---

On August 23, 2018, the Ontario Energy Board (OEB) issued a Notice of Revised Proposed Amendments to the Transmission System Code (TSC) and the Distribution System Code (DSC) which are aimed at ensuring the cost responsibility provisions for load customers are better aligned and facilitate the implementation of regional plans.

The due date for written comments on the revised proposed Code amendments, as currently set out in the August 23<sup>rd</sup> Notice, is September 13, 2018.

On September 4, 2018, the OEB received a request from the Association of Major Power Consumers in Ontario (AMPCO) for an additional week to provide comments.

The OEB has considered the request and will extend the period for comments by one week. This extension applies to all participants in this consultation. **The revised due date is September 20, 2018.**

If you have any questions, please contact Chris Cincar at [Chris.Cincar@oeb.ca](mailto:Chris.Cincar@oeb.ca) or at 416-440-7696.

Yours truly,
