ONTARIO ENERGY BOARD NOTICE TO TRANSMISSION CUSTOMERS OF HYDRO ONE NETWORKS INC.

Hydro One Networks Inc. applied to increase the amount it charges to transmit electricity in Ontario effective January 1, 2019.

Learn more. Have your say.

Hydro One Networks Inc. applied to the Ontario Energy Board to increase the cost of using its transmission system effective January 1, 2019. If the application is approved, a typical residential customer would see an increase of approximately \$0.23 per month.

This application is for a one-year mechanistic adjustment to Hydro One Networks Inc.'s transmission revenue requirement based on certain proposed inflation and productivity factors. The requested increase is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency.

The Ontario Energy Board's decision on this application will have an effect on all electricity consumers in Ontario. The cost of transmission is reflected in the delivery charges included on bills.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider the application filed by Hydro One Networks Inc. During the hearing, we will question Hydro One Networks Inc. on its case for a rate increase. We will also hear questions and arguments from individual customers and from groups that represent Hydro One Networks Inc.'s customers. At the end of this hearing, the OEB will decide what, if any, rate increase will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
