As a small business owner, my income is not increasing every year & my expenses always going up without limitation, from minimum wage increase to taxes & other payments like Gas price that even though price of oil that is in direct relationship with natural gas.

I still don't understand why we have to pay more for something that suppose to be cheaper now than even last year & make rich, richer, while poor still getting poorer & you guys as a board that suppose to protect poor consumer, asking us to burden it & can't even do anything about it.
