Ms. Kirsten Walli, Board Secretary  
Ontario Energy Board  
P.O. Box 2319

Dear Ms Walli:

**Re: Kingston Hydro Corporation Electricity Distribution Licence No. ED-2003-0057  
2019 Electricity Distribution Rate Application (EB-2018-0047)**

On December 6, 2018, the Ontario Energy Board issued its Draft Decision and Rate Order in the above noted proceeding. Kingston Hydro Corporation has reviewed the Decision and Rate Order for accuracy and completeness and has the following comments to offer:

1. The draft 2019 Tariff of Rates and Charges, Schedule A to the Decision and Rate Order is complete and accurate. Kingston notes though that the 'Allowances' section, currently on page 8 with microFIT charges, has in previous tariffs appeared along with 'Specific Service Charges', page 9.
2. Kingston also notes that in the draft Decision:
  - a. page 5, third paragraph under Section 4. Base Rate Adjustments, the amount of the cost of power update for 2019 should be (\$25,018), and the cumulative impact should be (\$34,093). Reference to these final updated amounts may be found in Kingston Hydro's Follow-up IRRs and update submission dated November 6, 2018, in Appendix D Cumulative COP Table 1.
  - b. page 7, in Table 6.1: Proposed LV Charges, the rate class described as 'General Service 50 to 1,499 kW' should instead be 'General Service 50 to 4,999 kW'.

Yours truly,
