

**EB-2018-0028**

**Energy+ Inc.**

**Application for electricity distribution rates and  
harmonizing rates and charges in the Cambridge and  
North Dumfries and Brant County service areas  
beginning January 1, 2019**

**PROCEDURAL ORDER NO. 3  
October 5, 2018**

Energy+ Inc. (Energy+) filed a cost of service application with the Ontario Energy Board (OEB) on April 30, 2018 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that Energy+ charges for electricity distribution, to be effective January 1, 2019.

A Notice of Hearing was issued on May 28, 2018 followed by Procedural Order No.1 on July 26, 2018, in which the OEB set out the schedule of procedural steps. In Procedural Order No. 2, issued September 20, 2018, the OEB provided an extension for an intervenor, Toyota Motor Manufacturing Canada Inc. (TMMC), to file written evidence.

TMMC filed the written evidence of Jeffery C. Pollock and the written evidence of Melody Collis (collectively referred to as the written evidence) on September 27, 2018. TMMC requested confidential treatment for portions of the written evidence pursuant to the OEB's *Practice Direction on Confidential Filings* (Practice Direction). TMMC filed redacted versions of the written evidence for the public record of this proceeding and filed un-redacted versions confidentially with the OEB.

In its letter of September 27, 2018, TMMC identified specific portions of the written evidence for which it requested confidential treatment as follows:

## Written Evidence of Jeffery C. Pollock:

1. Various portions throughout the entire document.
2. Schedule JP-1, Derivation of LDG Adjustment
3. Schedule JP-2, Electrical Single-Line Diagram of the Facilities Serving Large Use Customers
4. Schedule JP-3, Direct Assigned Feeder Costs
5. Schedule JP-4, Adjusted 4NCP and NCP Demand Allocation Factors Excluding TMMC
6. Schedule JP-5, Revised Class Cost-of-Service Study<sup>1</sup>
7. Schedule JP-6, Recommended Large Use Rate Design
8. Schedule JP-7, TMMC's Standby Service Requirements
9. Schedule JP-9, Revenues From Recommended Standby Distribution Service Rate

## Written Evidence of Melody Collis:

10. Schedule MC-2, MMC – Energy+ Hydro One Electrical Single Line Connection
11. Schedule MC-3, Aerial View of Connection Configuration
12. Schedule MC-4, Toyota Load Profile

TMMC stated, in its letter of September 27, 2018, that it seeks confidential treatment for the above-noted portions of the written evidence because they comprise commercially sensitive information and contain technical or proprietary data and analysis that have commercial value. The disclosure of the information could adversely affect the economic and/or competitive interests of TMMC and potentially result in undue financial loss.

At this time, the OEB is making provision for written submissions on TMMC's request for confidential treatment of portions of the written evidence. As an interim measure, counsel for intervenors that wish to make submissions on the request for confidentiality shall be granted access to the un-redacted documents provided they have executed the OEB's Declaration and Undertaking by filing it with the OEB with a copy to TMMC.

The OEB considers it necessary to make provision for the following matters related to this proceeding.
