From my perspective, either the OEB and/or Union Gas/Enbridge Gas or both, are lying to Ontarians who not only expect but demand honesty, integrity and serious consideration when it comes to a "Monopoly" especially when it concerns heating and electricity basic necessities of Life. I received "Notice" of a pending RATE INCREASE on January 22nd – not yet resolved - from Union Gas/Enbridge Gas. On January 23rd I received my "Gas Bill" from Union Gas, not Enbridge Gas which has taken over from Union Gas effective January 1st, 2019, that was split between consumption in December 2018 - one set of rates - and consumption in January 2019 where in NEW RATES were applied. The NEW RATES, commencing January 1st, 2019, are 5.5% higher than the previously approved Rates. Millions of working Ontarians, never mind retirees, neither of which have received any where near a 2.0% Year over Year increase in gross earnings, are now being gouged by Enbridge Gas - Union Gas technically ceased to exist on January 1st, 2019 due to a takeover - with the apparent blessing of the OEB. For me, this is not only disgusting but down right bureaucratic stupidity on behalf of the OEB and contrary to the "Principals" espoused by the current Provincial Government. For me this existing situation has to be rectified forthwith before all HELL breaks out.
