Subject: EB-2018-0305 Letter of Comment re Rate Increase Application

I am sending this letter to register my complete opposition to the applicant's proposed rate increase. We already pay about \$20 a month for about half of the year for the applicant to "deliver" no gas to us, as we are not using any. The "delivery" fee is based on a pressured line being unopened, and that costs us \$120/yr for absolutely nothing. A rate increase would add insult to injury, and is not justified. Secondly, if the applicant claims that it requires an increase for an amalgamation then it shouldn't have proceeded with it. The said amalgamation provides no benefit to us whatsoever, and we shouldn't have to pay for it. Thank you for your consideration.
