Dear Ms. Walli:

**Re: Enbridge Gas Inc. ("Enbridge Gas")  
Stratford Reinforcement Project  
EB-2018-0306**

We refer to the correspondence dated February 7, 2019 from Ms. Shannon McCabe, Ministry of Energy, Northern Development and Mines, regarding the status of consultation Enbridge Gas is undertaking with Indigenous and Metis Communities with respect to this project.

Our Indigenous Affairs department had previously initiated, and continues to undertake, consultation regarding this project with Indigenous Communities, and those discussions are documented in the previously filed Indigenous Consultation Report.

Prior to this correspondence, Enbridge Gas had discussions with Ministry staff regarding this specific matter. Enbridge Gas confirms it is working with the Ministry and has contacted the specific Indigenous Community that has raised a question, and is confident that once discussions are completed and additional information is filed with the Ministry that they will be in a position to provide a confirmation of adequacy of consultation letter.

Enbridge Gas is confident that this will not impact the current project schedule and is not requesting any change or other modification to the current Procedural Order.

Yours truly,
