Oana Stefan  
Brantford Power Inc.  
84 Market Street, Box 308  
Brantford ON N3T 5N8

Dear Ms. Stefan:

**Re: Brantford Power Inc.  
Application for Rates  
OEB File Number EB-2018-0020**

The OEB issued a Decision and Rate Order in the above-noted proceeding on December 20, 2018 (Decision). Brantford Power Inc. filed its comments regarding the Decision on December 27, 2018, noting that the Decision understated the total bill impact decrease for the typical residential customer.

The OEB is issuing a revised Decision and Rate Order to incorporate this change. The fifth paragraph of page one now reads:

As a result of the OEB's findings in this Decision, there will be a monthly total bill decrease before taxes of **\$1.30** for a residential customer consuming 750 kWh, effective January 1, 2019.

The Decision issued on December 20, 2018 indicated:

As a result of the OEB's findings in this Decision, there will be a monthly total bill decrease before taxes of **\$0.93** for a residential customer consuming 750 kWh, effective January 1, 2019.

In addition, the OEB has revised the Tariff of Rates and Charges to correct the billing determinant for the Capacity Based Recovery (CBR) Class B rider applicable to demand billed customers.

Given these revisions, the OEB agrees with Brantford Power Inc., that it provides the opportunity to update Regulatory Charges and Retail Transmission Service Rates in accordance with other OEB decisions<sup>1</sup> issued on December 20, 2018.

The OEB is issuing a revised Decision and Rate Order, a revised Tariff of Rates and Charges and Rate Generator Model at this time.

Yours truly,
