Lakeland Power Distribution Ltd.

**Application for electricity distribution rates and other
charges beginning May 1, 2019**

**PROCEDURAL ORDER NO. 1
November 30, 2018**

Lakeland Power Distribution Ltd. (Lakeland Power) filed a cost of service application with the Ontario Energy Board (OEB) on September 27, 2018 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that Lakeland Power charges for electricity distribution, to be effective May 1, 2019.

A Notice of Hearing was issued on October 31, 2018. The School Energy Coalition (SEC) and Vulnerable Energy Consumer Coalition (VECC) applied for intervenor status and cost eligibility.

No objection was received from Lakeland Power.

SEC and VECC are approved as intervenors. The list of parties in this proceeding is attached as Schedule A to this Procedural Order. SEC and VECC are eligible to apply for an award of costs under the OEB's *Practice Direction on Cost Awards*.

Cost eligible intervenors should be aware that the OEB will not generally allow the recovery of costs for the attendance of more than one representative of any party, unless a compelling reason is provided when cost claims are filed.

Being eligible to apply for recovery of costs is not a guarantee of recovery of any costs claimed. Cost awards are made by way of OEB order at the end of a hearing.

Issues List

It is the OEB's expectation that parties will be best positioned to identify issues relevant to Lakeland Power's application after the applicant has responded to interrogatories. Lakeland Power, OEB staff and the intervenors shall develop and OEB staff shall file a proposed issues list for the OEB's consideration. The OEB will approve an issues list prior to the settlement conference.

Interrogatories

At this time, provision will be made for written interrogatories. The OEB will review the single test year application both in the context of the projects and programs that are requested for the test year and from the perspective of the distributor's plans for the subsequent four years until the next scheduled rebasing application.

Parties should examine the value presented by the proposed investments as opposed to focussing only on the costs. Parties should also assess the fit between the applicant's plans and its stated objectives, and consider how the plans contribute to positive outcomes for customers, in particular those outcomes that arise from the asset management decisions reflected in the applicant's distribution system plan. The OEB will consider the entire five year distribution system plan to assess the planning and pacing proposals of the applicant and whether the test year requests are appropriately aligned with the distribution system plan. The OEB will also consider productivity and benchmarking results in assessing cost forecasts, bill impacts and distributor performance.

Parties should not engage in detailed exploration of items that do not appear to be material. Parties should use the materiality thresholds documented in Chapter 2 of the Filing Requirements as a guide. In making its decision on cost awards, the OEB will consider whether intervenors made reasonable efforts to ensure that their participation in the hearing was focused on material issues.

Parties should consult sections 26 and 27 of the OEB's Rules of Practice and Procedure regarding required naming and numbering conventions and other matters related to interrogatories.

Presentation Day

Following the settlement conference, provision will be made for the presentation of any settlement proposal filed by Lakeland Power, whether full or partial, and for the

presentation of any unsettled issues to be adjudicated by the OEB. Lakeland Power's presentation is intended to summarize and provide any salient information for the OEB's consideration in reviewing the settlement proposal. With respect to any unsettled issues, the presentation should focus on how the issues relate to the business conditions Lakeland Power anticipates over the next 5 years, the planning it has undertaken to address system needs and customer preferences, and its proposal regarding how the costs of distributing electricity ought to be recovered from customers through the rates they pay, taking into consideration the OEB's policies. The purpose of the presentation is not to provide an opportunity for cross-examination by the parties, but rather for Lakeland Power to present any settlement and any remaining issues in the case.

It is necessary to make provision for the following matters related to this proceeding. Further procedural orders may be issued by the OEB.

IT IS THEREFORE ORDERED THAT:

1. OEB staff shall request any relevant information and documentation from Lakeland Power that is in addition to the evidence already filed, by written interrogatories filed with the OEB and served on all parties by **January 3, 2019**.
2. Intervenors shall request any relevant information and documentation from Lakeland Power that is in addition to the evidence already filed, by written interrogatories filed with the OEB and served on all parties by **January 7, 2019**.
3. Lakeland Power shall file with the OEB complete written responses to all interrogatories and serve them on the intervenors and OEB staff by **January 31, 2019**.
4. OEB staff shall file a proposed issues list, or, alternatively, shall advise the OEB in writing that the parties and OEB staff have been unable to reach an agreement on a draft issues list by **February 12, 2019**.
5. A settlement conference among the parties and OEB staff will be convened on **February 19, 2019** starting at 9:30 a.m., at 2300 Yonge Street, 25th floor, Toronto. If necessary, the settlement conference will continue on **February 20** and **February 21, 2019**.

6. Any settlement proposal arising from the settlement conference shall be filed with the OEB on or before **March 5, 2019**. In addition to outlining the terms of any settlement, the settlement proposal should contain a list of any unsettled issues, indicating with reasons whether the parties believe those issues should be dealt with by way of oral or written hearing.
7. Any submission from OEB staff on a settlement proposal shall be filed with the OEB and served on all parties by **March 15, 2019**.
8. If there is no settlement proposal arising from the settlement conference, Lakeland Power shall file a statement to that effect with the OEB by **March 12, 2019**. In that event, parties shall file and serve on the other parties by **March 14, 2019** any submissions on which issues shall be heard in writing, and for which issues the OEB should hold an oral hearing.
9. The OEB is setting a tentative date of **March 19, 2019** starting at 9:30 a.m. at 2300 Yonge Street, 25th floor, Toronto, for Lakeland Power to present to the OEB any settlement proposal and a summary of any unsettled issues in the case. OEB staff will, at the direction of the OEB, confirm or amend this date in subsequent correspondence.
