Dear Ms. Walli:

**Re: Independent Electricity System Operator / Hydro One Networks Inc.
Application for Review of NERC Reliability Standard TPL-007-2 – Transmission System
Planned Performance for Geomagnetic Disturbance Events
Ontario Energy Board File No.: EB-2018-0119**

The Independent Electricity System Operator and Hydro One Networks Inc. (together the “Applicants”) have reviewed the submissions of OEB Staff and North American Electric Reliability Corporation (“NERC”) which were filed on September 26, 2018 in accordance with the Ontario Energy Board’s (“OEB”) Procedural Order No. 1.¹ The Procedural Order also allows for reply submissions to be filed by October 10, 2018.

The Applicants are writing to inform the OEB that they do not intend to file a reply submission, as OEB Staff and NERC’s submissions were supportive of the Applicants’ request for a stay.

All of which is respectfully submitted.

Yours truly,

Tam Wagner
