To whom it may concern,

Re: Proposed gas increase by Enbridge.

I object to any price increase for "certain capital projects" proposed by Enbridge Gas.

Unless there is time limit given (years for this increase) / can it be increased/ will it be eliminated after the project is completed/ who is overseeing the project/ how will this project improve or help me in any positive way? These and other possible points must be addressed before I can feel comfortable with any more increases in my bill.

Being a pensioner makes one very sensitive to more monies being drained from my pocket.
