |
| Specified percentage       =       45 %       -       amount on line 300         10 %       ×       (       minus       400,000       )         200,000       200,000       312       35.000   |     |
| becified percentage  | ) % |
| r eligible expenditures incurred for an apprenticeship program that began after April 23, 2015:<br>If line 300 is \$400,000 or less, enter 30% on line 314.<br>If line 300 is \$600,000 or more, enter 25% on line 314.  |     |
| If line 300 is more than \$400,000 and less than \$600,000, enter the percentage on line 314 using the following formula:  |     |

# **SCHEDULE 568**

#### **ONTARIO BUSINESS-RESEARCH INSTITUTE TAX CREDIT**

| Name of corporation                   | Business Number | Tax year-end   |
|---------------------------------------|-----------------|----------------|
|                                       |                 | Year Month Day |
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31     |

- Use this schedule to claim the Ontario business-research institute tax credit (OBRITC) under section 97 of the Taxation Act, 2007 (Ontario).
- The OBRITC is a 20% refundable tax credit based on qualified expenditures incurred in Ontario under an eligible contract with an eligible research institute (ERI).
- A list of eligible research institutes and the applicable ERI codes for eligible contracts can be found on our website. Go to www.cra.gc.ca/ctao and select "business-research institute tax credit".
- The criteria for a corporation to be eligible for the OBRITC include the eligibility requirements in Part 1 of this schedule.
- The annual qualified expenditure limit is \$20 million. If a corporation is associated with other corporations at any time in the calendar year, the \$20 million limit must be allocated among the associated corporations.
- Qualifying corporations are defined in subsection 97(3) of the Taxation Act, 2007 (Ontario).
- For each eligible contract, you must complete a separate Schedule 569, Ontario Business-Research Institute Tax Credit Contract Information.
- Keep the eligible contract to support your claim. Do not submit the contract with the T2 Corporation Income Tax Return.
- To claim the OBRITC, include the following with the T2 Corporation Income Tax Return:
- a completed copy of this schedule; and
- $-\,a$  completed copy of Schedule 569 for each eligible contract.

#### – Part 1 – Eligibility -

| 1. | Did the corporation, for the tax year, carry on business in Ontario through a permanent establishment in Ontario? 100 1 Yes X | 2 No   |
|----|---|--------|
| 2. | Was the corporation exempt from tax for the tax year under Part III of the Taxation Act, 2007 (Ontario)? 105 1 Yes            | 2 No 🗙 |
|    | If you answered <b>no</b> to question 1 or <b>yes</b> to question 2, the corporation is <b>not eligible</b> for the OBRITC.   |        |

| Was the corporation associated at any time in the tax year with another corporation?       200       1 Yes X         If the corporation answered no at line 200, enter \$20,000,000 on line 205. If the corporation answered yes at line 200, complete Part 3 and enter on line 205 the expenditure limit allocated to the corporation in column 310 in Part 3.       205       20,000,000       A         Qualified expenditure limit                | Part 2 – Qualified expenditure limit for the tax year —  |
|---|--|
| complete Part 3 and enter on line 205 the expenditure limit allocated to the corporation in column 310 in Part 3.         Qualified expenditure limit       20,000,000 A         If the tax year is 51 weeks or more, enter amount A on line 210.         If the tax year of the filing corporation is less than 51 weeks, complete the following proration calculation:         days in the tax year         Amount A       20,000,000 ×         365 | Was the corporation associated at any time in the tax year with another corporation?                           |
| If the tax year is 51 weeks or more, enter amount A on line 210.<br>If the tax year of the filing corporation is less than 51 weeks, complete the following proration calculation:<br>$\begin{array}{c} days in the \\ tax year \\ Amount A \underline{20,000,000} \times \underline{366} = \dots & B \end{array}$  |  |
| If the tax year of the filing corporation is less than 51 weeks, complete the following proration calculation:<br>$\begin{array}{c} days in the \\ tax year \end{array}$ Amount A <u>20,000,000</u> × <u>366</u> = B  | Qualified expenditure limit  |
| $\begin{array}{c} \text{days in the} \\ \text{tax year} \\ \text{Amount A} \underline{20,000,000} \times \underline{366} \\ 365 \end{array} = \dots \dots \underline{365} \\ \text{B} \\ \end{array}$   | If the tax year is 51 weeks or more, enter amount A on line 210.   |
| Amount A $20,000,000 \times \frac{366}{365} = \dots B$ B  | If the tax year of the filing corporation is less than 51 weeks, complete the following proration calculation: |
| 365   |  |
| Qualified expenditure limit for the tax year (amount A or amount B, whichever applies)  |  |
|   | Qualified expenditure limit for the tax year (amount A or amount B, whichever applies)                         |

#### Part 3 – Allocation of the \$20 million expenditure limit between associated corporations -

Use this part to allocate the \$20 million expenditure limit to the filing corporation and all its associated corporations for each of their tax years ending in the calendar year. See subsection 38(4) of Ontario Regulation 37/09 for expenditure limit allocation rules for associated corporations. Attach additional schedules if you need more space.

|      | Name of all associated corporations, including the filing corporation (include the associated corporations that have a tax year that ends in the calendar year) | Business Number<br>(enter "NR" if corporation<br>is not registered) | Expenditure limit allocated |   |
|------|---|---|-----------------------------|---|
|      | 300   | 305   | 310                         |   |

## **SCHEDULE 569**

### ONTARIO BUSINESS-RESEARCH INSTITUTE TAX CREDIT CONTRACT INFORMATION

| Name of corporation                   | Business Number | Tax year-end<br>Year Month Day |
|---------------------------------------|-----------------|--------------------------------|
| TORONTO HYDRO-ELECTRIC SYSTEM LIMITED |                 | 2016-12-31                     |

- Use this schedule to support your claim for the Ontario business-research institute tax credit (OBRITC), which is made on Schedule 568, Ontario Business-Research Institute Tax Credit. Complete a separate Schedule 569 for each eligible contract.
- The OBRITC is a 20% refundable tax credit based on qualified expenditures incurred in Ontario under an eligible contract with an eligible research institute (ERI). An ERI, for purposes of the OBRITC, is defined in subsection 97(27) of the *Taxation Act, 2007* (Ontario).
- A list of eligible research institutes and the applicable ERI codes for eligible contracts can be found on our web site. Go to www.cra.gc.ca/ctao and select "business-research institute tax credit".
- The eligibility requirements in Part 2 of this schedule must be met for the qualifying corporation to claim an OBRITC for this contract.
- Eligible contracts entered into before August 10, 2007 were subject to advanced ruling legislation. OBRITC claims relating to one of these contracts must have the corresponding Ontario Ministry of Revenue ruling reference number entered at line 130 in Part 1 of this schedule.
- Corporations can only claim the OBRITC for the number of days in the tax year that the corporation was not connected to the ERI. Connected corporations, for the purposes of the OBRITC, are defined in subsection 97(4) of the *Taxation Act*, 2007 (Ontario).
- Eligible contracts and qualified expenditures are defined in subsections 97(6) and 97(8), respectively, of the Taxation Act, 2007 (Ontario).
- According to subsections 97(16) and (19) of the *Taxation Act, 2007* (Ontario), qualified expenditures must be reduced by contributions the corporation received, is entitled to receive or may reasonably expect to receive. Qualified expenditures include repayment of government assistance made by the corporation during the year. Contribution and government assistance are defined in subsection 97(27) of the *Taxation Act, 2007* (Ontario).
