Dear Ms. Walli:

Re: Enbridge Gas Inc. - Natural Gas Rate Increase
OEB File EB-2018-0305

I am formally requesting Intervenor Status and Cost Eligibility in the above referenced case. Since I am not on the Internet I am requesting mailed paper copies of the application, supporting information, submissions etc. so that I have paper copies that mirror all File EB-2018-0305 information posted on your Web Site and before the Board.

Intervenor Status:

I am the Gord Garland of '*Garland vs. Consumers Gas (Enbridge Gas Distribution Ltd.)*,' Ontario's first class action lawsuit, won twice at the Supreme Court and resulting in behavior modification by utilities across Canada.

I am a Enbridge Gas Inc. customer (formerly Union Gas). I phoned your Consumer Relations Centre on January 30, 2019 and requested paper copies of the EB-2018-0305 Application and the August 2018 OEB Decision and Order amalgamating Enbridge and Union Gas. If I am not in, couriers are to place documents between my front doors.

Intervenor Status: Eligibility for Cost Award

I am also requesting eligibility for an award of costs. To my knowledge I am the only Intervenor explicitly representing the interests of Goderich citizens who are customers of Enbridge. Further, I will be retaining a Researcher to reduce costs. My resume (3 p.), demonstrating my professional experience, is already on file in EB-2018-0082.

Oral vs. Written Hearing:

I believe the right to cross-examine witnesses / proponents is a fundamental principle of natural justice and that this right should be preserved in the current case. While my preference is for an oral hearing with cross-examination, the same end could be achieved with a Written Hearing that has an 'Interrogatory' component.

Thank you for your attention to these matters.

Yours, very truly,

Gord Garland / and
Concerned Citizens of Goderich
