Dear Ms. Li;

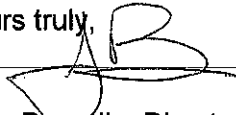

**RE: Alectra Utilities - Horizon Rate Zone - Renewable Generation Payment (Reg. 330/09)
EB-2018-0295**

On December 3, 2018, the Ontario Energy Board ("OEB") requested information from Alectra in regards to the renewable generation payments that Horizon Utilities Rate Zone ("HRZ") has been receiving from the Independent Electricity System Operator ("IESO"). Alectra Utilities provided the requested information to the OEB detailing the amount of renewable generation payments by year, beginning February 2012 to October 2018, totalling \$57,267. In addition, Alectra Utilities confirmed that the HRZ did incur actual expenditures for the renewable generation investments proposed and approved in Horizon's 2011 CoS Application EB-2010-0131. Alectra Utilities also confirmed that these investments were included in rate base in Horizon's 2015 Custom Incentive Rate Application EB-2014-0002.

Alectra Utilities requests that the current IESO renewable generation payments received by the HRZ of \$707 per month expire as of December 31, 2018.

Should you have any questions, please do not hesitate to contact the undersigned.

Yours truly,

John Bonadie, Director Rates & Settlements
