

FILE # EB-2018-0306

To the members of the Energy Board
of Ontario
re: OEB Hearing re the proposal of
laying a 12" High Speed pressure
line from Beachville station to
the Perth County Border

This proposal will enhance service
to Perth, Huron, Lambton, Bruce,
and Middlesex Counties. It seems
that the applicant wishes to enhance
the delivery of gas to large retail
areas.

Over the years the applicant has
had the use of rural road allowances,
private property and farmland for laying
gas lines

Along the route of the proposed
pipeline there are 3 poultry farms,
5 dairy farms, 1 swine farm, 3 on farm
grain dryers and storage facilities

FILE # EB-2018-0306

People who live in the country and have their business there also should have the opportunity to enjoy and prosper by access to natural gas at a cost of energy and delivery comparable to other business and residents that the applicant intends to service with the proposed project.

Sincerely Allan R Jones

P.S. Would it be possible to hold the hearing in our area.
