I am a resident of the city of Peterborough. When the proposal of the sale of PDI. was announced both the city and PDI held numerous open house to explain why they were in favour of the sale of PDI. to Ontario Hydro.

There was a suggested price for the sale. Due to the condition of the infrastructure of PDI. the plan was 105,000,000 dollars minus the cost of repairing the infrastructure of PDI.

There was a long period of time till the members of City council on the PDI. board and PDI. worked out the details of this agreement.

Due to the conditions of PDI I feel this a good value for the citizens of Peterborough. There was a poll done on the sale . I do not know who did or paid for this poll.

In my opinion all parties had a chance to view what was going on with the sale. I would recommend that this sale be approved.

Thank You

Bruce Campbell
