**EXHIBIT 1****NIPIGON LNG PROJECT****ABOUT NIPIGON LNG**

The Project is a regionally significant initiative for the economic development of Northern Ontario with a focus on energy affordability, cost effectiveness, reliability and Indigenous consultation. Project infrastructure will help sustain existing industrial operations, accelerate new development, and provide a platform to extend natural gas service where feasible to Northern and First Nation communities. The Project developer is Nipigon LNG LP, a special purpose limited partnership that is managed by its general partner, Nipigon LNG Corp., a wholly-owned subsidiary of Northeast Midstream Corp. Project funding is being provided, in part, by the Ontario Ministry of Infrastructure under the Natural Gas Grant Program, subject to specified conditions and approvals.

**PROJECT OVERVIEW**

The Project involves the construction and operation of a liquefied natural gas ("LNG") production plant (the "LNG Plant") in the unorganized Township of Ledger, approximately 22 kilometres north of Nipigon, Ontario. The Project includes a proposal to construct a connecting pipeline approximately 500 metres in length and up to NPS 8 inches in diameter (the "Connecting Pipeline") to obtain natural gas from the nearby TransCanada Mainline for liquefaction at the LNG Plant. The sole purpose of the Connecting Pipeline is for the LNG Plant to access natural gas
