I think that these higher rates should not be approved. People in ontario pay enough for their gas Bills as it is and the service is just fine. The application states that it is for inflation but what about MOST people in Ontario who do not get yearly raises to match inflation? They are already losing income each year due to cost of living increasing and their salaries staying the same and these higher gas rates will only make it harder on the people of ontario. It may not seem like much of an increase but to a lot of people every dollar at the end of the month counts.
