Dear Ms. Walli,

**Re: Intervenor Request Letter  
EB-2018-0205  
Enbridge Gas 2019 Federal Carbon Pricing Application**

Dear Ms. Walli,

I am hereby applying for intervenor status in the above-noted proceeding; namely the application of Enbridge Gas to raise its natural gas rates effective April 1, 2019 to recover costs associated with the *Federal Greenhouse Gas Pollution Pricing Act*.

**Statement of Interest**

I am an anti-corruption and pro-democracy advocate. I am working to ensure governments and government bodies, such as the Ontario Energy Board, comply with the law including the constitution.

I am intervening to ensure that the Ontario Energy Board complies with its governing statute and acts in a transparent manner. Compliance and transparency are fundamental elements of a democracy.

Regrettably, the Ontario Energy Board has frequently failed to comply with its governing statute and failed to act in a transparent manner. For example, the December 14, 2018 order of the Board established the Federal Carbon Charge – Facility Deferral Account. But the order failed to specify the legislative provision which grants the Board the authority to make this order.

I hope that all issues in this application can be settled through negotiation and that a hearing would be unnecessary. If a hearing is required, I plan to participate with respect to the above-noted issues.

**Costs**

My participation is to protect the public interest. Without the prospect of an award of costs, my ability to participate in proceedings will be very limited. I therefore intend to

seek a cost award in this proceeding. I am cognizant of the Board's guidelines regarding cost awards.

**Communications**

Communications relating to this Intervenor Request Letter should be directed to:

I request that Enbridge and the Board notify me when documents are filed with respect to the proceeding.

I look forward to participating in the proceeding.
