Re: EB-2018-0243

Fifteen years of (admitted) mismanagement by two successive Liberal cabinets ushered in more than a doubling of electricity rates. Unnecessarily so. Today, we are dealing with it as a legacy issue. OPG, asking for more money, of which of course other bulk suppliers will be watching your decision, is unconscionable. We, the ratepayer did not create the current mess. Why incumbent on us to fix with higher rates? Winter around the corner. Is 2018/19 season latest iteration of "Heat or Eat"? No to the request.
