

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*; and

AND IN THE MATTER OF an Application by Hydro One Networks Inc. for leave to construct a transmission line for the Lake Superior Link project

AFFIDAVIT OF SERVICE OF LINDA GIBBONS (SWORN SEPTEMBER 12, 2018)

I, Linda Gibbons, of the City of Toronto, make oath and say:

1. I am employed as a Senior Regulatory Coordinator in the Regulatory Affairs Division of Hydro One Networks Inc. ("Hydro One").
2. In accordance with the Ontario Energy Board's letter of direction dated August 9, 2018 (Direction), a copy of the Notice of Hearing for application EB-2017-0364 filed by Hydro One for leave to construct a transmission line (Notice) attached as Exhibit 'A' was sent by registered mail on August 16, 2018 to the following:
 - a) The parties listed in paragraphs 2a) and 2e) of the Direction as shown in Exhibit "B";
 - b) The parties listed in paragraphs 2b) of the Direction as shown in Exhibit "C";
 - c) The parties listed in paragraphs 2c) of the Direction as shown in Exhibit "D";
 - d) The parties listed in paragraphs 2d) of the Direction as shown in Exhibit "E";
 - e) The parties listed in paragraphs 2f) of the Direction as shown in Exhibit "F";
 - f) The parties listed in paragraphs 2g) of the Direction as shown in Exhibit "G";
 - g) The parties listed in paragraphs 2h) of the Direction as shown in Exhibit "H"; and
 - h) The parties listed in paragraphs 2i) of the Direction as shown in Exhibit "I".
3. A copy of the shipping manifest showing proof of service for the Notices served on August 16, 2018, is included at Exhibit "J".

4. In accordance with paragraph 3 of the Direction, the Notice was posted on the Hydro One website on August 23, 2018, for public review at <https://www.HydroOne.com/aboutHydroOne/RegulatoryInformation/oebapplications>, as shown in Exhibit "K".

AFFIRMED before me)
at the City of Toronto in the)
Province of Ontario)
this 12th day of September, 2018)

Notice of Hearing

**Hydro One Networks Inc.'s Application for Leave to Construct a Transmission Line - Lake Superior Link Project
EB-2017-0364**

This Notice of Hearing package is to inform you that Hydro One Networks Inc. (Hydro One) has applied to the Ontario Energy Board (OEB) for permission to expand the electricity transmission network in the area between Wawa and Thunder Bay. This involves the construction of approximately 400 kilometres of 230 kilovolt overhead electricity transmission line ("Lake Superior Link") connecting Lakehead Transformer Station (TS) in the Municipality of Shuniah and Wawa TS just outside of the Municipality of Wawa. Hydro One is also asking the OEB to approve the form of agreement it offers to landowners to use their land for routing or construction of the proposed Lake Superior Link project.

The Independent Electricity System Operator's (IESO) *Updated Assessment of the Need for the East-West Tie Expansion, 2017* states that a new transmission line "...continues to be the recommended alternative to maintaining a reliable and cost-effective supply of electricity in Northwestern Ontario for the long term."

The OEB will hold a public hearing to consider Hydro One's requests. During this hearing, the OEB will consider evidence and arguments by Hydro One and by individuals, municipalities, Indigenous communities and others whose interests may be affected.

You may wish to take a more active role in the hearing. Please see the attached information for how to become involved. Hydro One's application and evidence are available under "EB-2017-0364 – Hydro One Networks Inc.'s Section 92 – Lake Superior Link Project" for review online at the following:

<https://www.hydroone.com/abouthydroone/RegulatoryInformation/oebapplications>

Sincerely,

A handwritten signature in cursive script, appearing to read "Linda Gibbons".

SIGNED BY LINDA GIBBONS

Attach.

ONTARIO ENERGY BOARD

In the matter of the *Ontario Energy Board Act, 1998*;

And in the matter of an Application by Hydro One Networks Inc. pursuant to s. 92 of the *Act* for an Order or Orders granting leave to construct new transmission facilities ("Lake Superior Link") in northwestern Ontario

And in the matter of an Application by Hydro One Networks Inc. pursuant to s. 97 of the *Act* for an Order granting approval of the forms of the agreement offered or to be offered to affected landowners

APPLICATION

The Applicant is Hydro One Networks Inc. ("Hydro One"), a subsidiary of Hydro One Inc. Hydro One is Canada's largest electricity transmission and distribution service provider - transmitting and distributing electricity across Ontario. Hydro One's history of providing the residents and businesses of Ontario with reliable electricity service dates back over 110 years to 1906, when the Ontario Legislature enacted the *Power Commission Act*, establishing the then Hydro-Electric Power Commission of Ontario.

Hydro One Inc.'s transmission business consists of the transmission system owned and operated by Hydro One, a 66% interest in B2M Limited Partnership ("B2M LP"), a limited partnership between Hydro One Inc. and the Saugeen Ojibway Nation in respect of the Bruce-to-Milton transmission line, and Hydro One Sault Ste. Marie LP, which owns and operates transmission facilities located on the eastern shore of Lake Superior, north and east of Sault Ste. Marie, Ontario. These interests account for over 98% of Ontario's transmission capacity.

Hydro One's distribution businesses distribute electricity to over 1.3 million residential and business customers, covering approximately 75 per cent of the geographic area of Ontario, including Northern Ontario. Hydro One also distributes electricity to 21 communities in the most northern parts of the province. These remote communities are isolated and scattered, some accessible only by aircraft.

This leave to construct application is being brought forward by Hydro One's transmission business. For the remainder of this Application, Hydro One's transmission business will be referred to as Hydro One for ease of reference.

Hydro One is proposing to build the Lake Superior Link for \$636.2M with ongoing OM&A costs of \$1.5M. Relative to the alternative proposal currently before the Board, this Project provides the following benefits to ratepayers:

- Capital savings of \$120M;
- Annual OM&A savings of \$3.2M;
- Average annual revenue requirement savings of \$13M; and
- Network pool rate savings of \$0.06/kw/month

These high-level financial benefits as well as other socio-economic and environmental benefits of this Project are discussed throughout this Application.

1.0 POLICY, DIRECTION & OEB STATUTORY OBJECTIVES

EB-2010-0059, the OEB Policy: Framework for Transmission Project Development Plans (the "Policy") articulates that competition in transmission in Ontario supports economic efficiency for the benefit of ratepayers.

1 *In developing this policy, the Board is guided by its objectives in relation*
2 *to the electricity sector under the Ontario Energy Board Act, 1998 (the*
3 *“OEB Act”). Of particular relevance in this instance are the objectives of*
4 *protecting the interests of consumers with respect to price, quality and*
5 *reliability of electricity supply and facilitating economic efficiency in the*
6 *development of the transmission system including the maintenance of a*
7 *financially viable electricity industryWithin the context of transmission*
8 *investment policy, economic efficiency can be understood to mean*
9 *achieving the expansion of the transmission system in a cost effective and*
10 *timely manner to accommodate the connection of renewable energy*
11 *sources*¹

12
13 The assessment of how all Ontario ratepayers fund the overall needs of the Ontario
14 transmission system is critical to the OEB statutory objective of protecting the interests
15 of customers with respect to prices, and the reliability and quality of electricity service.

16
17 The Ontario Government issued an Order-in-Council (see **Exhibit B, Tab 1, Schedule 1,**
18 **Attachment 1**) in March 2016, declaring that the East-West Tie Project is needed as a
19 priority project. The Hydro One Lake Superior Link Project that is the subject of this
20 Application substantially² satisfies the needs identified by the Order-in-Council³:
21 specifically, the necessary expansion of Ontario's transmission system in order to
22 maintain a reliable and cost-effective supply of electricity in the Province's Northwest,
23 increase operational flexibility, reduce congestion payments and remove a barrier to
24 resource development in the region.

¹ EB-2010-0059 – OEB Policy: Framework for Transmission Project Development Plans – August 26, 2010 – Page 3

² Hydro One will not meet the Order-in-Council's recommended in service date of 2020. See Exhibit B, Tab 11, Schedule 1 for further details.

³ Exhibit B, Tab 1, Schedule 1, Attachment 1

1 The Policy contemplates that another transmitter may bring a leave to construct
2 application for a different project that meets the same need in a better way⁴. Hydro
3 One's Lake Superior Link Project will ensure that the transmission system needs of
4 Ontario are met, as Hydro One has done for well over 100 years and will do so by saving
5 Ontario ratepayers on average \$13 million in annual revenue requirement charges
6 relative to the NextBridge proposal. Hydro One forecasts that its capital and OM&A
7 costs will be, respectively, \$120 million and \$3.2 million per year⁵ lower than
8 NextBridge's costs. These reduced costs are materialized by a narrower and shorter
9 route alternative and by using Hydro One's existing OM&A processes and infrastructure.
10 Further, Hydro One's existing facilities allows Hydro One to minimize the necessary
11 corridor width for the Lake Superior Link Project and provides Hydro One the ability to
12 go through Pukaskwa National Park, thus reducing development of greenfield areas
13 which is well-aligned with Ontario's Provincial planning objectives. In totality, this
14 Application not only provides these significant environmental benefits, but also
15 illustrates that pursuing the Lake Superior Link Project facilitates economic efficiency in
16 the development of the transmission system, consistent with the intent of the Policy.
17 Hydro One, as the owner of the existing EWT line, can add substantial value to this
18 Project that will benefit both the environment and Ontario ratepayers, as such the
19 company, sees an opportunity to submit a leave to construct application to the OEB
20 seeking approval to construct the Project.

21
22 Hydro One is applying to construct, own, and maintain the new high voltage
23 transmission line, the Lake Superior Link Project, stretching from Hydro One's Wawa
24 Transformer Station ("TS") in Wawa, Ontario, to Hydro One's Marathon TS in Marathon,
25 Ontario, and ultimately terminating at Hydro One's Lakehead TS near Thunder Bay,

⁴ EB-2010-0059 - OEB Policy: Framework for Transmission Project Development Plans – August 26, 2010 – Page 17

⁵ EB-2017-0182 – Exhibit I.B.NextBridge.STAFF.30 – January, 25, 2018 - Savings is relative to the updated NB OM&A costs of \$4.7M per year identified in this interrogatory response-

1 Ontario. The new high-voltage line is required to be double circuit, 230kV and have a
2 total transfer capacity of 450MW by 2020 rising to 650MW when the need arises.
3 Further information on the need for this Project is provided in **Exhibit B, Tab 3, Schedule**
4 **1** including the latest Needs Assessment Review completed by the IESO⁶.

6 **2.0 BACKGROUND**

7
8 In 2012, the OEB initiated a competitive proceeding to designate an electricity
9 transmitter to undertake the development work for the new East-West Tie Line. Six
10 transmitters, including EWT LP, a partnership⁷ of Hydro One Inc., Great Lakes Power
11 Transmission EWT LP, and Bamkushwada LP, applied to complete the development
12 work associated with this line. In 2013, Upper Canada Transmission, Inc. [operating as
13 NextBridge Infrastructure (“NextBridge”)] was chosen as the proponent to complete the
14 development work of the new transmission line based on an indicative price to build the
15 line and other conditions, including a forecast price for the development work.

16
17 As part of the development work, NextBridge proceeded with the preparation and
18 completion of an Individual Environmental Assessment (“Individual EA”) under Ontario’s
19 *Environmental Assessment Act*, which is still awaiting Ministry of Environment and
20 Climate Change (“MOECC”) approval. In parallel, NextBridge has also applied to the OEB
21 for leave to construct the East-West Tie Line⁸.

22
23 Hydro One, as the incumbent transmitter and owner of the existing East-West Tie line,
24 has always had an interest in the development of this line. Hydro One has been
25 following the development work associated with this Project closely. NextBridge’s leave

⁶ Exhibit B, Tab 2, Schedule 1, Attachment 2

⁷ This partnership has since been dissolved, but Hydro One Networks Inc., owned by Hydro One Inc., is making this leave to construct application to benefit all Ontario ratepayers.

⁸ EB-2017-0182

1 to construct application requests approval for costs to construct the East-West Tie Line
2 that substantially exceed the costs submitted by NextBridge in the designation
3 proceeding. NextBridge's Application and quarterly reporting also indicates that
4 development costs are expected to increase by an additional \$20.4⁹ million over the
5 \$22.4 million allowed in the designation process. As a result of what the Minister of
6 Energy described as a "significantly higher" cost estimate filed with the OEB by
7 NextBridge, the Ministry of Energy asked the IESO to update the Needs Assessment of
8 the Project¹⁰ and confirm whether the Project is still needed. In light of the disclosure of
9 NextBridge's substantially higher cost to construct the designated line, Hydro One felt
10 compelled, on behalf of Ontario's ratepayers, to assess its own ability to construct a
11 more cost-effective solution. On December 1, 2017 the IESO reconfirmed the need for
12 the East West Tie line¹¹.

13
14 As the line is still required, Hydro One believes it can construct it in a more economically
15 efficient manner. Hydro One is confident in its ability to deliver the Project for \$120
16 million less than NextBridge's submitted price primarily due to a more efficient route
17 which is 10% shorter, traversing through the Pukaskwa National Park parallel to existing
18 Hydro One infrastructure as well as an optimized tower design to reduce material and
19 construction costs. In addition to the forecast cost savings, the Lake Superior Link is
20 expected to have significantly less impact on land use and environmental conditions in
21 northwestern Ontario than the alternative, consistent with government policies.

⁹ EB-2015-0216 NextBridge EWT Monthly Report – October 23, 2017 – Page 8, Table 1: Development costs are now estimated at \$42,768,001

¹⁰ Exhibit B, Tab 3, Schedule 1, Attachment 1

¹¹ Exhibit B, Tab 2, Schedule 1, Attachment 2

3.0 Description and Benefits of Lake Superior Link Project

3.1 Project Description

As described in **Exhibit B, Tab 2, Schedule 1**, Hydro One has divided the Lake Superior Link Project into two geographic segments: Lakehead to Marathon and Marathon to Wawa.

Section 1: Lakehead - Marathon Transmission Line

- Hydro One will install a new 235 km, 230 kV double-circuit transmission line on a new ROW generally parallel to the existing Hydro One 230 kV transmission line with the exception of a 57 km greenfield bypass around the communities of Loon Lake and Dorion, with a summer rating of 1120 Amperes (466 Megavolt Ampere at 240 kV operating voltage) per circuit;
- Hydro One will also install an Optical Ground Wire (“OPGW”) and alumoweld skywire on the new transmission line.

Hydro One will move a 2-3 km length of Hydro One’s existing 115 kV Marathon-Terrace Bay transmission line T1M, at two locations (one located about 23 km, and the other about 38 km, west of Marathon TS) away from the existing 230 kV line, to avoid crossing the new 230 kV Wawa-Marathon transmission line. These relocated sections will maintain their configuration and conductors post-relocation. In the future, when the need for 650 MW east-west transfer capability materializes, Hydro One will upgrade sections of the existing 115 kV Alexander-Aguasabon transmission line A5A and Marathon-Terrace Bay transmission line T1M by modifying the cross-arms and/or insulators on some of the structures of these two lines.

Section 2: Marathon - Wawa- Transmission Line

- For two sections of the line outside Pukaskwa National Park, Hydro One will install a new 230 kV double-circuit transmission line, 133 km in total, on a new Right-Of-Way ("ROW") parallel to the existing Hydro One 230 kV transmission line, with the summer rating of 1120 Ampere (466 MegaVolt Ampere at 240 kV operating voltage) per circuit;
- For the section inside Pukaskwa National Park, Hydro One has engaged in preliminary discussions regarding the Lake Superior Link route with Parks Canada, who currently have no objections to Hydro One's proposed route, and have agreed to work with Hydro One on environmental impact mitigation and approvals moving forward. Hydro One is proposing to convert approximately 35 km of the existing 230 kV double-circuit transmission line by upgrading to a four-circuit transmission line (replace the existing double circuit towers with four circuit guyed towers and add conductors and insulators for the two new circuits) on the existing ROW, with the summer rating of 1120 Amperes (466 MV and 240 kV operating voltage) for each of the new circuits;
- Hydro One will also install an OPGW and alumoweld skywire on the new and converted sections of the transmission line.

The proposed in-service date of the Lake Superior Link Project is December 2021, assuming a construction commencement date of July 2019¹². Hydro One understands that the Order-in-Council requested an in-service date of December 2020; however, Hydro One believes that the benefits that will be described throughout this Application are significant enough to ratepayers to substantiate a one-year delay. Hydro One believes that, considering the low probability of coincidental events resulting in a capacity shortfall, this delay is manageable through existing operational practices.

¹² Contingent upon receiving all necessary approvals, including MOECC and OEB.

Further information on this, as well as on the Project schedule, is provided at **Exhibit B, Tab 11, Schedule 1**.

3.2 Project Route and Land Rights

The route Hydro One is proposing to follow for this Project is generally similar to that proposed by NextBridge in that it begins outside Hydro One's Lakehead TS, then crosses or travels close by the municipalities/townships of Thunder Bay, Shuniah, Red Rock, Nipigon, Schreiber, Terrace Bay, Marathon, Pays Plat First Nation, to the Marathon TS, and then continues on through Marathon, Algoma, Wawa, and Michipicoten First Nation before terminating at Wawa TS. The most notable deviation between the two routes is that Hydro One will be using its existing ROW and infrastructure to avoid any greenfield construction around Pukaskwa National Park. This will result in a total line reduction of approximately 45km which reduces the capital costs of the Project and contributes to the cost savings realized by pursuing the Lake Superior Link Project – ultimately to the benefit of ratepayers. Please see **Exhibit, C, Tab 1, Schedule 1** for further information.

Additionally, Hydro One's proposed route will make use of Hydro One's existing land rights that go through Pukaskwa National Park and will therefore not impact any landowners in the Township of White River. Any land rights that need to be negotiated will be done by using the forms provided in **Exhibit E, Tab 1, Schedule 1** of this Application. As a result, this Application is also requesting approval of the forms of the agreement offered or to be offered to affected landowners, pursuant to s. 97 of the Act. These agreements are in the same form as previously approved by the OEB in recent leave to construct applications¹³.

¹³ EB-2013-0053, EB-2013-0421, EB-2016-0325,

3.3 Environmental Benefits and Status

NextBridge has filed an Individual EA with the MOECC and is preparing to submit an EA amendment. In order for Hydro One to deliver the Project in 2021 at the cost included in this Application, it would be necessary for Hydro One and MOECC to work collaboratively to implement a regulatory measure such as a Cabinet exemption to typical EA requirements. This regulatory measure would allow Hydro One to utilize the EA-specific development work, already completed by NextBridge, and address changes in the proposed route through additional study, consultation and regulatory approval.

The Policy ensured recovery of the designated transmitter's development budget as approved in its initial proposal. In providing this assurance, the OEB indicated that the burden is on Ontario ratepayers to fund this cost if for some reason the designated transmitter does not in fact construct the project.

If a designated transmitter had development costs but did not construct the facilities, those costs could be converted into a regulatory asset for rate recovery. The regulatory asset would create a revenue requirement that would be added to the total provincial transmission revenue requirement and included in the calculation of the UTR. Then, the IESO would bill all transmission customers, collect the revenues and remit the appropriate amount to the designated transmitter¹⁴.

Hydro One submits that since this asset (the development work) is now in principle owned by all transmission customers, and since the Lake Superior Link Project will provide substantial benefit to those same customers, the Individual EA and associated studies, which will ultimately be paid for by Ontario ratepayers, should be made available for use by the transmitter whose leave to construct application is approved.

¹⁴ EB-2010-0059 - OEB Policy: Framework for Transmission Project Development Plans – August 26, 2010 – Page 21

Hydro One's application provides many environmental benefits in addition to providing economic benefits. The environmental benefits are discussed in **Exhibit C, Tab 1, Schedule 1**.

3.4 Project Costs and Ratepayer Benefit

Hydro One's forecast cost to complete the Lake Superior Link Project is \$636.2 million as compared to NextBridge's forecast cost of \$757.3 million (\$779.7¹⁵ million less \$22.4 million development costs approved in the designation hearing). Details on the cost components of this Project are included in **Exhibit B, Tab 7, Schedule 1**. In addition to the capital cost savings, ongoing OM&A costs are forecast to be \$1.5 million annually as compared to NextBridge's \$4.7 million annually. Together, these cost savings provided by Hydro One allow Ontario ratepayers to save on average approximately \$13 million annually on Network Pool Transmission charges (see **Exhibit B, Tab 9, Schedule 1** for further detail on Project Economics).

3.5 Indigenous and Community Communications

Hydro One recognizes the importance of First Nation and Métis engagement in connection with the Project. Hydro One has strong existing relationships with these Indigenous Communities across the Province including the six directly impacted First Nation communities. Hydro One has a well-established engagement process, outlined in **Exhibit H, Tab 1, Schedule 1**, which will be implemented if Hydro One is designated to construct the line. Hydro One will explore and discuss various participation benefits with the impacted Indigenous Communities, including equity partnerships. Hydro One does not want to interfere with any contracts entered into between First Nations and

¹⁵ Construction Cost of \$736.97M + Development \$42.77M)

1 NextBridge for land rights. As such, Hydro One requests that upon approval of this
2 Application, that the OEB allows Hydro One a minimum of 45 days to negotiate any
3 necessary agreements with Indigenous Communities.

4
5 Hydro One believes that engaging the local community and understanding local
6 concerns is crucial to the success of a capital project. Once this Application is filed with
7 the OEB, Hydro One will initiate its consultation process as described in **Exhibit H, Tab 1,**
8 **Schedule 2.**

9
10 **3.6 Other**

11
12 Information on the status of the System Impact and Customer Impact Assessments is
13 found in **Exhibit F, Tab 1, Schedule 1** and **Exhibit G, Tab 1, Schedule 1** respectively.

14
15 This Application is supported by written evidence which includes details of the
16 Applicant's proposal for the transmission station work. The written evidence is prefiled
17 and may be amended from time to time prior to the Board's final decision on this
18 Application.

19
20 Given the information provided in the prefiled evidence, Hydro One submits that the
21 Project is in the public interest. The East-West Tie Line is a Government of Ontario
22 priority project to support expansion of transmission infrastructure in northwestern
23 Ontario.

24
25 Hydro One requests a written hearing, in English, for this proceeding. Hydro One
26 requests that a decision on this Application be provided by October, 2018.

27 Hydro One requests that a copy of all documents filed with the Board be served on the
28 Applicant and the Applicant's counsel, as follows:

ONTARIO ENERGY BOARD NOTICE

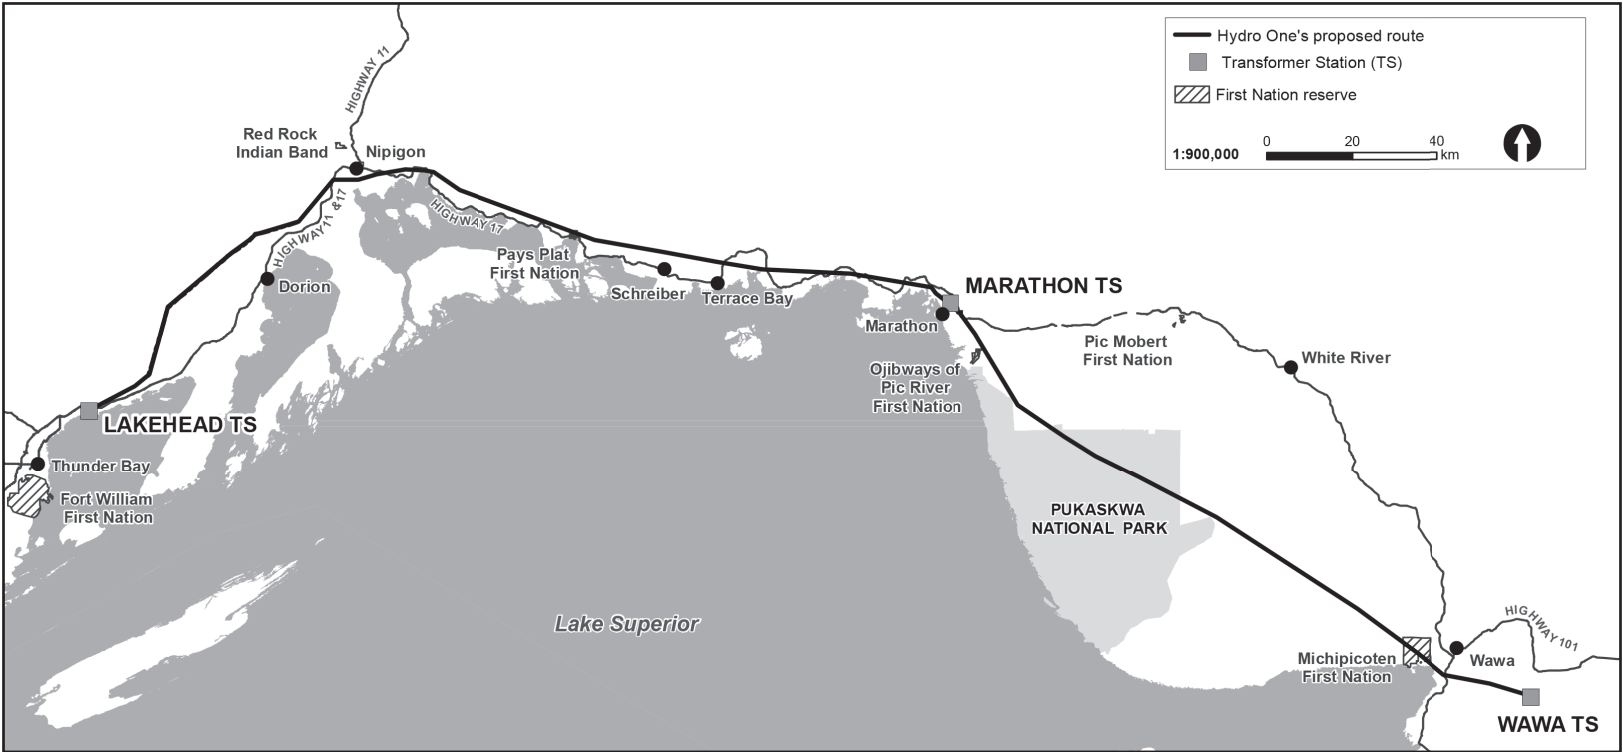

Hydro One Networks Inc. has applied to the Ontario Energy Board to build a high-voltage transmission line.

Learn more.

Hydro One Networks Inc. is asking the Ontario Energy Board (OEB) for permission to expand the electricity transmission network in the area between Wawa and Thunder Bay. This involves the construction of approximately 403 kilometres of 230 kilovolt overhead electricity transmission line connecting Lakehead Transformer Station and Wawa Transformer Station (Lake Superior Link Project).

Hydro One Networks Inc. is also asking the OEB to approve the form of agreement it offers to landowners to use their land for routing or construction of the proposed Lake Superior Link Project.

A map of the proposed route for the transmission line is below.

THE OEB IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider Hydro One Networks Inc.’s requests. During this hearing, the OEB will consider evidence and arguments by Hydro One Networks Inc. and by individuals, municipalities and others whose interests would be affected.

The OEB hearing will consider specific issues determined by law. The *Ontario Energy Board Act, 1998* (the Act) specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what these issues are.

As required by the Act, the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- The promotion of the use of renewable energy sources in a manner consistent with the policies of the Government of Ontario; and
- The form of agreement that Hydro One Networks Inc. offers to landowners affected by the route or location of the transmission line.

The Lieutenant Governor in Council made an order effective March 4, 2016 declaring that the expansion or reinforcement of the electricity transmission network in the area between Wawa and Thunder Bay is needed as a priority project (Priority Project Designation). The Priority Project Designation affects the OEB’s review of an application for leave to construct an electricity transmission line. In particular, the OEB is required to accept that the construction is needed when it considers the three issues listed above. The Priority Project Designation is available under the “Priority Transmission Projects” section on the OEB’s website: <https://www.oeb.ca/industry/policy-initiatives-and-consultations/priority-transmission-projects>

The OEB hearing is not the only approval process required before a line is built. For example, most transmission lines are subject to the Ministry of the Environment, Conservation and Parks’ environmental assessment process. The OEB’s review will only address the three issues outlined above and will not address other matters, such as environmental, health, aesthetics or property value impacts.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding **Hydro One Networks Inc.’s** application

and to be involved in the process.

- You can view Hydro One Networks Inc.’s application on the OEB’s website now.
- You can file a letter with your comments, which will be considered during the hearing.
- You can ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by **Hydro One Networks Inc.** (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by **September 4, 2018.**

LEARN MORE

Our file number for this case is **EB-2017-0364**. To learn more about this hearing, find instructions on how to file letters or become an intervenor, or to read the documents related to this case, please enter the File No. **EB-2017-0364** on the OEB website: www.oeb.ca/noticeltrc. You can also phone our Consumer Relations Centre at 1-877-632-2727 with any questions.

ORAL AND WRITTEN HEARINGS

There are two types of OEB hearings – oral and written. The OEB will determine later in the process whether to hold an oral or a written hearing in this case. If you think an oral hearing is needed, you can write to the OEB to explain why by **September 4, 2018.**

PRIVACY

If you write a letter with your comments, your name and the content of your letter will be put on the OEB’s public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This hearing will be held under sections 92 and 97 of the Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B.

Hydro One Networks Inc. a déposé une requête auprès de la Commission de l'énergie de l'Ontario en vue de construire une ligne de transport à haute tension.

Apprenez-en plus.

Hydro One Networks Inc. demande à la Commission de l'énergie de l'Ontario (CEO) l'autorisation d'étendre le réseau de transport d'électricité dans la zone située entre Wawa et Thunder Bay. Ce projet comprend la construction d'une ligne de transport d'électricité aérienne de 230 kilovolts et d'environ 403 kilomètres reliant le poste de transformation de Lakehead et le poste de transformation de Wawa (projet de liaison du lac Supérieur).

Hydro One Networks Inc. demande également à la CEO d'approuver la forme de l'entente qu'elle propose aux propriétaires fonciers afin d'utiliser leurs terres pour le tracé ou la construction du projet de liaison du lac Supérieur.

Un plan du tracé de la ligne de transport est disponible ci-dessous.

LA CEO TIENDRA UNE AUDIENCE PUBLIQUE

La CEO tiendra une audience publique afin d'étudier les demandes d'Hydro One Networks Inc. Au cours de cette audience, la CEO prendra en compte les preuves et arguments apportés par Hydro One Networks Inc., ainsi que par les particuliers, les municipalités et toute autre partie, dont les intérêts sont visés.

L'audience de la CEO portera sur des éléments précis déterminés par la loi. La Loi de 1998 sur la Commission de l'énergie de l'Ontario (la Loi) précise les éléments que la CEO doit prendre en compte avant de prendre sa décision. Si vous souhaitez participer à l'audience de la CEO, il est important que vous compreniez quels sont ces éléments.

Conformément à la Loi, la CEO prendra en compte les trois éléments suivants :

- Les intérêts des consommateurs en ce qui concerne les prix ainsi que la fiabilité et la qualité du service d'électricité;
- La promotion de l'utilisation des sources d'énergie renouvelables conformément aux politiques du gouvernement de l'Ontario; et
- La forme de l'entente proposée aux propriétaires fonciers affectés par le tracé ou l'emplacement de la ligne de transport.

Le lieutenant-gouverneur en conseil a pris un décret le 4 mars 2016 indiquant que l'expansion ou le renforcement du réseau de transport d'électricité dans la zone entre Wawa et Thunder Bay est un projet prioritaire (désignation de projet prioritaire). La désignation de projet prioritaire influe sur l'examen d'une demande d'autorisation de construction d'une ligne de transport d'électricité auquel procède la CEO. Plus particulièrement, la CEO est tenue d'accepter le caractère nécessaire de la construction lorsqu'elle prend en compte les trois éléments susmentionnés. La désignation de projet prioritaire est disponible (en anglais) dans la section « Projets prioritaire - transport d'électricité » du site Web de la CEO : <https://www.oeb.ca/fr/industrie/initiatives-et-consultations/projets-prioritaires-transport-delectricite>

En plus de l'audience de la CEO, d'autres processus sont requis avant de pouvoir construire une ligne. Par exemple, la plupart des lignes de transport doivent être soumises au processus d'évaluation environnementale du ministère de l'Environnement, de la Protection de la nature et des Parcs. L'examen de la CEO ne portera que sur les trois éléments susmentionnés et ne portera pas sur d'autres éléments comme les répercussions sur l'environnement, la santé, l'esthétique ou la valeur des propriétés.

La Commission de l'énergie de l'Ontario est une agence publique indépendante et impartiale. Les décisions que nous prenons visent à servir au mieux l'intérêt public. Notre objectif est d'encourager le développement d'un secteur de l'énergie efficace et financièrement viable, afin d'offrir des services énergétiques fiables à un prix raisonnable.

INFORMEZ-VOUS ET DONNEZ VOTRE AVIS

Vous avez le droit d'être informé relativement à la requête concernant **Hydro One Networks Inc.** et de participer au processus.

- Vous pouvez examiner la requête d'Hydro One Networks Inc. sur le site Web de la CEO dès maintenant.
- Vous pouvez déposer une lettre de commentaires qui sera prise en compte au cours de l'audience.
- Vous pouvez demander à la CEO la permission de participer activement à l'audience (à titre d'intervenant). Les intervenants peuvent fournir des preuves, défendre leur position et soumettre des questions pertinentes auxquelles **Hydro One Networks Inc.** devra répondre (interrogatoires). Pour obtenir le statut d'intervenant, une partie doit être affectée par la ligne de transport de façon directement liée aux éléments qui seront pris en compte par la CEO. Si vous souhaitez agir à titre d'intervenant, la CEO doit recevoir votre demande avant le **4 septembre 2018**.

APPRENEZ-EN PLUS

Notre numéro de dossier pour cette affaire est **EB-2017-0364**. Pour obtenir de plus amples renseignements sur cette audience, sur les démarches à suivre pour déposer une lettre ou participer en tant qu'intervenant, ou pour consulter les documents relatifs à ce dossier, veuillez entrer le numéro de référence **EB-2017-0364** sur le site Web de la CEO : <https://www.oeb.ca/fr/participez/applications/requetes-tarifaires-en-cours>. Pour toute question, vous pouvez également communiquer avec notre centre des relations avec les consommateurs au 1 877 632-2727.

AUDIENCES ORALES ET AUDIENCES ÉCRITES

Il existe deux types d'audiences à la CEO : les audiences orales et les audiences écrites. La CEO décidera ultérieurement de traiter l'affaire par voie d'audience orale ou écrite. Si vous pensez qu'une audience orale est nécessaire, faites parvenir vos arguments par écrit à la CEO avant le **4 septembre 2018**.

PROTECTION DES RENSEIGNEMENTS PERSONNELS

Si vous écrivez une lettre de commentaires, votre nom et le contenu de cette lettre apparaîtront dans le dossier public et sur le site Web de la CEO. Toutefois, votre numéro de téléphone, votre adresse et votre adresse électronique ne seront pas rendus publics. Si vous représentez une entreprise, tous les renseignements de l'entreprise demeureront accessibles au public. Si vous participez à titre d'intervenant, tous vos renseignements personnels seront rendus publics.

Cette audience sera tenue en vertu des articles 92 et 97 de la Loi de 1998 sur la Commission de l'énergie de l'Ontario, L.O. 1998, chap. 15 (annexe B).

Subject: EB-2017-0364 - HONI s92 Leave to Construct Lake Superior Link Project - Notice of Application - Field Offices
Date: Thursday, August 23, 2018 9:06:04 AM

On February 15, 2018 and subsequently updated March 29, 2018, Hydro One Networks Inc. filed a Section 92 application with the Ontario Energy Board for leave to construct new transmission facilities ("Lake Superior Link") in northwestern Ontario.

In accordance with the Letter of Direction issued by the Ontario Energy Board on August 9, 2018, Hydro One Inc. has been instructed to make a copy of the Notice, the application and evidence, and any amendments thereto, available for public review at the offices of Hydro One Networks Inc. Please use the following links should a member of the public like to review the Application materials.

<https://www.hydroone.com/abouthydroone/RegulatoryInformation/oebapplications>

The Notices of Application are also available in [English](#), [French](#), [Cree](#) and [Ojibway](#)

If you have any questions or require additional information please contact

Regulatory@HydroOne.com.

Sincerely,

Linda Gibbons
