**Re: 2019 Price Cap IR Rates Application – Draft Decision and Order Acceptance  
Board File No.: EB-2018-0024**

Dear Ms. Walli,

Entegrus Powerlines Inc. (“Entegrus”) has reviewed the Draft Decision and Order issued December 7, 2018, in respect of the above noted file. Entegrus confirms that the draft Tariff of Rates and Charges for the Entegrus-St. Thomas rate zone as shown in Schedule A is complete and accurate. Entegrus confirms that the draft Tariff of Rates and Charges for the Entegrus-Main rate zone shown in Schedule B is complete and accurate, with the following exception:

- Appendix B, Page 9 of 13: As originally approved in the Entegrus-Main 2016 Cost of Service (EB-2015-0061), the Standby Power Service Classification is intended to reflect rates for both the General Service > 50 kW and the Large Use rate classes. The Standby Power rates align with the Distribution Volumetric Rate for these classes. Accordingly, Entegrus respectfully requests the Large Use Standby Charge be updated to the 2019 rate of \$2.3622/kW and the General Service > 50 kW Standby Charge description be added as previously approved and rate updated to the 2019 rate of \$3.3573/kW.

Entegrus notes that the LRAMVA amount included in the Entegrus-Main Rate Generator Model on Tab “4. Billing Det for Def-Var” does not tie to the draft decision. The Rate Generator Model currently reflects the originally requested balance of \$152,720. However, updating to the revised amount of \$151,876 does not change the rate class specific rate rider amounts included in the draft Tariff of Rates and Charges for Entegrus-Main. Entegrus respectfully requests the Entegrus-Main Rate Generator Model be updated for alignment purposes upon issuance of the Decision.

If you have any further questions, please do not hesitate to contact me at (519) 352-6300 extension 243 or via email at [regulatory@entegrus.com](mailto:regulatory@entegrus.com).

Sincerely,
